

GLIMPSES OF EXPOSITION

Exhibitors Deal Out Facts and Souvenirs at Land Show.

ALL ARE SEEKING SETTLERS

They Explain to Throng in Coliseum the Vast Opportunities that Await All West of Missouri River.

Two men will leave Omaha for Ardmore, S. D., in a few days with a pleasant feeling of work well done at the Omaha Land show.

Many Are Interested. Fine Bluffs, Wyo., where the largest elevator in the state is located, is a must to the possibilities and realities of the country there.

Passed Big Horn Basin. The far famed Big Horn basin, Wyoming, where irrigation and progressive farmers have wrought an unbelievable transformation, was represented at the Land show by the Shedd-Sizer company.

Produced Suitable Hybrid. "One thing we've been trying to do, among many others, in Washington, D. C., is to get the state of Washington, and now we have done it. The rich volcanic soil grows wheat so tall that it broke under its heavy heads and was difficult to harvest.

W. M. Smith who came to the Omaha Land Show with a varied exhibit of the products of Fresno county, California, will remember the patrons of the show and in turn will be remembered by them, for he not only interested several hundred in Fresno, but fed thousands with delicious raisin bread during the last four days of the show.

W. M. Smith who came to the Omaha Land Show with a varied exhibit of the products of Fresno county, California, will remember the patrons of the show and in turn will be remembered by them, for he not only interested several hundred in Fresno, but fed thousands with delicious raisin bread during the last four days of the show.

consideration plans for setting out a large acreage to orchards and in sanguine that the Big Horn Basin will produce even greater results in the production of apples for commercial purposes than it has in agriculture.

How Willoughby Came. When P. D. Willoughby came to the big Omaha Land show to assist E. M. Duke and Ralph Hoer exhibit the products of Hotchkiss and Delta counties, Colorado, he did not, bids himself away on a through passenger nor stow his literature on the fast express, but like most modern farmers he filled the gasoline tank of his big touring car, swathed the machine with hunting teltow before he was going, filled all space with literature and came overland thus.

This same spirit has characterized the Colorado men throughout the show and they have been talking to thousands of people, boosting the Omaha Land show and the hundreds of Hotchkiss and Redlands mesas, Delta county, Colorado.

In order to keep on hearing Mr. Willoughby will drive back home through Kansas and will talk Colorado and Omaha all the way. He has had one of the largest exhibits in the Coliseum, and it was sent by three or four business men of the enterprising counties of Colorado.

Pleanty of Wood and Water. "More wood and water than any county of Nebraska." This is the legend over the Dawes county, Nebraska, both in the Coliseum, and to prove that it is more than a bluff there are numerous photographs, various products and a huge slice from a pine tree which measured five feet in diameter.

The pumpkins and the wood remind the visitor of the great vegetables and the huge trees of California. In Dawes county five saw mills are now operating, converting these pine forests into marketable lumber. The farming industry, however, is probably the most remunerative occupation carried on.

National Figures to Make Addresses at Wool Meeting

S. W. McClure of Gooding, Idaho, secretary of the National Wool Growers' association, in Omaha this week, announced a part of the program for the annual convention, which will be held in Omaha December 14, 15 and 16.

Joseph E. Wing of President Taft's tariff board, who made investigations in South America as to the cost of producing wool and mohair there, in comparison with the United States, will speak on "Wool Growing in South America."

Senator Dixon of Montana will, in substance, repeat the attack he made in the senate on schedule K, the wool schedule of the tariff.

Senator Borah of Idaho, whose address at Madison Square Garden, New York, on conservation commanded national attention, has agreed to deliver an address on "Conservation."

F. S. Graves, chief forester of the United States, will speak on "The Relation of Forests to the Flockmaster." Judge S. H. Cowan of Fort Worth, Tex., who has been attorney for the American Live Stock association in cattle rate cases, will speak on "The Dangers of Free Meat." Prof. H. M. Mumford of the University of Illinois will talk on "The Importance of Live Stock to the Country." Assistant Secretary of Agriculture Hays will talk on "Breeding of Animals, Plants and Men."

