BROTHER KILLS HIS BROTHER

Frank Larson, Living Near Lyons, Commits Deed from Jealousy.

SAYS DESTROYED HIS HOME

Telephoned to Brother Charles to Come to His Place and Opened Fire as Soon as Reached There.

LYONS, Neb., Oct. 2.—(Special.)—Frank V. Larson shot his brother, Charles V. Larson this morning about 10 o'clock, blowing the top of his head off with a shotgun.

He had telephoned to his brother to come over and when Charles did so Frank met him with the gun and killed him at close range. He then came into town, riding with a neighbor, and after doing some business, gave himself up. Larson says he committed the crime because his brother had destroyed the happiness of his home. There had been some jealousy for about three years past, according to the neighbors, but few believe there was any ground for the same. Larson of late has shown signs of mental derangement.

Last week a horse kicked him. He went into the house, it is said, got a gun, went to the stable and killed the horse. He is in jail here awaiting action of the prosecuting officers.

FREMONT, Neb., Oct. 2.—(Special.)—George Odren, a farmer from Orchard, claims that he was relieved of his pocket-book containing \$38 by Ed. Gifford, who occupied the same room with him at a rooming house Friday night. Odren came to Fremont with a bunch of horses and while here struck up an acquaintance with Gifford, who claims to be a real estate agent. He put his money under his pillow and when he got up in the morning the cash and Gifford were both gone. Gifford was later arrested by the police. He had a grip containing a quantity of deeds to property in Florida and Kentucky and other states with the grantor's name left blank and a notary seal of J. Terry, notary public, Lancaster county, Nebraska. The county clerk at Lincoln telephoned the police that there was no such notary public in that county.

Corn Crop Looming Up on Burlington

G. W. Holdrege, general manager of the Burlington railroad, has received the weekly statement of crop conditions on the Alliance, Sheridan and Sterling divisions from E. E. Young, superintendent. In the Alliance territory the corn is ripening rapidly and will make from ten to forty bushels per acre. On the Sterling division a fair crop will be realized, but the report for the Sheridan division is, "No corn grown."

The report on the vegetable crop says half of an average crop has been raised on the Alliance division, from 20 to 80 per cent of a crop will be secured in the Sheridan division and on the Sterling division the yield will vary from 30 to 100 per cent of an average crop.

Alfalfa is the only hay crop to have yielded a fair tonnage per acre. Prairie hay was light and pastures are now dry. In his report Mr. Young predicts that the corn yield in Nebraska this year will surpass that of 1910.

There is no scorched air, no ash-dust, no coal or cellar-gases to work injury to the health. No matter how chill and long the night, you can beat back the pinching cold and keep every cubic foot of your house freshly ventilated and radiantly warmed.

In many cities and states the law now compels that all newly-built schools shall be outfitted with our way of heating (all greenhouses and hospitals have long ago proven it to be the only perfect way). If your child is thus wisely, sanitarily protected in school, why not adopt this right way of heating your home, since the prices now rule so reasonable, and IDEAL Boilers and AMERICAN Radiators can be so quickly and simply put into cottages, stores, churches and other structures already built.

IDEAL Boilers and AMERICAN Radiators are a substantial paying investment, as they will outlast the building. Their purchase will increase the sales and rental value of the building, and they will soon repay their cost in savings of fuel, labor, repairs, and in the lessened house-cleaning and wear on carpets and furnishings.
