Realty Men Say Omaha Land Show Will Benefit Them.

DEVELOPING WEST BOOSTS CITY

Garage at Fortieth and Farnam Will Be First in Residence Distriet-Estabrook Will Build Flats.

While the Omaha Land show will prove of direct benefit to only a few of the local roal estate men, the realty fraternity of the city are almost a unit in commending it. The show does a great deal toward building up the west by Evaporated Apples and Dried Fruits taking people from the states east of NEW YORK, Oct. 28-EVAPORATED APPLES-Steady with a fair jobbing trade; op the spot fancy, 105104c; choice DB105c; prime, 54,685c; DRIED FRUITS-Fruncs, quiet but ment of the west will increase Omaba's which, in turn, by bringing new families DRIED FRUITS-Frunes, quiet but firm in absence of pressure from the const, quotations ranging from 7012%c for Californias up to 40-568 and 15%013%c for Oregons, Apricots, duil and barely steady, choice, 15%05%c, extra choice, 16 01.%c; fancy, 17%18c, Peaches, quiet and steady; choice, 11%011%c, extra choice, 11%012c; fancy, 12%012%c. A number of the Omaha realty men-those who deal In western lands-will profit directly, and many have already profited, by the sale of their tracts.

President C. C. George of the Heat Estate exchange says the show will prove of immense value to Omaha. Ho calls attention to the fact that a large part of the men who became interested in the west through the show are farmers from Iowa and other states east of Omaha. By getting them into Omaha's trade territory Omaha is so much the gainer, he says.

## The interesting bit of news last week in real estate circles was the announcement that a large garage is to be built by Dr. Downs for George Redick and Denise Barkalow at the northwest corner of Fortisth and Farram. This is the first movement of the automobile business into the residence section and the two young men think that by being close to the automobile owners, they will have about all the business they can handle. West Farnamites have been very chary of allowing business concerns to locate in their neighborhood, that is, those residents in the immediate vicinity of the location selected, but this time the negotiations were kept secret until everything was ready. The lot is in the hands of Dr. Downs, the contract for the building has been let, the lease has been made and work on the building

will be started this week. H. D. Estabrook of New York has decided to build on Cass street just east of Unity church two long rows of flats. They will run from Cass street south to the alley and will have between them a duct of the grain market, positive de- court 132 feet long, parked with sod, niais that such government action was shrubbery and trees.