Secretary McClure predicts that the sheep show to be held in connection with the convention will be the biggest national sheep show ever held in the United States. Sheep will be here from Oregon on one side to England on the other.

Among the sheep breeders who have written to engage space are: Williams, Cooper & Matthews, of London, England; F. A. Koser of Ricket, Ore.; King Bros. of Laramie, Wyo.; Butterfield Live Stock company of Wiser, Idaho; Panwell Sheep company of Dillon, Mont., and breeders in Michigan, Iowa, Ohio and Kentucky.

Offers Forged Check as Marriage Fee. BEATRICE, Neb., Oct. 28.—(Special Telegram.)—Mr. and Mrs. Lloyd S. Lapsley, who were recently arrested in Texas while on a honeymoon trip on the charge of uttering and passing a forged check for \$50 on the First National bank of this city drawn on a supposed Kansas City firm, were today given their preliminary hearing before Judge Ellis. Mrs. Lapsley was discharged but her husband was held to the district court. In default of \$2,000 bond he was remanded to the county jail.

At the hearing it developed that Lapsley offered Rev. W. A. Mulligan of the Episcopal church the forged check when he went to pay him for his services at the wedding. The minister was unable to cash the check and Lapsley later called and settled with Mr. Mulligan.

Attractive Exhibits. One of the deepest impressions left by the Land Show is that of the remarkable progress that has been made by the Big Horn Basin of Wyoming. The three attractive exhibits installed at the Land show by the Big Horn Basin not only were visited by thousands of interested persons, but demonstrated that no section of Wyoming or of the west has developed so rapidly the last few years as this rich Big Horn Basin.

The adaptability of the Big Horn Basin for the successful growing of alfalfa is well shown by the mammoth yields of that product which were on exhibit at these booths. Recent investigations by companies interested in the production of alfalfa products have been convinced by convincing proof that not only does the Big Horn Basin produce alfalfa profitably, but also that the quality of the product is far superior to that produced in many other sections of the west. That the alfalfa milling industry will undoubtedly become a decided factor in the Big Horn Basin development is certain. The utilization of the natural gas which is now to be had in the Big Horn Basin for power purposes will materially reduce the cost of production. Only during the last ten days have representatives from large companies been making a thorough inspection of the basin, and especially the city of Basin, with the idea in mind of establishing large alfalfa mills.

The Shedd-Sizer company of Omaha, which has been operating in the basin as a subsidizing agency for the last five years, has been a prominent factor in Big Horn Basin development. The company now owns and is farming a large acreage, the major portion of which is planted to alfalfa. The company now has under

TAFT TALKS ON LABOR UNION

President Declares Intention to Enforce Every Law.

WORKERS NEED ORGANIZATION

Men Have Right to Leave Their Employment for Purpose of Bettering Their Condition and to Leave It Altogether.

MILWAUKEE, Wis., Oct. 28.—Declaring his intention to enforce the law both as to labor unions and trusts President Taft, before leaving Milwaukee for Chicago yesterday at a luncheon in his honor, spoke to several thousand employers and employees of local factories on the relations of capital and labor. He made a plea for all the people to put their shoulders to the wheel to insure obedience to the law and to secure the justice that he said must ensue from such obedience.

"We have our problems, of course we have," said the president. "They are going to be a test of our American ingenuity, but I think there is one solution of them—perhaps that is because I am a lawyer and a judge—there is one solution of them and that is that we shall enforce the law against everyone, high and low and whether it be a trust or a trade union, the law shall be enforced. Then if the law works inequity, the law can be changed; but as long as the law is on the statute books let's enforce it against everyone and trust it to no one's discretion."

Favors Labor Unions. "I have always advocated the existence of labor unions. Without them the individual would be at the mercy and wholly unable to meet at those junctures in his relations with his employer his greater capital and force of power of his employer, and therefore it is essential to have an organization among them and to have what we call 'trade unions.'"

The president pointed out the success that has attended the efforts of labor to secure legislation that will protect the workman and will work for the benefit also of the employer. He referred to the safety appliance act and to the investigation of the workmen's compensation commission. He said that the difficulty with previous systems of workmen's compensation had been in the lack of uniformity for those injured.

