Wherever Ferullo's wonderful musical organization has appeared the press and public have united in declaring it the greatest band that has ever toured America. Those who have lived and traveled abroad go a step farther and say it has no equal in this or any other country. Critical and discriminating Chicago went crazy with enthusiasm over Ferullo, and the Chicago Tribune declared it "the greatest band in America." The Chicago Examiner voiced its praise with the statement that "Ferullo has the best Italian band ever heard in Chicago." Ferullo has filled notable engagements in every city of importance in the United States and in every one he has been given unstinted praise.

*Ferullo will be at the Land Show all this week
and will entertain thousands of people every day*

Hear Ferullo today and you will go back to hear him again and again

The Land Show is a colossal exposition, staged on a stupendous scale with thousands of interesting features, artistic decorations and wonder creations of genius minds and master designers.
