

There Remain 28 Days for You!

The Bee Booklovers' Contest will close Saturday evening, November 11 at 6:00 o'clock. The last puzzle picture will be printed on October 29. An extension of twelve days from that date will be given so that contestants may prepare answers and send them in to The Bee. This arrangement gives those who enter the contest now plenty of time in which to solve all the puzzles. In the first game hundreds of contestants entered after the last picture had been published. Some of the prize-winners were those who came in after all the pictures were ready. If you have not joined, you should do so now.

This 5-passenger 1911 Model White Steamer Touring Car—odorless, smokeless and noiseless—is in the tenth year of its success. No car has stood the test of time with necessity of fewer changes. For stability in construction as well as in purpose and performance, the White Steamer has held a high place in the mind of the motoring public. This car needs no cranking nor shifting of gears to get any desired speed. The increasing number of White Steamer cars being sold each succeeding year, together with the practical endorsement of the U. THIRD PRIZE

KRELL
Auto-Grand Piano

The accompanying illustration tells only of the outside of this magnificent Krell Auto-Grand Piano. It tells not of the vast excellence that lies beneath its magnificent, fancy walnut case. Well informed piano men are insistent in the claim that the Krell Auto-Grand is positively the most complete and efficient player-piano offered to the music-loving public.

The modulating pedals and the mechanism to carry the tune above the accompaniment are marvels of simplicity. The Krell Auto-Grand claims to have in the absolute the "human touch" so prized by player-piano makers. From the inside to the case, from the pedals to the levers, this magnificent \$900 player-piano may be examined with every facility at the piano ware rooms on third floor of the big
