

Mark Cross Hand-Sewed Gloves \$1.50

In these gloves, as in all products of the famous London leather worker, Mark Cross, the careful, painstaking hand work of master craftsmen is plainly shown.

It requires patience and skill to make a pair of gloves in this fashion, but the result is a glove that fits smoothly and perfectly, never rips and gives long and lasting service.

By making direct importations from the maker, we can sell these gloves at as modest a price as \$1.50

We have them in sizes for Ladies and Gentlemen, Boys and Girls.

Scores of other gloves in every material, lined and unlined, for every member of the family down to the tiny little knit gloves for the baby.

Clean pots and pans with GOLD DUST

Germs of decay accumulate on oft-used pots and pans, and ordinary soap and water only cleans off the surface.

Gold Dust does the work—and does it right. It digs deep after germs, cleans like a new whistle and leaves your pots and pans as bright as the day they were new—and sanitariously safe.

Gold Dust does this work in just half the time required by soap or any other cleanser. Does it better, too.

Gold Dust cleans everything like magic.

Gold Dust is sold in 60 size and large packages. The large package means greater economy.

HAMLIN ATTACKS FREE RAW SUGAR

(Continued from First Page.) total output of Cuba, naturally it caused a rise in price.

"This is the situation which the New York refiners are seeking to take advantage of for the purpose of destroying the beet sugar industry through hostile tariff legislation."

Would Be Independent.

"Had we been producing 1,200,000 tons as we ought," Mr. Hamlin continues, "a situation such as now confronts us would be impossible and we would be independent of drouth in Europe, revolution in Cuba and speculation on the continent."

"Mr. Arbucks, another active advocate of free sugar, is reputed to control the coffee market. Coffee, which is admitted free of duty to this country, has doubled in price during the last year. Can American consumers expect any better treatment on sugar if competition is eliminated by the destruction of the American industry and the control of prices put in the hands of men furthering the free sugar propaganda?"

"It is the American farmer who receives the direct benefit of any protection afforded by our tariff. Out of every pound of beet sugar produced he receives 2 1/2 cents. The sole reason the manufacturer is interested in the tariff is because his great investment in plants would be destroyed if the farmer cannot profitably raise beets."

The statement closes with the declaration that the amount expended in the United States for labor and material used in making a pound of domestic beet sugar is eight times as great as the amount expended for the same item in refining a pound of sugar from imported raws.

"Still this beet sugar invariably sells at a lower price than does refined sugar made from imported raws."

ST. LOUIS, Nov. 16.—Judge Smith McPherson of the United States circuit court today issued a signed order adjudicating the Lewis Publishing company bankrupt.

PACKERS' WRIT IS DELAYED

(Continued from First Page.) procedure of the courts of common law except when there exists an exception by special federal statute.

"The attorney cited several cases to support his contention that there is no precedent for surrendering a prisoner on bail to federal marshal, as was done in the case of the packers."

"Such surrender," he said, "would be to a judge in vacation time, but otherwise appearance of defendants must be made in open court in accordance with the specifications of the bond."

Arguing that the deputy federal marshal had no right in law to accept the surrender of the defendants, Attorney Sheehan declared that legally counsel for the defense ought not to have lusted into the case any of the collateral issues brought by the habeas corpus proceedings.

Reasons advanced by Government. The chief contentions of the government's affidavit were that the packers had not acted in good faith in applying to the circuit court and that the circuit court was without jurisdiction.

The motion to quash was asked for the following reasons: 1. That the circuit court was without jurisdiction to enter the writ.

2. That the petitioners were not imprisoned or restrained at the time of filing the petition.

3. That the leave to file a petition was granted in ignorance of the essential facts upon which the propriety of entertaining such a petition.

4. That the petition was not in good faith, but was for the purpose of avoiding trial on the issues of the indictment.

5. That the petitioners were not arrested, but the pretended imprisonment was at their own instance to give ground for allegations of the petition.

6. That the court, by imposing on the court by making it appear that the purpose of their act is to obtain a decision on the validity of the Sherman act, whereas the true purpose is to transfer the custody of the petitioners from the district court so as to prevent trial on indictment.

7. Each of the petitioners has pleaded "not guilty" to the indictments and is not entitled to have any questions decided by other than the district court until a judgment has been entered against him on a verdict finding him guilty.

The habeas corpus writ destroys the lures of the stomach, liver and kidney diseases for which Electric Bitters is the guaranteed remedy.

M'VANN FOR BUSINESS PEACE

Says Shippers and Railroads Should Have Less Litigation.

ERA OF BETTER SPIRIT DAWNING

Omaha Man Urges Shippers Not to Take Minor Differences with Roads Before Commerce Court.

CHICAGO, Ill., Nov. 16.—(Special.)—A plea for industrial peace, made imperative by "present world-wide business conditions, was made by E. J. McVann, manager of the traffic bureau of the Omaha Commercial club, before the National Industrial Traffic league at its annual banquet here tonight, at which he presided as toastmaster.

Mr. McVann referred especially to the relations between the railroads and shippers. He emphasized the enormous weight of work pressing upon the Interstate Commerce commission of seven men, "into whose hands has been put the greatest power ever lodged in an administrative body in this country," and said he doubted if the shippers of the country had done as much as they could to assist the commission "by keeping the docket clear of unimportant controversies, to avoid taking up the time of the commission with unnecessary conflicts."

She declared the minister was a deceiver, and charged that he wrote to other women and had wanted her to run away to Mexico.

PHYSICIAN ADVISES CUTICURA REMEDIES

For Eczema. Patient's Wrist and Shin Itched Like Poison. Scratched Until They Bled. Says: "Cuticura Soap and Ointment Cured Me."

"Four years ago I had places break out on my wrist and on my shin which would itch and burn by spells, and scratching them would not seem to give any relief. When the trouble first began, my wrist and shin itched like poison. I would scratch those places until they would bleed before I could get any relief. Afterwards the places would scale over, and the flesh underneath would look red and feverish. Sometimes it would begin to itch until I would wake me from my sleep, and I would have to go through the scratching ordeal again."

"I consulted my physician in regard to it, and he pronounced it 'dry eczema.' I used an ointment which the doctor gave me, but it did me no good. Then he advised me to try the Cuticura Remedies. As this trouble has been in my family for years, and is considered hereditary, I felt anxious to try to head it off. I got the Cuticura Soap, Ointment and Pills, and they seemed to be just what I needed."

"The disease was making great headway on my system until I got the Cuticura Remedies which have cleared my skin of the great pest. From the time the eczema healed four weeks ago, until now, I have never felt any of its pest, and I am thankful to the Cuticura Soap and Ointment which certainly cured me. I always use the Cuticura Soap for toilet, and I hope other sufferers from skin diseases will use the Cuticura Soap and Ointment." (Signed) Irena Hutchinson, Three Rivers, Mich., Nov. 16, 1911.

Although Cuticura Soap and Ointment are sold throughout the world, a liberal sample of each, with 25-p. book on the skin and how to keep it free, on application to Post-ter Drug & Chem. Corp., Dept. 174, Boston.
