How to Drive Away Wrinkles and Double Chin.

(Standard American Styles.)

The clever woman of today does not sit down and fold her hands and resign herself to a wrinkled face, double chin, crow's feet and enlarged pores. Nor does she try the numerous and varied cold creams and lotions on the market which elaim to annihilate wrinkles and sigginess. What she does do - this dever woman-is to get of her druggist an ounce and a half of thermodised jelly, rubbing half a teaspoonful into skin until it is perfectly abher skin until it is perfectly ab-sorbed, and then bathing her face with oold water. This remedy is as simple as it is effective. It gives nourishment and beat energy to the worn-out flasues. The skin imme-diately feels taut and refreshed—the flesh firm and compact. One application works a marked improvement in her looks and every day her mirror tells her she is grow-ing younger and prettler. For filling out hollowness in the neck, shoulders and arms nothing is so effective as thermodized jelly.

Society Women Remove Bad Complexion By Old

(From Woman's Home Bulletin.)

The average woman is now quite universally following the example of a few clever society women who discovered that the old-fashioned pure colested balsam would renew their complexions in a most surprising manner. When applied at night, after cleansing the skin, the deadened and discolored particles of the outer skin drop off and with it all such blemishes as pimples. sallowness, liver spots, freckles, etc., freelug the fresh healthy cuticle beneath-and behold! a nat-ural and lovely skin is the result Get an ounce and a half of pure coleated balsam of your druggist and use it as suggested. Nothing will inspire admiration of others and confidence in yourself more than the knowledge that your skin is faultless and lovely.

Mme. S. R. Andrees, Expert Corsetiere from the Makers Will Be at Our Corset Section All Week So That the Women of Omaha May Have the

Benefit of Her Valuable Services.

Low bust, straight hips, flat back are the essentials which, correctly embodied in this most important garment of women's apparel, receive fashion's approval.

Low bust models in Gossard corsets are made with flexible top clasps, and are designed with special regard for freedom and perfect ease at bust and diaphragm, entirely eliminating the compression characteristic of other low bust models.

The closed back of Gossard front-laced corsets gives opportunity for elastic section, which assures the smooth and close fitting back at bottom of corset when standing and gives utmost comfort when seated. This important feature is not possible with back-lacing corsets because of the lacings.

It is practically an impossibility to correctly adjust a long back-lacing corset, while our longest front-laced corset is adjusted with ease and accuracy before your mirror.

Model 107, which is pictured here, has a very low upper portion and while meeting the requirements of the girdle top, or bustless corset, has sufficient extension above the waist line prevent any danger of an exaggerated softness in outline of bust and back Prices are \$6.50 to \$25.00.
