This old proverb is meant to catch the eye of the

MAINE DRY BY 758 VOTES

Governor and Council Accept Corrections from Four Towns.

PLAISTED WANTS AMENDMENT

Executive Will Call Special Session of Legislature to Submit Constitutional Change Concerning Liquor Traffic.

AUGUSTA, Me., Nov. 7.—Maine retains constitutional prohibition. Governor Plaisted and his council late last night decided to accept the corrections in the vote from four towns east in the special election in September, thus reversing the result as indicated on the face of the first official returns.

Returns on election day, September 11, indicated a majority of about 200 against the repeal of the prohibitory amendment, but later the official showed a majority of only twenty-six for repeal.

It was found by comparison that in four cases the figures of the town clerks were reversed from their early returns, and in each case the clerks claimed the error to be in the official figures. After hearings on the subject the governor and council took the matter under consideration, and result was the announcement tonight that Maine retained constitutional prohibition by 758 votes.

Will Convene Legislature

Governor Plaisted, at the end of the meeting, said that at an early date, probably in February, he would call a special session of the legislature to submit an amendment to the constitution which will permit the enactment of laws concerning the liquor traffic which are capable of honest enforcement because sustained by the sentiment of the several communities to which they will be applied.

An analysis of the vote, the governor declared, showed an overwhelming majority against prohibition in the cities and a large majority for it in the towns. "There is no question about the desire of the cities," the governor concluded, "to improve conditions by adopting some

other method of dealing with the liquor traffic. An amendment to the constitution should be submitted to the people, to be voted upon next September, under the terms of which cities should have the right to invoke and enact local legislation within their own limits."

Doctors at Banquet Tell of Days Agone and Have Fine Time

Reminiscences of bygone college days, addressed by a number of prominent physicians and a banquet followed by songs and music occupied the attention of several scores of Nebraska doctors who are here for the second annual gathering of the alumni of the college of medicine of the University of Nebraska, last night at the Commercial club. The doctors tendered a reception to the faculty of the medical department.

The address of Dean Wolcott was perhaps the most interesting of the evening and his talk was highly appreciated by the practitioners. He dwelt upon the careers of the rising young doctors who in college and he predicted much for the "latter crop of medics."

The attention of the visiting doctors will be occupied with a bowling contest tonight at the Metropolitan alleys, which has been leased for the evening. Today's scientific program will be as follows:

Council Passes Ordinance Giving Yards Water Franchise.

NO DELAY IN THE ACTION

Martin Jetter Appears to Ask Reconsideration of Compromise Over Paving on Thirtieth Street—Campaign is Over.

Under suspension of the rules at the meeting of the city council yesterday afternoon the ordinance granting permission to the Union Stock Yards and allied packing houses to lay and maintain a line of water pipe from the reservoir at Twelfth and M streets to the packing district was put upon its two final readings and passed unanimously by the members of the city council.

This expeditious disposal of the important ordinance was due to the fact that the question of annexation will be decided today. "While it is felt by the administration that the merger will be defeated at the polls there was no idea upon the part of the council of overlooking results of delay in the event that the unexpected should happen and the measure carry."

At the same meeting, Martin Jetter, a wealthy brewer and property owner, appeared with his attorney, Al Richie, and asked the city council to reconsider the compromise offered by Jetter in regard to the question of the special taxes levied for the payment of the paving in Thirtieth street from Q to Y street. Richie said he was prepared to offer contributing figures to the council if they were of a mind to take action on the matter.

John Franek, president of the council, pointing that it was out of the power of the city council at this time to take the action requested, stated that an opinion of City Attorney Murphy was opposed to the granting of the relief sought. "I would like to give you boys the relief," said the president of the council, "but we have not the power at this time, while the case is still in the courts."

Franek then read a formal resolution requesting the compromise offered by Jetter. When the vote was put Miller interrupted to say that the matter could be taken up at a later date. Mayor Trauner also suggested that the council might want further time for consideration of the matter, but when the clerk called the roll the ayes were unanimous, and Jetter's compromise had been definitely refused.

Franek, however, requested a public opinion from the city attorney in response to a statement of Richie that the city allowed the city council to adjust and rearrange special taxation.

Apparently loath to begin a discussion, City Attorney Murphy said he had given the opinion and recommended the stand taken by the council. "But," continued the speaker, "the objection of the legal side of the matter is not the only one. There are other and valid objections, and some of them are personal. It is a question of honesty as well as of law that is involved. To take the action sought by the petitioner would be a serious step for the council and one not sanctioned by law. I would like Mr. Jetter and his friends to know that we recognize him as one who in the past has striven for the upbuilding of the city, but to grant

changes in the charter of Omaha and made it endurable to contemplate a union of the two cities.

Over in the annexation quarters the brethren gathered in numbers little greater than O'Connell's band. "We meet no more after tonight, until we meet in Omaha," said Tom O'Neil, real estate man and leader of the annexationists.

"We are sure to win," said others in the meeting.

WITNESSES ACCUSE WIDOW

Father of Dead Man Says Experienced Same Sickness.

WOMAN TAKEN TO COUNTY JAIL

Examination of Body of Richard Smith Indicates that he Died of Arsenic Poisoning, According to Coroner.

CHICAGO, Nov. 7.—Two new witnesses came forward yesterday to accuse Mrs. Louise Vermilya, the widow arrested on charges of poisoning Policeman Arthur Bissonette, a roomer at her home, of having knowledge of the manner in which some of the other eight persons who have died beneath her roof of similar ailments came to their death.

Their identity was disclosed by Coroner Peter Hoffman after the widow had been served with a warrant and had been taken to the county jail.

Acting on the story of one of the witnesses, the coroner left at once today to examine the body of Frank Linkamp, son of Mrs. Vermilya's first husband and one of the first of those whose deaths followed an attack of acute stomach disorder. The grave is in Waldheim cemetery, a suburb of Chicago.

Arthur F. Bissonette, sr., father of the dead policeman, was one of the new witnesses, and he disclosed himself as another who had encountered the mysterious stomach complaint while in the Vermilya home. From that encounter, he said, he still suffered.

The other witness was Miss Elizabeth Nolan, former fiancée of Frank Brinkamp, who in an affidavit charged that her intended husband had made statements on his death bed virtually charging his stepmother with having "done away" with him.

Smith Died of Arsenic

Coroner Peter Hoffman said tonight after scrutinizing portions of the body of Richard Smith, the Illinois Central railway conductor whose death is coupled with that of Bissonette in the charges against Mrs. Vermilya, that he was satisfied Smith had died of arsenic poisoning as charged.

"The organs taken from Smith's body have the same greenish tinge that was noticeable in those of Bissonette," said Mr. Hoffman.

"I expect to get a report on them from the chemist Thursday or Friday and probably on Brinkamp at the same time. "I may order Mrs. Vermilya's last husband's body exhumed, but I don't think it will be necessary to have any other corpses examined."
