HOW TO TREAT OLD SORES

The proper way—the only successful way—to treat an old sore is to destroy its source. Not by dangerous surgical operations or irritating "drawing" plasters, but by Nature's true method of purifying the blood and filling the circulation with rich, nourishing properties; then the cure will be natural and lasting. We can easily understand how impurities in the blood will infect some weak point on our bodies, and by continually discharging impurities into it keep the place open and inflamed until a chronic ulcer is formed. Nothing then is so sure to produce a cure of these old sores as S. S. S. This medicine is Nature's perfect blood remedy, composed of the most healing and at the same time the most penetrating and blood-purifying properties. It removes every particle of impurity or morbid matter from the circulation, and assists nature in the increasing of healthy, nutritious corpuscles in the blood. S. S. S. makes pure blood and pure blood is Nature's unfailing cure for old sores. We want every sufferer with an old sore to commence the use of S. S. S., because we know it is the remedy they most need. Book on Sores and Ulcers and medical advice free to all. S. S. S. is sold at drug stores.

Clothing Confidence--

Our business is going steadily forward. Our sales are increasing daily and more satisfied customers leave our store than enter most other stores. All this is not remarkable, for the public have always realized that ours is the store to trade in, because we give better value than others. That's how we built up our business and that's how we will build it still larger. Our customers are not blind to the fact that there are other stores selling clothing, and the Remarkable Fact is that they visit these other stores and then trade here. There is a reason for this and it is all summed up in one word—

Confidence We have always enjoyed the confidence of the public, we earned their confidence from the first day we opened our store, and our continued success and increasing business is gratifying because we know that our greatness is because the public confidence in us—our unique position in the clothing trade gives us a decided prestige—men who look after our clothing are experts in their line, and those who make our clothing know our standard. They know the rigid examination every garment undergoes, and also know that rejection follows any garment that fails to pass our examination. The fact that our sales are so large necessitates large purchases for cash and this gives us added prestige when we buy, and gives our customers better value when we sell, because our clothing costs us less—means that you pay less—our business has been built up on the rock of many sales and small profits.

The Fall Suits and Overcoats We have at \$10, \$12, \$15, \$18, \$20, \$25 and up to \$40, number among them the suit or overcoat you'd like to have. Take a few moments to see how much real good clothing value there is to be had in every one of them.

MEN'S UNDERWEAR Special values for men in our underwear section. Finely knitted fall weight underwear from the best manufacturers, in union suits and two piece suits—50c and \$1.00. Perhaps you do not know that our underwear department sells more underwear than others. In varieties and styles our stock exceeds any in Omaha. Our values are better because only the best manufacturers supply us. New goods have just arrived and await your inspection. Our underwear is smooth, soft to feel and gives real comfort to the wearer.

SHOES

After comfort in shoes, wear, durability and style follow closely. These requirements we offer in all our shoes. Whether in low priced or higher priced. For men or women, we have shoes of quality—

\$2.50, \$3.00, \$3.50

These prices represent a few of the qualities we carry, their real value is only discovered while wearing them. No better shoes, at the price—Men and women find in our store shoes that give satisfaction.

The excellence of our shoes is confirmed by the increasing shoe business we are doing—selling good shoes in large quantities at a small profit, helps you and helps us. Our shoes are tried and tested and also found to be true. Value is embodied in every pair.

CHILDREN'S SHOES are here in great variety—whether for the rough and ready boy or dainty miss—your choice is unlimited, according to size— \$1.00 to \$2.50

AFFAIRS AT SOUTH OMAHA

Magio City Will Send Big Representation to Land Show.

ANTI-ANNEXATIONISTS ARE BUSY Make Assertion They Have Found Enough Invalid Names to Prevent Call of Election on Subject.

South Omaha will be represented at the Omaha Land Show on Friday night, October 20. Already invitations have been issued to the mayor and city council, together with the school board and real estate men of the city.

Prof. R. H. Johnson of the high school will have his student orchestra in trim for the occasion and altogether the local business men look forward to the demonstration as a boost for South Omaha.

Some of the local leaders when approached yesterday remarked that it would be a good opportunity to show the uptown business men that South Omaha was united to a man in all that made for its true welfare.

Plans for the proper celebration of the night have not yet been completed. The council will be formally invited next Monday night to participate in the demonstration. L. W. Buckley of the Land Show yesterday indicated his desire that South Omaha should make a big showing on the 20th. The local real estate men, it is expected, will be glad to go forward with any movement that will help the development of the local territory.

Antis Are Hopeful. If the count of the anti-annexationists is correct, South Omaha will not have an opportunity to vote on the merger proposition at the next election. Yesterday the men who have been occupied checking up the Omaha lists reported that out of the 3,300 signatures appended to the original petition 1,629 proved to be invalid upon examination. The reason in most cases for the elimination was non-registration. Other cases were found in which the signers were not domiciled in Omaha and therefore not qualified to speak for the wishes of the metropolitan city.

This was the report made at the meeting of the anti last night. There was considerable jubilation over the success of the matter and it is hoped the merger measure has received its quietus. It was understood, however, that the withdrawal of signatures in Omaha would still keep up their work so as to make assurance doubly sure.

The matter will come up before the county commissioners tomorrow and the revelation of the counter plans of the mergerists is awaited with keen interest by the anti, who, while in a jubilant frame of mind, are not altogether certain of their position.

The lists will now be presented with affidavits to the county clerk, but before the final presentation and certification to the county commissioners there will have to be another examination. The annexationists maintain that there are many signers of the petition who have changed their addresses since last election and whose names, therefore, cannot be found in their former wards in the registration books.

Brown's Condition Serious. Arthur Brown, who was severely burned about the right side of the body by an electrical current at the South Omaha branch of the Omaha electrical power plant yesterday morning, lies in a precarious condition at the South Omaha hospital. Brown in his fall injured himself gravely about the head and his condition was not encouraging last night. At a late hour Dr. F. O. Beck amputated the right arm, which was terribly burned and lacerated by the electric current. The hospital authorities consider that Brown is in a very critical condition. He is 65 years of age.
