GRAIN AND PRODUCE MARKET

Many Bulls Are Disappointed by the Weak and Lower Cables.

CORN SELLS MOST LIBERALLY

Wheat Futures Are Affected by the Cables, Making the Market Sag Throughout the Session of the Exchange.

OMAHA, Oct. 11, 1911.

Weak and lower cables were a disappointment to bulls, who bought wheat on the more active cash demand. Foreign weakness reflects the denials of any frost damage in Argentina and a more favorable political outlook in Europe.

Heavy stock at all primary markets more than offset the unfavorable harvesting returns from the spring wheat states and a heavy milling demand is necessary to hold present prices.

With clearing weather over the corn belt and the easy tone in the wheat market there was a return of liberal selling in corn. When this class of selling runs its course the strong cash situation and light country movement will more than likely assert itself.

Wheat futures were affected by the weak and lower foreign cables, the market sagging throughout the season. Cash values were strong to ¼c higher.

Weakness in wheat and more favorable weather induced some longs to sell, but the conditions are still bullish and light receipts advanced cash prices ¼c.

Primary wheat receipts were 1,185,000 bu. and shipments of 526,000 bu. Last year was a holiday.

Primary corn receipts were 413,000 bu. and shipments were 350,000 bu.

Clearances were 147,000 bu. of corn, 2,000 bu. of oats and wheat and flour equal to 243,000 bu.

Liverpool closed ⅝@¾d lower on wheat and ¼d higher on corn.

The following cash sales were reported:

CHICAGO GRAIN AND PROVISIONS

Features of the Trading and Closing Prices on Board of Trade.

CHICAGO, Oct. 11.—Because frost in the Argentine failed to work any injury to crops there was a generally weak tone today in the market for wheat, although evening up of trades brought about a rally in the last half hour. Compared with last night the close was ¼c lower to a shade advance. Corn finished ¼@¾c down, oats at 1-16c loss to ¼c gain and provisions varying from unchanged figures to an increased cost of 7½@10c.

In view of the Argentine frost damage reports having turned out to be practically groundless, wheat speculators were not surprised to see the market suffer a backset right at the start. Notwithstanding a disposition exhibited by many dealers to curtail or postpone business until tomorrow's holiday, there was considerable short selling on the part of other traders, who, however, scrambled to cover in the end, so that the windup was relatively firm. Between the opening and the close December fluctuated from 97¾c to 98¾@98¾c, with last sales a shade net higher at 98¾c.

In the corn crowd the bearish influence of fine weather had an offset—good buying for local supporters of the larger sort. December touched as outside limits 64¾c and 64¾c, closing steady, but ¼c off, at 64¾@64¾c. Cash grades were offered in only a moderate way. No. 2 yellow finished at 71¾@72c.

Important resting orders to buy May oats on the basis of 50c strengthened other options as well. December varied from 47¾@47¼c to 47¾c, with the close at 47¾c, exactly the same as last night.

Support from packers counteracted provisions weakness. At the close pork had risen 7½@10c. Lard was unchanged to 5c up and ribs 5@7½c higher.

NEW YORK STOCK MARKET

Spirited Bidding Carries Prices Above Previous Day's Close.

STEEL STILL UNDER PRESSURE

Reading Fluctuates Irregularly and This Militates Against Any Extended Improvement in Prices.

NEW YORK, Oct. 11.—A spirited bidding up of prices in the last half of trading on the stock exchange today carried quotations to a point above the final range of the previous day. Union Pacific, Southern Pacific, Lehigh Valley, Northern Pacific, American Smelting and American Beet Sugar rose to a point of more above yesterday's close on the upturn, and Reading, which had been the conspicuous weak feature of the market, recovered its loss. Profit taking sales just before the close reduced these gains somewhat.

Concentrated trading of Reading sent it down from 137 to 135⅝, less than two points above its low level of the year. The stock fluctuated irregularly throughout the day, and this militated against any extended improvement in prices. An upward movement at the end was attributed to the closing out of short contracts on account of the holiday tomorrow.

United States Steel was still under pressure. In the late upturn it rose less proportionately than other market leaders and it was the first to yield when profittaking sales were begun.

The demand for bonds continued to broaden, which is regarded as one of the most hopeful signs of the present situation.

American Tobacco 4 per cent bonds rose to 90, the highest price for the movement, which represented a gain of 1⅜. Buying of these bonds was stimulated by reports that the plan of reorganization had been changed in such a way as to benefit holders of these securities.

The tone of foreign markets were more cheerful, owing to the progress in the Moroccan negotiations.

Bonds were strong. Total sales, par value, $5,710,000. United States bonds, unchanged on call.
