CHICAGO GRAIN AND PROVISIONS

Features of the Trading and Closing

Prices on Board of Trade.

Prices on Board of Trade.

CHICAGO, Oct. 9.—Evening up of trades to be prepared for the government crop report rained the wheat market today from depression due to better weather northwest. The close was a shade to ich igher than Saturday night. Corn showed a net loss of light to ich igher than Saturday night. Corn showed a net loss of light to a like amount up and hog products varying from 2 ich decline to an equal advance.

The Washington figures regarding spring wheat turned out to be slightly builish. The fact was not definitely known, however, until trading had come to an end. Indeed for the greater portion of the day a heavy tone prevailed, the result largely of hedging sales for the northwest. The bg increase in visible supply formed another influence against the buils. Hesides the edge was off the cash market. The main factor most of the time, however, was the idea that the better weather in American and Canadian northwest would permit a renewal of threshing and hasten the former and of the ship and hasten the former and the tending and the tendi that the better weather in American and Canadian northwest would permit a renewal of threshing and hasten the forward movement of the crop. As a rule speculators inclined to buy did not act on the report that Turkey had declared grain shipments to be contraband. The only real comfort on the bull side came from contemplating the notion subesquently verified that the government report would be against the boars. During the session December fluctuated between \$75\% 67\% 67\% closing firm at \$7\% a gain of \$2000 \$21.\$

buying worth mentioning of a purely speculative character.

SHEEP—For the first time in many days the market for sheep and lambs appeared wobbly. Twin factors, a heavy supply and relatively poor demand from the country, were mainly responsible for lack of activity and easier trend to values. These conditions were also aggravated by one of the largest runs of the season at Chicago and all early advices from that market were decidedly bearish. Very little business was transacted in any branch of the trade during opening rounds, but a big majority of feeder stock in receipts placed good fat grades in a firm position, and strings of this description usually escaped cost cheapening, ruling just about steady. Toppy fat lambs, coming straight, were rare exceptions, and bulk of packers' buy had to be shaped up through the vorting gate. Good lambs ranged around \$5.5956.60, indicating a limit of \$0.90 for something prime in this line.

Heavy wethers, rather rough, sold in a wholesale lot at \$3.75, and ewes landed at figures little different from those in force at last week's close. Few good yearlings were available, but inquiry had healthy tone and offerings moved off in very good senson. In general light proportion of fat sheep did not admit of weaker prices and trade as a whole was well sustained.

Feeders, claiming the market, met with Duluth Grain Market. DULUTH, Oct. 2.—WHEAT—No. hard, \$1.09%; No. 1 northern, \$1.07%; 2 northern, \$1.07%; No. 2, \$75,0000 December, \$1.07% asked; May, \$1.11 Omaha Produce Market, BUTTER-Creamery, Ec; packing stock, 19c. a slack demand and clearance promised to be difficult. Desirable lambs with quality and a little weight sold around \$5 and high-grade stock proved very slow over \$5.10. Most of the early sales carried figures under \$5, indicating a list of values weak to a dime lower. Feeder ewes sold largely under \$1, the same as recently. Out of a total supply of 48,000 head the percentage of feeders was estimated at seven-tenths.

feds were offered found a ready sale at somewhat stronger prices, but the quantity and quality of the offerings prevented any very intelligent comparison of prices as compared with last week. The tone to the trade, however, was decidedly stronger and the demand also showed improvement.

In western rangers the beef end of the receipts was fairly large, but as was the case last week, the quality was not very good as a rule. Anything attractive enough to bring out competition found a roady outlet at prices strong to a dime higher than last week and the tradies.

Coffee Market.

NEW YORK, Oct. 3.—COFFEE—Futures opened irregular at an advance of 15 points to a decline of five points, near months being higher on active covering inspired by the continued strength of Brazin and higher European cables, while the late deliveries reflected a less urgent demand and scattered realizing. Trading was very active, but while there was liberal profit taking, offerings were to small to supply the demand around the opening figures, and following private cables from Brazil reiterating complaints of unfavorable weather for the the case last week, the quality was not very good as a rule. Anything attractive enough to bring out competition found a roady outlet at prices strong to a dime higher than last week and the trading was tolerably active. The medium to common kinds that did not appeal to the reachers or the feeder buyers showed little or no improvement and trade was a better demand for cows and helfers than last week and most grades sold to rather better advantage, although the preponderance of low grade should be received to reduce the swaff naturally operates of the swaff naturally operated to the transport that the preponderance of low grades should be a steer was not overly active and for the most part traders carried over the real supplies from last week. Yard industry from the country and desirable objects, although there was a very fair industry from the country and desirable objects, although there was a very fair industry from the country and desirable objects, although there was a very fair industry from the country and desirable objects the swaff of the swaff of the swaff of the swaff of the swaff of

NEW YORK STOCK MARKET

Trading Becomes Dull Following Period of Moderate Activity.

BEARS MOVE AGAINST COALERS

selling of These Stocks Associated with Convening of Supreme Court Which is to Pass on Reading Case Soon.

NEW YORK, Oct. 2.—Heaviness of the coalers and strength of the southern roads gave today's stock market its only movements of importance. Following a period of moderate activity in the first hour the market became duil. Trading was without initiative or purposs. Although the excited selling which kept the market in an hysterical state most of last month has now definitely publiced, security owners have shown no inclination to increase their holdings or take back stocks sold on the declins.

The market opened today on a somewhat higher level, but the improvement was of short duration. The coalers were for ed down to well below Saturday's close and the remainder of the list sagged with them. Before noon the market had recovered its losses, with the exception of the coal stocks, and during the remainder of the session changes were only nominal, except in a few isolated cases. Reading was heaviest of the coalers, at one time showing a loss of more than 2 points.

The selling of those stocks was associated with the convening today of the supreme court, which is soon to pass upon the government's case against Reading in the anthracite suit. This is the first case of this precise nature to come before the supreme court since its promulgation of the "rule of reason" in interpretation of the Scherman law.

Nothing more definite than a report of a coming extra dividend for Louisville and Nashville was at hand to explain the buoyancy of southern railers. Both Atlantic coast and Louisville & Nashville advanced more than 4 points and other southern roads scored smaller gains. The decline in Allis-Chalmers securities which begun last week was continued today. The 5 per cent bonds sold down to 58, a loss of nearly 2 points, and the preferred stock declined 2%, although both issues subsequently made a partial recovery. Reports that the company was not carning its fixed charges were followed by the official admission that the corporation's business had fallen off largely.

A larger increase in copper stocks than had been expect

without influence on stocks.

Further reductions in the price of various steel products were reported. United States Steel was sold on these changes, and on a report subsequently denied officially, that the Department of Justice was to bring a suit for dissolution of the corporation at once. The stock yielded for a time, but later recovered fully.

Bonds were irregular. Leading issues showed early heaviness, but the general

showed early heaviness, but the general tone improved later. Total sales par value, \$2,570,000. United States 3s advalue, \$2,570,000. United States 3s ad-vanced ½ on call. Number of sales and leading quotations
