This Is a Real Boys' Store

The boys' clothing section is a hobby of ours—for years we have studied boys and their clothes needs.

Instead of pushing the boys' department into some out-of-the-way corner, we placed it right in the heart of the store. It is the largest section devoted to boys' apparel in Omaha, and being the largest it naturally offers a greater range of styles from which to choose.

By purchasing in large quantities we are enabled to obtain the highest grade of clothing at very reasonable prices—we share this saving with you by giving the finest grade of boys' clothes at less cost than they can be secured at any other store.

FARMER SHOOTS BROTHER

Oleson Lies in Wait for Corn Thief and Finds Brother Near Bin.

VICTIM TAKEN TO HOSPITAL

Brothers Live on Adjoining Farms South of Papillion and Ill Feeling Had Not Been Known to Have Existed.

William Oleson, a farmer living six miles south of Papillion, was shot at 5 o'clock this morning by his brother John and is in a serious condition at the South Omaha hospital. Three shots were fired, one taking effect in the stomach, one in the groin and the other in the shoulder. Sheriff Spearman of Sarpy county arrested John immediately after the shooting and locked him up in the South Omaha jail.

William Oleson had been missing corn from his grain bin for some time, but was unable to ascertain the identity of the thief. Wednesday night he decided to stay up and keep a watch over his corn.

Nothing happened during the night and he left his vigil about 4 o'clock in the morning. About an hour later he heard a noise near the corn bin. He went out to see what was the trouble and found his brother John standing near the corn bin. He said: "Why, John, what are you doing here?" and John drew a revolver without any warning and fired three shots.

John Oleson has a farm adjoining William's. Trouble has existed between the two brothers for some time. The doctors say that William is in a very precarious condition and is likely to die.

Many Mexican Rebels Die in Battle Near Tuxtla

TUXTLA, Guetirrez, Chiapas, Mexico, Oct. 11.—Fighting late Monday afternoon for the possession of the little town of Chiapitla, held by insurrectos, whose strength was estimated as 900, volunteers, numbering but 150, killed 130 rebels and captured 106, eighteen of whom were wounded. The loss to the government forces is given at less than a dozen killed.

The rebel force was three-fourths Chamula Indians. They were armed principally with machetes and lances and a antiquated firearms.

Mrs. James B. Wootan, 602 Lafayette avenue, Omaha, has a brother, Rev. S. V. Dilley, D. D., in Tuxtla. He is doing missionary work there and in a recent letter he spoke of the hostilities as very serious. Many women and children had fled the city for refuge elsewhere, and some of the men who remained felt none too comfortable with well developed war waging about them. Business was at a standstill and prosperity was not altogether unlimited. Tuxtla, it seems, has been one of the storm centers right along, though the people there felt at the first of the revolution, which broke along the American border, that it would scarcely reach them.

PORTUGUESE ROYALISTS DEFEATED AND CAPTURED

LISBON, (Via Frontier), Oct 12.—The royalists, taking advantage of a storm Tuesday night, made a foray from their mountain stronghold in the direction of Vinhaes. Republican troops interrupted and engaged the enemy at close quarters. The firing from both sides was intense for some time in the darkness.

Then the royalists gave up the attempt and retired to the passes in Sierra Da Corda, within half a mile of the Spanish frontier. They left several dead and wounded on the field. Colonel Bardoja, commanding the Tenth regiment stationed at Braganza, was relieved of his command yesterday and ordered tried by court-martial. He is accused of delaying forty-eight hours after learning that a monarchy column was in his district and of being moved only on most urgent orders from Lisbon.

The republicans have captured 250 men who had deserted the royal ranks on becoming separated from their commands. The prisoners revealed the hiding place of royalist arms. In one cave was found 1,000 Mauser rifles, 600 revolvers and 50,000 cartridges.

(From a Staff Correspondent.)

DES MOINES, Ia., Oct. 12.—(Special Telegram).—The state parole board has issued a letter to large employers of labor in Iowa asking their assistance in finding work for paroled convicts. This is addressed especially to manufacturers and others using skilled labor. The Iowa state teachers' association today became an incorporated body by filing articles of incorporation, but without capital stock. The association has thirty thousand members. The purpose of the incorporation is so that the reserve fund which the association has been accumulating may be better cared for.

Ruling Affects Medics.

The State Board of Health, through Secretary Sumner, has made a rule that students in medical colleges who fail in their sophomore year must drop out of college and complete their preliminary work before they can continue the study of medicine in any Iowa medical college. The ruling will materially affect the welfare of many medical students, who, when they fail the first year, take the same year's work over again, pass the examination, and go on with their course.

Miller of Des Moines, state president, showed the 400 clubs in Iowa to have 12,000 members.

Eighteen Persons Drowned by Tidal Wave in Mexico

NOGALES, Ariz., Oct. 12.—Eighteen persons are dead as a result of a storm which swept the western coast of Sonora, Mex., a week ago today. Many more are missing.

Roasali, with 5,000 people, has been for five days without water, excepting scant supplies sent irregularly from Guayamas. One mining property suffered damage estimated at $2,000,000.