"Dependent upon circumstances, upon injuries and judges and law, in particular places because the law differs," said Mr. Taft, "one man for an injury that was not at all severe might get a verdict of \$25,000, while another, whose life was ruined, might be thrown out of court. The ambulance-chasers and the lawyers thrived on the business."

Applauded Vigorously. Although he was speaking to a crowd composed largely of employers and his points against labor unions were frequent, Mr. Taft was applauded vigorously.

Continuing, he said: "Trade unions, I doubt not, have brought higher wages and better conditions, because they have stood up in those times when the interests of the employer and employee were opposed and they have fought out the fight, they have increased the rate of wages and improved the general conditions of their employment; but, on the other hand, we must not fail to recognize that such organizations have prompted at times violations of law, violence, the secondary boycott and other means of seeking to compel their employers illegally to respond to their demands; under those conditions there has been nothing to do but to enforce the law, and the first lesson I would impart to both employers and employees is the absolute necessity, if we are going to have permanent industrial peace, of the closest adherence to the law."

Strikes Legal. "Strikes are legal. Men have the right to leave their employment for the purpose of bettering their condition and to leave it altogether. That has been decided. But a strike used for a secondary boycott or for other illegal purposes may become illegal, and courts should have the courage so to declare, indeed they have."

"We are all in the same boat. Injustice to one class cannot be done without ultimately affecting the entire community."

wood tree, whose size is estimated at from 5,000 to 7,000 years.

Those who attended the banquet were Wilbur Walker, W. D. Nichols and W. S. Walker of Alameda county; A. E. Miot of Tulare county, California; A. L. Cox, E. W. Howling and J. E. Taylor, representing Utah; E. T. Jurek, S. Wiggin, Charles L. Wilson and J. A. Jasper, representing Los Angeles and San Diego; James Swift of Fresno county, California; W. McJride, T. Fonda, G. H. Gillispie, E. E. Trowbridge, R. T. Wright, J. H. Taylor, H. S. Keeler, W. A. McConnell, M. O. Plowman and G. M. Southward, all representing the Trowbridge-Bolster company; and E. T. Howell and L. W. Buckley, representing the Omaha Land Show.

FORTUNE FAVORS MOSLEMS

Italians Defeated in Series of Concerted Attacks.

ARABS UPSET ALL CALCULATIONS

Turkish Embassy Claims that in Monday's Fighting Allies Gained Victory—Heavy Loss in Various Battles.

LONDON, Oct. 28.—From uncorroborated dispatches from Tripoli reaching England by way of Malta, which in part are confirmed by consular dispatches reaching Rome, it is apparent that Italy's campaign in Tripoli has already cost more lives than the government anticipated while the financial outlay will greatly exceed the estimates.

The Turks with their Arab allies, who at best it was believed would only carry on a desultory campaign offering a sort of holiday for the invaders, have upset the calculations of the Italians by a series of concerted attacks, in which, according to accounts sent by correspondents without submission to the censor the Italians have come off second best.

The Turkish embassy issued a statement today claiming that in Monday's fighting the allies gained the victory, the Italians losing 300 killed and 700 wounded. This is confirmed in part by an independent report that the Italians brought 700 wounded men into Tripoli and further by an announcement from Rome that the government has decided to send forward 15,000 reinforcements.

Since then telegrams from various points tell of a series of attacks, the latest on Thursday. One dispatch, which obviously was roughly handled by the censor, says wonderful but untrustworthy stories about the action are in circulation but the Italian riflemen and artillerymen say about 100 Italians were wounded and it is claimed hundreds of natives were killed in the Palms where a cruiser was shelling. According to this dispatch a determined attack was looked for today, Friday being the Moslem's Sunday.

