Completing Enlistment,

It is provided by law that an enlistment in the army shall not be regarded as complete until the soldier shall have made good any time lost during an enlistment period by unauthorized absences exceeding one day. A private in the horpital corps of the army was recently found to have been absent without leave in the new government regime and from Colorado and were stopping at the for two periods and it was further shown that he was arrested by the civil authorities, was tried by a civil court and the ex-president; Al Paurick, Captain released under suspended sentence and returned to the military authority. was in charge of the civil authorities for about six weeks and, from an army standpoint, was looked upon as having been absent without leave. If he had been acquitted, the case would have been otherwise. While he was restored to duty he was still under suspended senrender proper service to the government, since at any time he was liable to be arrested and made to serve sentence by the civil authorities, and his restoration was not in accordance with the rule generally observed heretofore. However, as he was restored to duty this question was overlooked. It is held, however, that the period of time he was in the hands of the civil authorities, together with the two periods when he was absent without listment.

> Enlisted Men's Examinations. The regulations, published in War de-

partment general orders No. 77 of 1909 governing the examination of enlisted men for appointment as second lieutenants in the army having been amended in a number of particulars, they have been republished as amended in general orders No. 181, dated September 26, 1911. Among the changes are the following Applications to take the examination must be made to division commanders by January 1, instead of to department commanders by February 1 as formerly; the company commander, in forwarding a soldier's application, will state whether in the event of the soldier's appointment as second lieutenant, he desires the applicant's assignment to his company in case a vacancy exists therein; the post commander will state if he desires the applicant's assignment to his command in case a vacancy exists therein; boards will meet in each division as soon as practicable after January 15, instead of after March 1 as heretofore; there will be such number of boards in each division as the division commander may deem advisable, instead of one in each department as heretofore; examination questions will be furnished by the War department, instead of being formulated by the examining boards; and the papers will be sent to the department for marking, instead of being marked by the boards; constitutional law, army regulaomitted from the list of subjects of the preliminary examination, and text-books showing the scope of the mathematical examination are named, candidates must passed: the board for the final examina tion of candidates will meet at For Leavenworth on July 1 or subsequent thereto, instead of September 1, and it will include a committee from the army service schools; the scope of the final examination in changed by adding languages and military art; and text-books illustrative of the scope of the examination in the various subjects are named. The changes in the preliminary and final examinations relate to those for the mobile army only.

Troubles of War Correspondents. New York Sun

The modern newspaper must continue to report modern wars if it can get the facts, but in every war since the Spanish American conflict in 1808 the correspondents have found commanders unsympathetic and obstructive. It is a sad tale that comes from Rome of the invelgling of the war reporters upon the Marco Pole to study the contour of the coast, only to be detained on board by a polite to begin." It reminds us of the experi-Late news from the home of Senator ence of the author of "To Khartoum With didates which he carries around ress as the outcome of good business war passed away, reducing the total to admirers of the pitchfork statesman.
