Principal McHugh Issues a Statement **Against Fraternities**

Principal McHugh of the Omaha High school has issued a circular letter to the parents and guardians of the students calling attention to the state law regarding high school fraternities and touching upon social activities of students with relation to their school work.

In regard to the fraternities Principal McHugh says in part: "The State of Nebraska has passed a law, which became effective July 1, 1909, making it unlawful for the pupils of any high or elementary school to participate in, or be members of, any secret organizations or secret fraternity. The bill also provides that the school authorities are authorized and empowered to expel any student for failure or refusal to comply with this act. Also it is made a misdemeanor for any person to be upon the school grounds or to enter any school building for the purpose of soliciting any pupil to join any fraternity, society or association.

Of the relation of social activities to the high school, Principal McHugh says: The high school conducts no social affairs whatever with the exception of the senior banquet at commencement, and there are no parties given under its supervision or for which it assumes any responsibility. It is not the desire of the school authorities in any way to dictate as to the social activities of the pupils as that is a matter which rests entirely with the parents. It is undoubtedly true, however, than in many cases the attendance upon too many scial affairs is the cause of failure to carry school work.