Six Schools to Get \$635,000 from Fund of Education Board

NEW YORK, Oct. 28.—Conditional appropriations aggregating \$635,000 were granted to six colleges and universities this afternoon by the board of trustees of the General Education board of the John D. Rockefeller fund. Applications from twenty-four institutions were produced. From this list the board selected six, among which is distributed conditionally the available funds as follows:

To Bucknell university, Lewisburg, Pa., \$35,000 towards \$100,000; to Fairleigh college, Richmond, Ind., \$75,000 toward \$100,000; to Furman university, Greenville, S. C., \$25,000 toward \$100,000; to Grinnell college, Grinnell, Ia., \$100,000 toward \$500,000; to Smith college, Northampton, Mass., \$200,000 towards \$1,000,000; to Southern Methodist university, Dallas, Tex., \$300,000 toward \$1,000,000.

During the meeting attention was called to the fact that since Mr. Rockefeller made his first contribution to the board for the promotion of higher education in 1906, contributions have been made to ninety-one institutions to an aggregate amount of \$7,625,000, towards a total of \$20,000,000. Fifty-one institutions to which the board have made conditional contributions have completed the subscriptions for the supplemental sums required and to these institutions the board has already paid \$3,500,000 in cash.

APPEALS TO LABORING MEN TO REGISTER

C. M. Feltner, organizer for the American Federation of Labor, returned to Omaha last evening after having spent some time out in the state, and he immediately issued an order appealing to every laboring man to get out today and register. "We want to get lined up for the commission form of government," said he.

If you have anything to sell or exchange advertise it in the Want Ad Columns of The Bee and get immediate results.

GARY DENIES ALL CHARGES

Storm Created by Steel Suit Forces Statement from Directors.

PROTRACTED CONFERENCE HELD

Says that No Misrepresentations Were Made to Roosevelt—Three Justices to Hear the Case.

NEW YORK, Oct. 28.—The following statement was issued by Robert H. Gary, chairman of the board of directors of the United States Steel corporation, tonight: "I think it would be improper for me at this time to make any comments concerning the suit which has been brought by the government against the United States Steel corporation, except to say I regret exceedingly that the Department of Justice felt called on to institute proceedings. If any harm results it will fall on the stockholders and employees, aggregating a very large number, and any loss to them must be deplored. It is a time for everyone to keep cool, with a disposition to patiently await results, knowing that in the end justice will be done to all interests."

Statement Follows Conference. The statement is the result of a protracted conference held earlier in the day in which the participants were Chairman Gary, J. Pierpont Morgan, Charles Steele and George E. Baker, directors of the corporation, as well as several of the legal representatives. Other than this no word came from Chairman Gary or any other official of the corporation.

It was at first the intention of heads of applicable to the allegations contained in the government's bill of complaint as a ground for relief will show that the suit ought to be decided in favor of the corporation on its merits and that the following facts will be established: 1. That in the organization of the United States Steel corporation those in charge had no intention of creating a monopoly or of restraining trade. 2. That the corporation never has had, or attempted to exercise, a monopoly or to restrain trade. 3. That the conduct of the affairs of the corporation has clearly and positively negated any effort or intention to violate any provision of the Sherman law. 4. That the existence of the corporation has been of benefit and not of injury to its employees, its customers, its competitors and the general public. 5. That no misrepresentation was made to the president relative to the Tennessee Coal and Iron properties and that the motive of those connected with the purchase was to prevent a threatened general financial disaster which would have adversely affected the corporation as well as others.

The Steel corporation to make no public response to the action of the government until Tuesday of next week, when at the quarterly meeting, the financial statement of the corporation for the third quarter of the year is to be issued. By reason of the shrinkage of the steel stocks in today's market and because of numerous inquiries from all parts of the country and abroad, however, the directors later decided to make known their attitude without further delay.

Other than this no word came from Chairman Gary or any other official of the corporation.

It was at first the intention of heads of the Steel corporation to make no public response to the action of the government until Tuesday of next week, when at the quarterly meeting, the financial statement of the corporation for the third quarter of the year is to be issued. By reason of the shrinkage of the steel stocks in today's market and because of numerous inquiries from all parts of the country and abroad, however, the directors later decided to make known their attitude without further delay.

Statement Follows Conference. The statement is the result of a protracted conference held earlier in the day in which the participants were Chairman Gary, J. Pierpont Morgan, Charles Steele and George E. Baker, directors of the corporation, as well as several of the legal representatives. Other than this no word came from Chairman Gary or any other official of the corporation.
