Baby's Voice

Every woman's heart responds to the charm and sweetness of a baby's voice, because nature intended her for motherhood. But even the loving nature of a mother shrinks from the ordeal because such a time is regarded as a period of suffering and danger. Women who use Mother's Friend are saved much discomfort and suffering, and their systems, being thoroughly prepared by this great remedy, are in a healthy condition to meet the time with the least possible suffering and danger. Mother's Friend is recommended only for the relief and comfort of expectant mothers; it is in no sense a remedy for various ills, but its many years of success, and the thousands of endorsements received from women who have used it are a guarantee of the benefit to be derived from its use. This remedy does not accomplish wonders but simply assists nature to perfect its work. Mother's Friend allays nausea, prevents caking of the breasts, and in every way contributes to strong, healthy motherhood. Mother's Friend is sold at drug stores. Write for our free book for expectant mothers.

Her lectures are not only thoughtful and suggestive but entertaining as well, and she everywhere charms large and enthusiastic audiences. Her songs, illustrative of a rich variety of pure and beautiful tones, are, through her magnificent voice, sympathetic temperament and versatility, veritable tone paintings, and show that besides careful training, she is richly endowed by nature, with both heart and voice.

Grand Island Party in an Auto Wreck

Screaming of automobile brakes, a crash and rattling of glass and the screams of two women near, sent the passengers of a westbound Farnam street car into panic at 10:15 o'clock last night, when the machine coming south on Thirty-ninth street, turned east and smashed into the rear of the car.

Mr. and Mrs. E. J. Hopkins and Mr. and Mrs. Louis L. Moore, all of Grand Island, were thrown from the machine into the wreckage on the pavement. Miraculously, however, none of the four was badly hurt. The women's clothing was badly torn and they suffered slightly from the shock, but otherwise they escaped injury. The men were only slightly scratched and bruised.

The wrecked machine was taken to the parkway at the side of the street and left, while the party went to the depot to catch a train for Grand Island.

MISS M'HUGH TALKS OF BOYS WHO WORK OUTSIDE

The matter of high school students who work outside of school hours has been taken up with several students and parents by Principal McHugh during this week but otherwise no definite action has yet been taken.

The double session arrangement of classes now in vogue at the school has made it possible for students to work as much as six hours per day outside of school in different ways. A great many of the lads are carrying morning and evening paper routes, others are working in offices about town during the afternoon and some are acting as waiters in the local theaters both in the afternoon and evening.

Principal McHugh insists that in order to carry on successful school work each student should devote at least three hours per day to the preparation of lessons and that work outside of school hours in some cases interferes to a great extent with the success of the student. She does not object, however, to work outside of school provided it does not interfere with lessons.

"If a boy goes to school from 8:30 in the morning until noon, taking part in at least four recitations," said Miss McHugh Friday, "and then goes down town and works during the remainder of the afternoon, often until 6 o'clock, he has accomplished the comparative work of an ordinary man for one day. If he then puts in two or three hours of studying in the evening, he is overtaxing his physical as well as his mental strength and is unfit for good school work the next day."

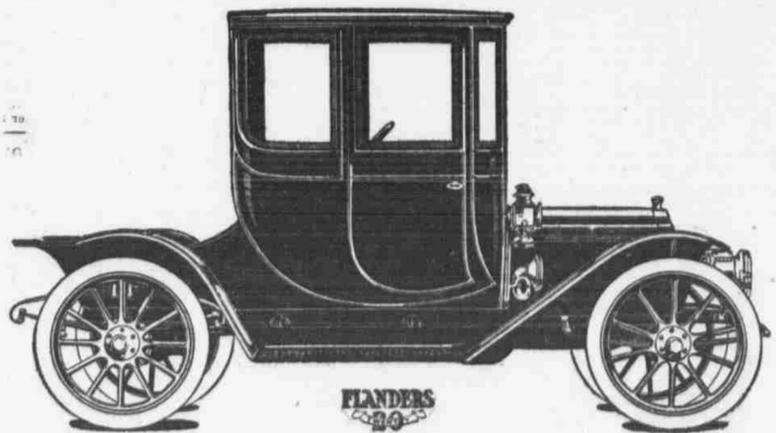

"I have taken the matter up personally with several boys and also with some of the parents and expect to arrive soon at a harmonious solution of the difficulty."

To Die on the Scaffold is painters compared with the weak, lame back kidney trouble causer. Electric Bitters is the remedy. Mc. For sale by Beaton Drug Co.
