REDMEN AVOID POLITICS

Adopt By-Laws that Will Stop Lobbying for Office.

PENALTY WILL BE REJECTION

State Convention of Suffragists Rejects News of California Vote on Question with Great Regret.

(From a Staff Correspondent.)
DES MOINES, Ia., Oct. 11.—(Special Telegram.)—The grand lodge of the Red Men of Iowa decided today to hold the next meeting in Davenport. The lodge adopted a number of new bylaws, and one of these forbids politics of any sort in seeking grand council officers, and in case the candidates do not carry their office this way their candidacy will not be accepted. A man who wishes a grand office must personally announce his candidacy by writing a registered letter to the great chief sixty days before the annual meeting. The candidate cannot write letters to delegates nor can his friends or tribe endorse his candidacy. The penalty for violation of this law is the rejection of the man.

Suffragists Disappointed.
The state convention of women suffragists in Perry today held a memorial session against the failure to adopt the constitutional amendment providing for woman suffrage in California. The delegates had confidently expected that they would be informed of the success of the fight in California and were much wrought up over the news. They agreed in stating that the fight would be renewed in California and elsewhere.

ARMISTICE IS AGREED UPON

(Continued from First Page.)
ments. Even doors and windows were removed and the powder magazines pillaged.

The Turks appear to have had enormous supplies of ammunition, guns, rifles and projectiles. Quantities of powder, cartridges and shells have since been recovered from the looters and the Italians have blown up three large powder magazines. Looters and escaped prisoners are constantly being recaptured. Signs of looting are visible on all sides in the inconspicuous attire worn by miserable negroes and the raged natives, who are able to wear boots, furs and fine clothes. From the summer uniforms of the Turkish soldiers.

One of the curious sights of the town is the appearance of Turkish police and soldiers, who have been enrolled in the Italian service, all clad in Turkish uniforms and wearing Turkish turbans, accompanying the Italian governor and other officials and aiding the Italian marines to restore order and arrest criminals.

Torpedo Boats Sunk.
LONDON, Oct. 10.—A dispatch to a London news agency from Pera says that the Turkish torpedo boats Tokat Hamid Abad, Alpagut and Antalia, while returning from the Oran sea, were passed by an Italian squadron near Mytilene October 8. A smart engagement followed and three of the torpedo boats were severely damaged and sunk. The fourth escaped by hoisting a foreign flag.

ROME (Via Frontier), Oct. 11.—A message from Tripoli today says there was great excitement among the poorer classes of the natives when steamers loaded with provisions arrived. It was planned to distribute these among the hungry in Tripoli and Captain Cagni of the Italian landing force is devising a plan to make sure that the supplies should go to those in the greatest need.

The approaching landing of the troops is impatiently waited. The sailors on shore are beginning to experience exhaustion from being on duty practically night and day.

The ministry of public works here is already preparing a plan to revive the commerce and industry at Tripoli. At the same time the war office is studying the organization of the permanent body of colonial troops which Italy will require when the war is ended. It is figured that 30,000 men will be needed to garrison Tripoli and 7,000 more to protect Eritrea, the Italian colony on the Red sea, and Somaliland, the Italian protectorate on the Indian ocean.

Turks Expected Reinforcements.
PARIS, Oct. 11.—Communication with Tripoli having been re-established the details of the situation there are pouring in. From today's advice it would appear that Munir Pasha, the commander of the Turkish garrison, together with his staff, trusted until the last moment that they would receive reinforcements. When they were finally compelled to retreat before the Italian guns they went so hurriedly that of necessity many supplies were left behind which might have been carried off had they withdrawn earlier.

Even now Munir says that Constantinople must have some plan to come to his aid. Meanwhile he is gathering his forces in the Ghazal hills to which he retired. He has at his disposal provisions for six weeks.

It seems to be the intention of the Turkish commander to resist the Italians as long as possible.

A Simple Way To Reduce Wrinkles

(From The Home Maker.)
Bear in mind that wrinkles, as well as bagginess of cheek or chin, are due to the muscular tissue losing its strength and shrinking. The skin is then too large in area to fit such tissue smoothly. It wrinkles or sags.
To remedy this condition there's nothing so effective, so quick-acting, as a simple wash lotion you can easily make at home. Get an ounce of powdered sassafras at your druggist's, and a half pint witch hazel, mix the two and bathe your face in the liquid. This treatment at once tightens the skin and softens the underlying tissue—which of course smooths out the lines and draws in the sagging skin. It also stimulates circulation, bringing natural color to faded cheeks.—Adv.

Buy Wisely

In these days of so many imitations and imperfect diamonds much care should be used in the purchase of a stone. Every dealer in diamonds cannot be trusted, and buyers should not be deceived by "commercially perfect" and "perfect cut" terms which are not employed in describing really fine diamonds.

When you buy at the Edholm store you are told, in plain terms, the whole story of the diamond you inspect. You are told the truth and know just what kind of a stone you are getting. Don't Merely Buy—Invest.

Effect of Great Kidney Remedy is Soon Realized

I feel it my duty to let you know what Swamp-Root did for me. I was bothered with my back for over twenty years and at times I could hardly get out of bed. I read your advertisement and decided to try Swamp-Root. Used five bottles, and it has been five years since I used it, and I have never been bothered a day since I took the last bottle of it. I am thoroughly convinced that Dr. Kilmer's Swamp-Root cured me and would recommend it to others suffering as I did. My husband was troubled with kidney and bladder troubles and he took your Swamp-Root and it cured him. This was about five years ago.

You may publish this letter if you choose.

Very truly yours,
