

SCHOOL AND COLLEGE WORK

Happenings of General Interest in the Educational World.

SAMPLE OF KANSAS ECONOMY

State University Students Pool on Medical Service—Progress of Tuskegee Institute—Educational Notes.

After a delay of ten days on account of structural steel, the work on the south wing of the state normal school at Kearney is being pushed forward. All of the iron is now on the ground also all other materials necessary to enclose the building. Contractors Crossley and Hibbard are pushing the work rapidly as they are anxious to have the building enclosed before cold weather.

President Thomas attended the meeting of the board of education at Peru. He also went a day early and spent the day visiting the Peru normal.

Prof. Porter is having unusual success with his band this season. About twenty members with instruments, have reported. They gave an excellent band concert at the regular assembly period on Friday. The band has rounded into shape much more rapidly than usual.

Miss O'Connell, district secretary of the Young Women's Christian association spent two or three days with the young women of the normal. Miss O'Connell's work includes the work of the county, as well as the normal.

Mrs. Thomas, accompanied by Mrs. Steadman of the department of music, Mrs. Brindley, preceptress and Miss Katherine Dickerman, made an automobile trip to Holdrege where they attended the State Federation of Women's Clubs. Mrs. Steadman sang for the federation.

Dean Ed L. Rouse of the state normal school at Peru was a welcome visitor at Kearney on Thursday. Prof. Rouse has charge of the model school department at Peru and was much interested in the similar work at Kearney. He spent the entire day at the school, giving a short talk in chapel and occupying the regular period with the senior class. Dean Rouse and President Thomas were former schoolmates.

Deputy Superintendent James E. Detsell of Lincoln was a recent visitor. Mr. Detsell was on his way to Lexington and North Platte on business connected with the state superintendent's office.

Wayne Normal Notes.

President Conn was in Peru last week attending a meeting of the Board of Education. The Philomathean Literary society gave its first program for the year on Saturday evening.

Prof. J. G. W. Lewis of the history department has received notice that he was awarded first prize for the best essay on the "Recall of Judges." Prof. Lewis' argument was against recall and the full text will appear in the November issue of the Law Student's Helper.

Prof. J. T. House has been appointed by Governor Ross as delegate to the American Prison association, which meets in Omaha, October 14-15. Prof. House has made a special study of prisons and assisted Prof. Henderson in the preparation of a valuable work on "Prevention of Crime."

A series of readings by Miss McBeth during the last week have increased the interest in the general exercises of the school. The first reading given was a selection from the opera, "The Bohemians" and was followed by the meeting between Ben Hur and Messala. On Thursday morning, Prof. Johnson gave two violin solos and on Friday, Mr. A. Lansing of Omaha, was present and favored the school with a vocal solo.

The first number of the school paper will be issued on October 30. The following editorial staff has been announced: Editor-in-chief, Gerald E. Cress; associate editor, Fannie Brettell; alumni, Anna B. Bright; Young Men's Christian association, Jesse H. Wichman; Young Women's Christian association, Fannie Brettell; Catholic association, Aona B. Winteringer; athletics, Milo J. McGee; Philomathean Literary society, Gerald E. Cress; Crescent society, Winifred K. Angel; faculty, J. T. House. The financial management of the paper will be in charge of Ralph W. Sterling.

TUSKEGEE INSTITUTE.

Facts from Annual Report of President Booker Washington.

The annual report of Booker T. Washington, president of the Tuskegee institute, for the school year 1910-11, shows the famous college for colored people to be in a fairly flourishing condition. A marked improvement is noted in the regularity of attendance, 85 per cent of the students entering at the opening and remaining until the close. In all departments 1,769 students were enrolled during the year, exclusive of the attendance at the short winter course, the night school, the training school and the cooking class. Students came from thirty-eight states and territories and fifteen foreign countries.

Springing from the Tuskegee idea the report shows twenty-three industrial schools founded by former graduates and students. Through these offshoots 4,982 students were given industrial training in 1910 and 12,000 people reached through extension work. All these schools are in the southern states.

Concerning the finances of the institute Mr. Washington says contributions were received from 285 persons, of whom eighty-six were white southerners. Receipts from all sources were \$439,199.93, besides \$69,750.88 from the Deiger estate, which went to the endowment fund. The permanent endowment fund now amounts to \$2,871,657.58. The total value of the educational plant, including the land grant from congress, is placed at \$2,287,825.75.

COLUMBIA UNIVERSITY.

Outranks All Other Universities in Attendance.

Registration is now complete at Columbia university and shows that the attendance for the scholastic year is 7,466, as compared with 6,842 last year, an increase of 624, and including the extension courses, the number is only eight short of 8,000. This places Columbia at the head of all other universities in the world in point of attendance, taking the place of Berlin, which stood at the head last year.

