Cable Influences Cause Temporary Advance in Wheat. CANADIAN NEWS IS BULLISH. Most Traders in Corn Holding Long Staff, but Are Not Inclined to Add to Their Holdings at Present Time.

OMAHA, Nov. 21, 1911. Wheat, influenced by higher cables, opened higher, but the advance was temporary, leading bears sold heavily on the advance.

The Canadian news was a little more bullish, as foreign demand was making for wheat at Montreal. However, the most important price factor for the present is the good or bad weather for Argentina.

Most of the traders in corn are holding long staff at these levels, but are not inclined to add to their holdings until after the first early run of new corn in over, as there is usually a fair depression in values. Shorts might start to cover any time, making 2-4.

Wheat started firm and higher but eased off later, and demand being dull and heavy. Receipts were very light and the demand is gradually picking up. Cash values were unchanged. Primary wheat receipts were 71,000 bushels, and shipments were 47,000.

Primary corn receipts were 70,000 bushels, and shipments were 48,000. Receipts of wheat from Argentina were 71,000 bushels, and shipments were 47,000.
