Commissioners Hear Talk of Good Roads

GRAND ISLAND, Neb., Dec. 13.—(Special Telegram.)—At the meeting of the county supervisors in session here action was urged with reference to the biennial elections amendment and the project of advertising Nebraska's resources. Senator Placke of Wahoo spoke in "The Senate" and corroborated much that was said in the report of the legislative committee. He urged action by the convention in favor of an expression for a national highway from ocean to ocean and from Canada to the gulf by national appropriations, instead of pouring millions into making streams navigable when they would not remain that way, and instead of doing all the road building in Porto Rico and the Philippines.

George McBride gave the details of the working of the highway commission system and a report of the work done on Douglas county's 600 miles of roads during the last year. This paper was discussed quite freely by Commissioner Fastenau, Senator Placke and others.

W. H. Thompson of this city addressed the convention on the subject of economy and was most attentively listened to. County Superintendent Stevenson of Hamilton county spoke on "Education," P. I. Cronin of Nuckolls on "Benefits Derived from Membership in this Association," J. M. Dunkel of Hall on "A Sheriff's Views," and Louis Schwartz of Platte on "Platte County Roads."

A committee on resolutions of respect to departed members was appointed. The county clerks met separately today and were called to order by President Mixen. In the absence of Secretary Elbert, C. W. Yost of Lincoln was chosen secretary. An address by Secretary Seymour on "Assessing" was listened to and discussed at length. The clerks elected the following officers for the ensuing year:

President, C. L. Hedlund of Phelps county; vice president, J. V. McDonald of Pierce county; secretary-treasurer, C. W. Yost of Lincoln county; executive committee, Messrs. Dewey of Douglas, Sharp of Stanton, McFarland of Madison.

Owner of Flour Mill Must Not Operate it in the Night Time

SIOUX FALLS, S. D., Dec. 13.—(Special.)—Without doubt the most unique injunction ever issued in South Dakota or any other northwestern state has been issued against the proprietor of a flouring mill at White Lake.

The mill has been so rushed with orders for its product that the proprietor has been compelled to operate it throughout the twenty-four hours.

It appears that the noise made by the mill during the hours of the night has proven an annoyance to the residents of the vicinity who apparently were not accustomed to such loudness of industry, and they accordingly applied for, and secured the injunction so their slumbers would not be disturbed in future.

He has spent considerable time and money this year investigating the coal question and says that he has located a vein at a depth of about twenty-five feet and about three feet in thickness. He tried it in the furnace at his house and in a range and says it burned well. Mr. Johnson has had the surrounding territory carefully examined by expert coal men and geologists who tell him that the indications are favorable. This is the third discovery of coal that has been made in this county.

for the loss of his left eye, which he alleges the defendant destroyed by shooting in the eye at Avoca, May 8, 1911. According to the petition the defendant attacked the plaintiff in a store at Avoca at that time without any apparent provocation and drawing a revolver shot him in the eye. The \$10,000 is for the loss of the eye and the remainder is for the loss of time and money expended for medical service since that time. The defendant is a well-to-do farmer residing near Berlin. It is claimed that the defendant offered to settle the matter for \$1,500, but the plaintiff refused, wanting a large sum, some time since.