In Columbia college the registration has increased from 637 to 721, the freshmen leading the list with 254, as compared with 237 a year ago. In engineering there is a decrease, which is due to the strict enforcement of regulations, many deficient students having been dropped in the second year, while the freshmen are about the same as last year, the respective figures being 155 and 159. There is a good increase in numbers in the school of law, the figures being 45, as against 374 last year, while in the school of physicians and surgeons the number is 33, as against 315 a year ago. In fine arts there is a falling off, the number being 164, while there were fourteen more last year. Bernard has increased greatly, the number being 377, as against 506 last year, the freshmen being 201, as against 166 last

year. The teachers' college has 1,353, as against 1,259 a year ago, and the college of pharmacy has increased from 209 to 314.

NEBRASKA WESLEYAN.

Notes of the Methodist Students at University Place.

Prof. Stockale, head of the violin department, who has been traveling with the Ricaly String quartet through Iowa, South Dakota and Minnesota, returned last week.

Mrs. Keener, patroness of the Orophilian Girls, entertained the active chapter at a buffet luncheon, Wednesday, October 11.

Fay Brooks, Edna Nispel and Doris Goodale, are pledges of the Aelician society.

Prof. Eugene Knox of the school of expression, spent Friday and Saturday of last week in the northern part of the state. He gave programs to packed houses at Bristow and Gross. He is to appear for the Methodist Episcopal church at Fairbury, October 20, and at Bloomington, October 27, on the high school lecture course.

The work on the new gymnasium began a week ago and has progressed steadily since that time. The cement block foundation has been completed and work has commenced on the superstructure. The labor is done by the students under the supervision of a foreman. Each student will take his turn for a half a day until the work is completed. Excuse is granted from all classes interferred with.

The Orophilian Girls were entertained at the home of Sarah Kirland Tuesday evening at a 5 o'clock tea. Besides the active chapter, Mrs. Dr. Seeley of Harvard and Mrs. Ray Kuns of Broken Bow, alumni members of the sorority, and Mrs. Rev. Keener, the Ore Girls' patroness, were present.

The band is to be the largest and best in the history of the university. Fifty of the men who have tried out have made good, and several more are expected to join soon. Three good practices are being held weekly under the instruction of Director Green. The band will figure in school and city activities more largely than ever before.

KANSAS UNIVERSITY.

How the Students Provide for Medical Treatment.

Hereafter, when a student in the Kansas State Agricultural college is ill, or believes he is ill, he may need for a physician of his own choosing and receive treatment until he recovers without expense to himself except the legally required fee of 50 cents a term. The new law became operative with the opening of college. This act was brought about by the action of the students themselves. In a mass meeting of the students at the college last year unanimously agreed to ask the legislature to authorize an extra fee of 50 cents a term for a student's help or sick benefit fund. It is estimated that the fee will yield about \$2,000.

A graduate nurse is also to be employed to assist the physicians and, in other ways, to conserve the general health of the student body. This nurse is to receive \$500 a year. The physicians of Manhattan have agreed to give their services for \$1,900 a year.

YANKTON COLLEGE.

Literary Societies Preparing for the Winter's Work.

The Yankton college literary societies have begun a year promising excellent

work. Splendid programs and election of officers have been marked features of the opening days of term. Following are the newly elected presidents of the various organizations:

Aristonian—Mabel Coulson of Edwin. Germaniae Societas—Margaret Mead of Armour. Theta—Ralph J. Swanson of Alcester. Aelphian—James Watson of Centerville. Phi-O—Miss Zida Frost of Sioux City. Y. C. Alephian—Walter J. Bussey of Tabor.

The Choral union, under Prof. Dalley's direction, already numbers ninety voices, with good prospect of reaching the 100 mark.

Yankton college is voting on the question of abolishing the cross-campus paths. These paths are one of the evidences that students and others emulate the example of the modern business man in taking short cuts to gain time. Yankton has a beautiful campus and the paths winding here and there are deemed useful and in some cases very needful in college economy.

Educational Notes.

The autumn term of night schools in Chicago starts with an enrollment of 2,000 pupils, 1,400 more than the enrollment at last year's opening.

Registration in the college of agriculture of the University of Wisconsin is much larger than a year ago. The gain in the number of agricultural students is practically one-third for each group over last year.

Mrs. Sarah T. Andrews, aged 49, has matriculated at the Washington college of law and her son, Herbert B. Andrews, 23 years of age, has started a law course in the law department of the Catholic university at Washington. Father Andrews is government clerk and is staying on the job.