EL PASO, Tex., Oct. 12.—A special to the Herald says that the tidal wave which struck Guayamas, Sonora, washed out a causeway three kilometers long over an arm of the bay. The waves leaped a sea wall and water ran three feet deep in the streets. Trains from the south are running only as far as Hermosillo.

MEXICO CITY, Mexico, Oct. 12.—Reports received by the Department of the Interior today indicate that there was a big property loss, but few fatalities as a result of a storm that swept the coast of the state of Sonora last Thursday. The telegraph wires were not restored until last night, when the government received its first word of the disaster.

According to official advices the village of San Jose De Guaymas was practically destroyed. The railway stations at Empalme and Ortiz were torn down.

The lower part of Guaymas, the port city, was inundated by the sea to a depth of two feet. No lives were lost there.

The wind rose at 3 o'clock in the morning and attaining hurricane velocity, continued for some hours. Iron roofs of many buildings including the custom house, were blown away and smaller structures were levelled at Guaymas. A few lighters in the harbor were driven ashore. One man was killed at Espaline. Communication with San Jose De Guaymas has not yet been re-established.

Prices Paid for Most Crops Higher Than a Year Ago

WASHINGTON, Oct. 12.—Short crops corn, potatoes, hay and oats and a good crop of cotton have had their effect on prices, which are being paid to farmers for their products.

Inquiry by the Department of Agriculture regarding prices paid on October 1, compared with that date a year ago, shows that barley averaged 45.6 per cent higher; potatoes, 30.2 per cent higher; hay, 22.7 per cent higher; oats, 17.4 per cent higher; corn, 7.5 per cent higher; buckwheat, 2.4 per cent lower; wheat, 5.7 per cent lower; chickens, 6 per cent lower; butter, 9.2 per cent lower; eggs, 10.7 per cent lower; flax seed, 12.4 per cent lower and cotton, 23.3 per cent lower. Similarly prices on September 1, compared with last year for clover seed averaged 23.2 per cent higher; sweet potatoes, 23.1 per cent higher; onions, 5.1 per cent higher; honey, 2.2 per cent higher; cabbage, 2.2 per cent higher; milk, 0.5 lower; beans, 0.9 per cent lower; milch cows, 1.1 per cent lower; horses, 4.1 per cent lower; apples, 4.6 per cent lower; beef cattle, 4.7 per cent lower; veal calves, 5 per cent lower; wool, 11.9 per cent lower; lambs, 15.4 per cent lower; sheep, 18.7 per cent lower; hogs, 21 per cent lower.

Walsh's Name Not on First Parole List

LEAVENWORTH, Kas., Oct. 12.—In the first list of paroles granted by the Federal Board of Parole at its last meeting, the name of John R. Walsh, the Chicago banker, does not appear. Either ten or eleven men, at least two of whom were bankers have been ordered released, it is understood.

Walsh's hearing came before those of the men who are to be paroled it is understood. As the cases are taken up numerically by the board this is thought to be an unfavorable sign for Walsh.

It is possible of course, for the board still to pass on Walsh's case, but the fact that it has been passed over once without favorable recommendation makes the outlook more discouraging for the former banker and his friends.

The bankers who are to be paroled are said to be from Indiana. Five Indiana bankers, Max H. Emmerich and C. Printzler of Indianapolis, Ind.; E. H. Dietzer of Fort Wayne; J. H. Phillips of Terre Haute and F. H. Nicolai of Auburn, all five-year men, made application for parole at the last meeting.

All of these men are said to be model prisoners and their chances for release were thought by many to be favorable. All of these prisoners pleaded guilty on the same day, November 28, 1909 and were sentenced by Judge Anderson five days later. They came to the penitentiary in a body.

It is improbable that any of the men will be released before tomorrow or Saturday. It is necessary for their parole papers to arrive here and "first friends" to vouch for them before they can leave the penitentiary.

How to Make Your Complexion Faultless.

(Ladies' Home Magazine.)

A noted Englishman visiting our country said recently: "Hats off to the American women, because they put up a successful fight against old age." This is true in nine cases out of ten. The typical American woman goes in to win when she commences her battle with Father Time. One of her chief weapons is the careful study of her complexion. And many of our women have found out that using the old-fashioned remedy, pure coleated balsam, will clear and beautify and make faultless their skin as nothing else in the world will. Therefore they turn a deaf ear to the druggist who is trying to sell them expensive cosmetics put up in fancy boxes. These creams and lotions and patent preparations only patch up their complexions temporarily, while an ounce and a half of pure coleated balsam will actually renovate the complexion by gradually absorbing the old, deadened and discolored skin particles, and substituting fresh, healthy skin, which quickly forms underneath. Sallowness, pimples, liver spots, freckles, tan, etc., cannot abide on the face of the woman who uses this old-fashioned home remedy.

COLUMBUS VISITS CHICAGO

Discoverer Reaches City with Three Caravans This Morning.

