Heavy Northwest Receipts

Cause Longs to Sell,

OMAHA, Sept. 20, 1911.

THE OMAHA SUNDAY BEE: OCTOBER 1, 1911.

C

out the month and the present September record, 615,000 head, stands above every other September total ever made in the history of the South Omaha market. Bulk of recent supply consisted of lambs, mostly in feeder flesh, and the demand on most days had healthy tone. Everything cleared with litle selling of fort. Tuesday's session being the only slow one. Fat lambs broke 10% like at that time but these losses have since been recovered and the trade is closing just about steady. Fancy lambs are quotable as high as \$5.90, but the ordinary good classes are selling around \$5.606.60. Straight strings of fat lambs were rare exceptions and packing supplies were usually slited out of fits coring gate. Fat sheep ruled firm from the start and show no quotable changes as com GRAIN AND PRODUCE MARKET hrm; October, 7a 43ad, December, 7a 58ad, March, 7a 58ad, CORN-Spot, easy; American mixed, fa Consols were then only 's and Turkish bonds its lower than yesterday, while American shares were well above parity in the last hour of trading values were inclined to drop from the best and the market closed gulet with a feeling of increating further develop-for the Week. you expect that your eyesight would really be recovered?" he was asked. "I had every confidence in Dr. Knapp, but I did not have any more confidence than he did, and in a case of such dellcate surgery, and of such rare operation, no one could know definitely the outcome. But when I actually did see, and I realized what had come to me, my eyes filled. I was again blinded by tears,

LONG CORN IS LIQUIDATING Wheat Daller Today, War News is

market. The demand for hard wheat and improved prices hardiy offset the bearishness in the increases in stocks and the let up in the milling demand. There has been considerable liquidation of long corn. The news, however, has been builtsh-wet wethear, light country offerings, strong cash values-yet the trade shows very little snap. If the country offerings continue light, values

brade shows very little snap. If the country offerings continue light, values will likely advance.
Wheat was dulier today, war news was discredited and heavy receipts in the northwest caused some longs to sell. Cash wheat was strong to ic nigher.
The trade in corn was well mixed and values were a bit easier. News continues builtab and higher levels are likely.
Primary wheat receipts were 1,069,000 bu, and shipments were a 60,000 bu.
Primary corn receipts were 557,000 bu.
Primary corn receipts were 557,000 bu.
and shipments were 600,000 bu, against receipts last year of 1,111,000 bu.
Clearances were 119,000 bu, of corn.

CHICAGO GRAIN AND PROVISIONS

Features of the Trading and Closing Prices on Board of Trade.

Prices on Board of Trade. CHICAGO. Sept. 30.-From a market standpoint today the Italian-Turkien war went to the junk pile. So scant was the amount of new investment that wheat prices showed a decided decline, with the close %c to %c and hog products irregu-lar from 3%c higher to a drop of 22%c. Popular indisposition to assume new risks to carry over the week appeared to act as a bar to whatever bullshness might have developed in the wheat pit. The bulls were further depresed by heavy predictions that as many as 1,00 carloads had been acheduled to arrive Monday at Winnipeg. The only price forces, but the effect on traders quicks long of %6%c. with last sales 9%%9%%c. and Turkish forces, but the effect on traders quicks to 9%c, with last sales 9%%9%%c. up at %c. Negotiations were begun a year week, and shall not, except where specially mentioned or provided for he held ago with the view of limiting the production of aluminum and keeping up the to be included in any computation of prices, but owing to the attitude of the days, but shall otherwise be public bank American producers the movement has holidays .-- London Globa.

for it semed too good to be true," said the physician .- New York American,

PROPOSED CALENDAR REFORM

Change in Months and Holidays. Proposed by British Parliamentary Bill.

Some novel proposals are contained in the fixed calendar bill presented by Sir Henry Dalziel and supported by Mr. Wilkie, Mr. Pringle and Munroe Fergu-

son. The memorandum accompanying the text of the bill, issued today, ex-1 plains that the measure purposes to substitute for the present irregular calendar a fixed calendar having regular periods, of which the week is a common measure. It differs in some important features from the calendar reform bill intro-

duced on March 15, 1908, by Robert Pearce. That bill sought to make the concludes the physician, "in the way of months as uniform in length as possible, but as a difference in this respect is unreadily in a combination with other ap- avoidable in a year with twelve months propriate substances. It is not to be for- it is thought better to increase that difgotten, however, that the healthy diges- ference so us to allow of the week betion and complete assimilation of such ing a common measure of all the months, energy yielding foods requires an admix- This arrangement makes it possible for ture of those qualities which we have seen each month to begin on a Sunday and

> The memorandum points out that, although the making of a definite and regular difference between the lengths of the months does not introduce any new element into the meaning of the word "month," seeing that the months already differ in length, it has been thought well to codify the present rule determining monthly periods and to make a rule regarding the computing of monthly salaries. The bill provides that the conditions of labor on New Year day and Leap day, and also the remuneration thereof shall conform as far as possible

In meeting the desire for a fixed date NOVEL USES OF ALUMINUM for each of the moveable holy days it has been thought sufficient to -nact a Marvelous Increase in Product in fixed date only for Easter, which is to

be upon April 15, as all the others are calculated from the date of Easter. As For several years France was the only in Mr. Pearce's bill and in the calendar country producing aluminum. The num- act of 1751, provision is made regarding ber of French aluminum factories has the comings of age and other events ncreased in the region of the Alps, espe- which may be affected by the passing

there are six establishments. With the The bill, if passed by Parliament, will two other French factories it is estimated act become operative until the crown dethat the total output is considerably cides that sufficient international concurrence has been secured.

The reduction plant established in 1889 A table giving the proposed fixed calat Neuhausen in Switzerland has had endar shows that the months of Janualmost successful existence. Starting with ary, February, April, May, June, July, an annual production of forty tons of August, October and November would

1,000 frances (\$125). The Swiss control of the aluminum as Leap day, which is to be intercalcumarket, which had existed for several lated between the last day of June and

aluminum, it turned out no less than 2.621 each consist of twenty-eight days, while tons in the first nine months of 1910, val- the remaining months of March. June. ued at more than \$540,000. The company September and December would each has several branches, all of which are have thirty-five days. New Year day is operating successfully. Its stock has set apart, thus bringing the total of days never yet paid less than 12 per cent, in up to the requisite number of 255, while 1906 it paid 26 per cent on a par value of for leap years a special day is set apart
