(From a Staff Correspondent.) LINCOLN, Oct. 18.—(Special.)—The State Railway Commission has given the Burlington permission to publish a new rate on stone from Louisville and Cedar Creek to Burnham, being a reduction of 1 cent per hundred, the same rate which applies to Lincoln.

The Nebraska Traction and Power company, which has built an interurban line from Omaha to Papillion, has filed a schedule of rates, being from 6 to 25 cents. The schedule is filed by Arthur English, who, as receiver of the company, has its affairs in charge.

The rate on burlap bags from Omaha to Alliance are reduced to 40 cents per hundred, a 14-cent decrease in the rate.

The commission has received an informal complaint from Mayor E. W. Cullen of Winslow in regard to poor connection between passenger trains on the Chicago, St. Paul, Minneapolis & Omaha railroad at that place.

The Union Pacific railroad has been authorized to publish class and commodity rates from Omaha, Lincoln, Fremont and Grand Island to stations on its North Platte valley branch, west of Northport. The rates are practically the same as Burlington rates from these four towns.

The Union Pacific is permitted to publish rates on sugar beets on its North Platte valley branch to Northport when the destination is Scott's Bluff. A reduction of from 10 to 25 cents a ton is made by the new schedule.

The Burlington, Northwestern and Union Pacific companies have been authorized to reduce rates on scrap iron from sixteen towns to Hastings for the benefit of an iron foundry established there. The reduction is from 1 to 2 cents a hundred.

#### Furse Attends Inquest.

State Railway Commissioner W. F. Furse went to Papillion today for the purpose of attending the inquest to be held over the victims of the Missouri Pacific wreck which occurred last Sunday near Fort Crook. It is usual for the Interstate Commerce Commission to send a representative to such proceedings, but when it is not possible for one of the members of that body to attend a member of the commission from the state where the investigation is to be made is asked to be present.

#### Permission to Phone Company.

The Lincoln Telephone and Telegraph company has been given permission to invest \$200,000 in stock of Fremont, York and Saline county telephone companies. #### SHELBY VETERAN HAS RELIC OF CUSTER'S LAST FIGHT

SHELBY, Neb., Oct. 18.—(Special.)—James T. Clark has an interesting relic of the old Indian war days. It is the only weapon used by the troops under General Custer in his last fight which the redskins are known to have left on the field after the massacre. It is a Colt's revolver, No. 18355, patented September 19, 1871, and July 2, 1872, with the initials "J. T. C." stamped on the side. It is over a foot long, barrel seven and one-half inches, and including the chamber, about nine and one-half inches; six chambers, using .45-caliber shells. "Jim" Clark is now a retired farmer living here, but for ten years prior to 1893 was a cowboy. In September, 1882, six years after the battle, when many people had visited the scene and clipped away the first monument erected by the government for souvenirs, that he was standing

on a ledge of sandstone, viewing the field. He weighs about 200 pounds and the ledge broke and scraped away the sand which had blown over the rusty pistol. All the cartridges had been fired from it and it is supposed that the soldier emptying it had thrown it from the Indians.