WELCOME BY MAYOR HARRISON

Scenes Marking First Landing in America Are Re-Enacted with Dignified Ceremony at Grant Park.

CHICAGO, Oct. 12.—With elaborate pageants on land and water, Chicago today celebrated Columbus day in honor of the 419th anniversary of the discovery of America.

Members of the Knights of Columbus, impersonating Columbus, King Ferdinand, Queen Isabella and other characters of the period, boarded three Spanish caravels at Jackson park and sailed to Grant park, where the party was welcomed by Mayor Harrison and other officials, and the scenes marking the discovery of America were re-enacted with dignified ceremony.

Solemn high mass was celebrated at the Holy Name cathedral in honor of the event, which was followed by a parade of Italian organizations in historical costumes, with floats and allegorical reproductions of famous scenes in the life of Columbus.

Attorney Thinks Stephenson Expense Bill is Too Small

MILWAUKEE, Oct. 12.—That money was distributed so liberally by Senator Isaac Stephenson during his campaign for nomination at the primaries in 1908; that sums as great as $1,800 were paid out without any accounting ever given or asked was the testimony given today by George H. Gordon, United States attorney for the western district of Wisconsin before the senatorial investigating committee.

Before he held public office, but when he was counsel for the Chicago & Northwestern railroad at La Crosse, Gordon said he was paid $1,800 out of the $107,793 Stephenson campaign fund to be used in the senator's interest. He in turn distributed the money to others, from whom he asked no accounting. He could not remember how much he had paid to individuals, but he kept no money for himself.

Gordon, when asked how much it would cost to organize properly the 2,200 precincts in Wisconsin, said about $100 for each precinct. This would make the cost to a candidate for the entire state $220,000, more than twice as much as Senator Stephenson spent. In addition there would be the cost of advertising, Gordon said.

D. E. Riordan of Ashland, Wis., testified that he agreed to work for Stephenson and spent $3,200 of the Stephenson funds.

Dygart Confesses Double Murder in Anoka County, Minn.

MINNEAPOLIS, Oct. 12.—James Dygart today confessed to the murder of Mrs. Amelia Rhoades and her cousin, Frank E. Rhoades, on the Bolton farm in Anoka county on September 12.

Dygart, who was arrested yesterday on the farm of Andrew Stone in Kandi Yohi county, said he killed Mrs. Bolton when she spurned a proposal that she run away with him. Having slain the woman, he said he murdered Rhoades to cover up his first crime. The woman was found in the cellar, her heart pierced with a rifle bullet. The body of Rhoades was found covered with a few inches of dirt in the Bolton farm garden.

The police said today that Dygart also was wanted at Superior, Wis., on the charge of murdering John Hefstedt, a farmer who employed him.

DISTRESSING CASE OF HIVES CURED

Body Covered with Large Red Marks. Face Also Affected. Cuticura Ointment Eased Skin Right Away and Completely Cured.

"I retired one evening and after sleeping a couple of hours was awakened by a burning sensation all over the upper part of my body.

It was just simply terrible and made it impossible for me to sleep the rest of that night, so I had to sit up all night changing my position every couple of minutes. As the hours went by it grew worse and soon I started to scratch myself. When daylight arrived I saw that my body was covered with large red marks about an inch or two apart. My face was also affected. I stayed home that day and went to see a doctor. He told me that I must have eaten something poisonous, and I had the hives. He prescribed a medicine and also gave me some ointment.

"As the days went by I steadily grew worse, the marks changing from one part of my body to another. The medicine and ointment were of no use, and I felt greatly disappointed until one evening by chance looking over the papers I saw the Cuticura Remedies advertised. I immediately procured some Cuticura Ointment and applied it to my body. I could hardly believe it, but it seemed to ease my skin right away. I kept on using the Cuticura Ointment for a week and can say that it certainly was the finest preparation I had ever used. It completely cured me, and I have not been troubled since." (Signed) William Waterman, 120 E. 109th St., New York City, Dec. 8, 1910.

Although Cuticura Soap and Cuticura Ointment are sold by druggists and dealers everywhere, a liberal sample of each, with 32-page booklet on the skin and hair, will be sent, post-free, on application to Potter Drug & Chem. Corp., Dept. 23A, Boston.

Society Women Enthusiastic Over Wrinkle Remover.

(Women's Vogue.)

That "there is nothing new under the sun" is an adage bearing out the discovery that wrinkles, a double chin and enlarged pores can be removed with marvelous rapidity by the old-fashioned remedy, thermodized jelly. It is bruited about by society women who make it a part of their daily business to cheat Father Time that thermodized jelly will drive away and keep away wrinkles, etc. They know that the advertised preparations and lotions claiming to remove wrinkles and a double chin fail ninety-nine times out of a hundred. How do they know this? Because, according to their own statements, "they have tried everything."

Therefore they hail with delight the simple home remedy of thermodized jelly, which can be bought at the drug store. By rubbing half a teaspoonful into the face daily and then bathing the face with cold water there is no question that the most stubborn cases of wrinkles, double chin and blackheads can be quickly removed.