Referring to Mr. Crane's criticism of college life, President Luther of Trinity College, Kan., July 14, expressed the opinion that it is difficult to speak with confidence of the morals of any body of students. What they do wrong is generally unknown to the college officers. There is, of course, some drunkenness and immorality. I think that these evils on the whole are diminishing, basing my opinion on what I learn from observation, from the completion of reliable undergraduates, and what is told me by the younger alumni.

State University Alumni Notes.

Mary Tremain, '81 is teaching in the Lincoln high school.

Dr. Hubbard Linley died at his home at Atchison, Kan., July 14.

Richard C. Hunter argued a case in the supreme court Saturday.

E. B. Sherman, class of '85 is in the lumber business at Boise, Idaho.

William Grant, '97, is now consulting engineer with the Burlington railway.

F. C. Bulla of the class of '96 is engaged in the banking business at Vesta.

Harriet E. Towne, '94, is now with the University Publishing company in Lincoln.

"Tim" McCarthy, '96, is now located at Calgary, Alberta, where he is in charge of the colonization agency of the Canadian Pacific.

An alumni club will be organized at Kearney, October 26. Harry Landis has called a meeting of the Seward county alumni for October 28.

Amos Thomas of Omaha is planning a luncheon for the alumni of the state university at the Rome hotel, November 8 at noon. Teachers who are alumni are cordially invited to be present. An entertainment program has been arranged.

If you have young children you have perhaps noticed that disorders of the stomach are their most common ailment.

To correct this you will find Chamberlain's Stomach and Liver Tablets excellent. They are easy and pleasant to take and mild and gentle in effect. For sale by all dealers.

Sioux Falls High Winner.

SIoux FALLS, S. D., Oct. 14.—(Special Telegram.)—The Sioux Falls high school this afternoon defeated the Flandreau Indian school foot ball team, 15 to 6.

It's a Good Sound Common Sense Policy

To use medicines only of KNOWN COMPOSITION, and which contain neither alcohol nor habit-forming drugs. It is foolish—often dangerous to do otherwise. The most intelligent people, and many of the most successful, conscientious physicians, follow this judicious course of action. The leading medical authorities, of all schools of medicine, endorse the ingredients composing Dr. Pierce's medicines. These are plainly printed on wrappers and attested under oath. There's no secrecy; an open publicity, square-deal policy is followed by the makers.

Dr. Pierce's Favorite Prescription

THE ONE REMEDY for woman's ailments, sold by druggists, devised and gotten up by a regularly graduated physician of vast experience in treating woman's peculiar diseases and carefully adapted to work in harmony with her delicate organization, by an experienced and skilled specialist in her maladies.

THE ONE REMEDY for woman's ailments, sold by druggists, which contains neither alcohol (which to most women is the rankest poison) or other injurious or habit-forming drugs.

THE ONE REMEDY for women, the composition of which is so perfect and good that ITS makers are not afraid to print its every ingredient, in plain English on its outside bottle-wrapper, and attest the correctness of the same under oath.

We have a profound desire to avoid all offense to the most delicate sensitiveness of modest women, for whom we entertain the most sincere respect and admiration. We shall not, therefore, particularize here concerning the symptoms and peculiar ailments incident to the sex for which Dr. Pierce's Favorite Prescription has for more than 40 years proven such a boon. We cannot, however, do a better service to the afflicted of the gentler sex than to refer them to Dr. Pierce's Common Sense Medical Adviser, a great family doctor book of 1000 pages, bound in cloth and given away gratis, or sent, post-paid, on receipt of 31 one-cent stamps—to cover cost of mailing only. All the delicate ailments and matters about which every woman, whether young or old, single or married, should know, but which their sense of delicacy makes them hesitate to ask even the family physician about, are made plain in this great book. Write for it.

Address: WORLD'S DISPENSARY MEDICAL ASSOCIATION, R. V. Pierce, M. D., President, 663 Main Street, Buffalo, N. Y.

AFFAIRS AT SOUTH OMAHA

Annexationists Assert Names of Registered Persons Taken.

MAGIC CITY AT THE LAND SHOW

Preparations Are Being Made to Reveal True South Omaha Spirit on the Night of the Twentieth.

Recall and annexation like the ghost of Banquo will not down in South Omaha. Both were discussed on the streets yesterday, following the newspaper reports that the anti-annexationists had invalidated 1,600 names of the 3,200 names appended to the Omaha petition for annexation.

