Wheat Opens with Strength on Account of Bullish Cables...

WEATHER STRENGTHENS CORN Conditions Are Not Favorable at Present for Drying of New Crop...

Merchandise Corn Is Hard to Buy.

OMAHA, Dec. 8, 1911. Wheat opened a little up on account of the bullish cables, but on the advance offerings were heavy and the market eased off.

Traders do not know much more about the growing wheat crop than they did before the official figures were given out. In a general way the condition is considered fairly good, but much of it is considered to be harvested.

Early cables were strengthening, but the advance did not last. Long contracts on corn and cash wheat was weak.

Receipts of corn locally were heavy and receipts from other markets eased off on a more favorable forecast.

Clearances were 2,000 bu. of corn, 5,000 bu. of oats and wheat and flour equal to 1,000 bu. higher on wheat and 1,000 bu. higher on flour.
