State Health Board  
Plans Inquiry Into  
Train Sanitation

(From a Staff Correspondent.)  
LINCOLN, Neb., Oct. 12.—(Special.)—Sanitary conditions of Nebraska railroad  
stations and passenger trains are to be  
investigated by State Health Inspector  
H. H. Wilson, according to a request  
made by the secretaries of the State  
Board of Health today. The chief sur-  
geons of the railroads are asked to meet  
with the Board of Secretaries in No-  
vember in order to consider the gen-  
eral question of improved railway sani-  
tation.

The Board of Secretaries figures that  
it is not encroaching upon the jurisdic-  
tion of the State Railway commission,  
since that body is empowered to regulate  
"rates, service and general control of  
common carriers as the legislature may  
provide by law." While this clause might  
give the commission authority over sani-  
tation, the Board of Secretaries believes  
that it has at least concurrent jurisdic-  
tion.

The board has also decided to call a  
meeting of delegates from city and  
county boards of health, to be held in  
Lincoln in January.

Following are the resolutions as to  
railroad sanitation:  
"We, your committee on railroad sani-  
tation and resorts, would recommend  
that the health inspector be instructed to  
ascertain the source of the ice supply  
of all railroads in the state, and as to  
whether the ice is placed in the water  
for drinking purposes or is placed in a  
separate apartment for cooling purposes;  
also as to the sanitary condition of the  
depots of the different railroads, espe-  
cially as to the drinking water used in  
the depots, and report at our next meet-  
ing in November.

"We would further recommend that the  
chief surgeons of the different railroads  
of Nebraska and the chief physicians of  
the relief departments and the medical  
directors be requested to meet with us  
at our next meeting for the purpose of  
taking up the matter of railroad sani-  
tation."

NEW ORDER IS SOUGHT  
RELATIVE TO WATER RIGHTS  
(From a Staff Correspondent.)  
LINCOLN, Oct. 12.—(Special.)—According  
to a Lincoln man who has just re-  
turned from a trip to western Nebraska,  
residents of Scott's Bluff and Morrill  
counties are considerably dissatisfied over  
their inability to arrange for water rights  
for land along the government ditch.

In order to relieve the existing condi-  
tions a plan has been adopted which  
contemplates securing from the secretary  
of the interior an order whereby the  
Alliance and Cheyenne land offices will  
be allowed to accept applications for  
water right certificates without further  
payment, where it has been paid in the  
first lateral district and 50 cents in the  
second lateral district. Under the present  
law it is required that all charges due  
on land under the project be paid at the  
time of making a water right application  
and that no water right certificate shall  
be issued for lands either in private own-  
ership or under homestead entry until  
such payments have been made.

ALDRICH SCORES DEMOCRATS  
Tells People of Superior Their Pro-  
fessions Are False.

ANSWERS SPEECHES OF BRYAN  
Republicans Have Given State Pro-  
gressive Laws, While Demos  
Are Ruled by the Cor-  
porations.

SUPERIOR, Neb., Oct. 12.—(Special  
Telegram.)—Governor C. H. Aldrich ad-  
dressed a crowd of several thousand peo-  
ple here this afternoon in answer to  
Mr. Bryan's, recently made here.

Captain C. E. Adams first introduced  
Judge Hurd, who spoke briefly after a  
short talk of "Republicanism and Good  
Government."

The governor told why progressive re-  
publicans should stay within the ranks  
of the party and fight of their plans  
for good government. He declared that  
the democratic party was in the hands of  
the breweries. He also makes the assertion  
that every piece of organized and  
constructive legislation placed upon the  
statute books has been placed there by  
the republican party.

"It is worthy of note that Mr. Bryan  
did not point to anything the last two  
democratic legislatures had done that  
was worthy of mention," said the gov-  
ernor. "Neither did he point out what  
the last democratic legislature would like  
to have done, but was prevented from  
doing by a republican governor."

Hamer Suits Him.  
"If Bill Oldham is good enough for  
Mr. Bryan, Mr. Hamer is good enough  
for me. Judges Letton and Rose have  
each made good records, are able jurists  
and should be re-elected."

"It is worthy of note that Mr. Bryan  
in talking of a nonpartisan judiciary did  
not mention how the last democratic  
legislature passed a bill that would ab-  
solutely have turned the judiciary of the  
state over into the hands of the corpora-  
tions had it not been vetoed by a re-  
publican governor. Neither did he men-  
tion the fourteen other democratic vicious  
measures vetoed."

"Mr. Bryan did not tell the people how  
the last democratic legislature passed a  
measure turning the entire telephone in-  
dustry over into the hands of the Mor-  
gan-Bell syndicate. This measure was  
vetoed by a republican governor."

Demos for Corporations.  
The governor paid Mr. Bryan this trib-  
ute when he said, "that he was wasting  
his great abilities in attempting to re-  
form the democratic party in Nebraska.  
That the machinery of the democratic  
party was today in the hands of the  
breweries and corporations, and that Mr.  
Bryan was on the outside. That Mr.  
Bryan, who was three nominated for  
president of the United States, was now  
compelled to make a fight to be allowed  
the humble position of going to the next  
national convention."

"The democratic state chairman," said  
Governor Aldrich, "was during all of the  
last legislature a dangerous and perni-  
cious lobbyist, working against any de-  
cent and moral measures that were up  
for consideration."

The governor analyzed and discussed  
the progressive legislation of the session  
of 1907, and argued that the only hope  
for good government was in the repub-  
lican party.

entire dry goods stock belonging to Dier-  
doorf & Duke at the instance of the  
Commercial State bank of Grand Island,  
which held a note against the firm for  
\$7,000. The stock invoiced for \$13,000, but

iest stocks of dry goods in the county.

Lincoln Citizens  
Ask for Three-Cent  
Fares on Short Lines

(From a Staff Correspondent.)  
LINCOLN, Neb., Oct. 12.—(Special.)—  
The Public Service league, composed of  
several local improvement clubs, and the  
Central Labor union today made applica-  
tion to the State Railway commission  
for a hearing in the matter of granting  
three cent fare over all local traction com-  
pany lines less than three miles in length.  
Reasons advanced why the demand for  
three cent fare is just, are that the short  
lines cost less for operation than the  
Havelsack and Collegeview, where six for  
a quarter fares now return ample divi-  
dends. That several of the officials of the  
company are paid enormous salaries  
while engaged in other lines and devot-  
ing but little attention to the traction  
company is advanced as reason for  
lower dividends and the reduction asked  
for.

Cleveland, O., where three cent fare  
is operative at the present time is cited  
and called to the attention of the com-  
mission in the application. The filing was  
made for the complainants by W. G.  
Stamm and Guk E. Roberts officials of  
the Public Service league.

Crop Conditions in Pawnee.  
TABLE ROCK, Neb., Oct. 12.—(Special.)  
—Favorable weather and soil conditions  
in this locality have resulted in a much  
larger acreage of winter grain than usual  
and the work of plowing and seeding is  
well along. Many fields of winter wheat  
are up and the stand and color of the  
grain are both excellent. A careful esti-  
mate of the corn crop, it is thought, will  
be close to 75 per cent of the full crop.  
It is said the potato crop will average 40  
to 50 per cent, which a few weeks ago  
was thought impossible. The rains have

throwing the car over. The girl's head  
was crushed. None of the others in the  
car was hurt. The family has lived in  
the community for many years and is  
well known here.