A. H. Murdock, who in company with John Paul Breen of Omaha, spent the forenoon in Omaha making a cursory examination of the lists came to the conclusion that the opposition had eliminated too many names. Both acting on their suspicion called up several of the men whose names had been crossed from the lists. The men not only affirmed their registration, but gave day and date and location of same. This work was pursued for several hours until Murdock and Breen came to the conclusion that the petition will not be invalidated and that the county commissioners will be forced to put the matter to a vote.

"The high-handed manner in which the anti's have handled this matter will react on their own hands," said Mr. Murdock. "If they were sincere in their desire for the welfare of the city, why did they not let the matter come to a vote? The presumption seems to be that their judgment was better than that of the voters."

The anti's, when told of the work of the annexationists seemed surprised and

remarked that if it were so that any of the names found to be invalid by them, turned out to be registered, it was due to the fact that the registration had been made in a different place than that shown by the books of registration. The work of having signers withdraw from the petition will be pushed. It was claimed that every man who signed the paper in one Omaha store withdrew his signature with equal alacrity.

Big Time at Land Show.

Real estate men and the Booster club will take up the work of making October 20, South Omaha night at the Land show, a great success. Mayor Trainor is understood to have already accepted the invitation of the Land show people to be present on Friday night. He gave it as his opinion that every business man in South Omaha should take part in the demonstration that would redound to the credit and profit of the Magic City.

At the high school, Prof. R. H. Johnson, of the commercial department has trained his orchestra to discourse music on the night of the South Omaha celebration.

J. W. Murphy, real estate dealer, stated yesterday that he considered the occasion an opportunity to show the unanimity of South Omaha people for the welfare of the whole city. He said he expected that all the real estate men of the town would be glad to participate in making South Omaha night at the Land show a grand success.

John Kennedy, secretary of the Booster's club, commended the idea and said that the Boosters would surely endorse and support the movement of making a big show in honor of the Magic City.

The matter will come before the meeting next Thursday night. It was also given out that the city council and officials will be formally invited to attend the Land show on Friday night, October 20.

Frank Olson of Ames, Ia., brother of

the John Olson, who slew William, another brother, last Thursday, seven miles south of Pappillon will not assist John Olson to clear himself of the murder of his brother.

This was the statement made by Mr. Olson yesterday morning after his arrival from Ames, to take charge of the body of his dead brother. He bitterly blamed John Olson, the prisoner, whom he said had always caused trouble. He refused to see him or to assist him in any way.

Mr. Olson will take the body of William Olson back this evening at 8 o'clock to Ames, where burial will be made.

While the elder brother was making arrangements for the funeral of William Olson, his slayer was being removed to Douglas county jail by Sheriff J. H. Spearman of Sarpy county, who came in today at the request of Chief of Police John Briggs.

The prisoner is in a condition of mind bordering on insanity and the physicians are in doubt whether he will ever be fit for trial. County Attorney William Jamieson of Sarpy, gave it as his opinion that John Olson was telling the truth in regard to the trouble that existed between himself and his brother. The county attorney was very deeply impressed with the story of the prisoner and entertains strong doubts as to the possibility of a jury convicting him.

Miss Moyers Dead.

Miss Eileen Moyers, only daughter of Mr. and Mrs. J. D. Moyers, died yesterday morning at 11 o'clock in the South Omaha hospital from an attack of appendicitis. Miss Moyers was seventeen years old at the time of her death. She had been ill about two weeks and a few days ago was removed to the hospital where she underwent an operation. Following the operation she grew better so rapidly that her family expected to welcome her home within a day or two. Friday she took a turn for the worse

and yesterday passed away. She is survived by her parents and one brother, John Moyers.

Pending the arrival of Miss Moyers' father from Peoria, where he lately accepted a government position, funeral arrangements have not been made.

To Rent Country Club Property. Announcement was made yesterday that the property of the erstwhile South Omaha Country club at Boulevard and the car line would be leased by the corporation. This follows close upon a recent failure to reorganize the club.

The South Omaha Country club was a most prosperous organization a few years ago. Laid out in a most desirable locality the grounds offer every inducement to those weary of the grind of business and the roar of the city. For some reason its membership refused longer to continue to support what they reckoned a bad investment. A meeting to reorganize recently failed to entice a new assessment among the members who responded to the call and the news that the property was for rent followed quickly.

Apple Day at Swift's. "Apple Day" will be celebrated Monday, October 16, at Swift's packing house by the distribution of over 1,000 red luscious apples. The employees of the plant are already enjoying in anticipation the pleasure of munching their fill of the best apples that the market can afford.

New Political Club. Local politicians were much interested yesterday afternoon when they learned that the Workingmen's Independent Political club had been reorganized at a special meeting at the hall on Twenty-fourth street.

The club, as the name implies, is formed largely from members of the local labor unions, who take a large interest in political affairs.
