GRAIN AND PRODUCE MARKET

Wheat Traders Cautious Following Bulge of Day Before.

BULLS ARE INACTIVE IN CORN

Country Offerings Are Light and Local Receipts Are Below Expectations—Weather Conditions Are Not Favorable.

OMAHA, Dec. 16, 1911.

The wheat market was very encouraging for buyers. News from Argentina and the strength both in the northwest and southwest markets were featured by the bull faction.

However traders are cautious after such a bulge as came at the close yesterday and today's market showed slight signs of weakening. News over Sunday will no doubt have its effect Monday.

With weather conditions rather adverse for the handling of new corn, country offerings light and local receipts below expectations, there is a timid feeling against working on the bull side of the market at this time of the year.

Wheat held very firm after closing under a full head of steam. Everything points to a strong market. Cash wheat was 1½c to 2c higher.

Receipts of corn were light and weather conditions are adverse. Strength in wheat is a strengthening feature. Cash corn was ½c to 1½c higher.

Primary wheat receipts were 481,000 bu. and shipments were 245,000 bu., against receipts last year of 675,000 bu. and shipments of 284,000 bu.

Primary corn receipts were 684,000 bu. and shipments were 504,000 bu., against receipts last year of 802,000 bu. and shipments of 480,000 bu.

Clearances were 57,400 bu. of corn, none of oats, and wheat and flour equal to 550,000 bu.

Liverpool closed ½d to ⅝d lower on wheat, and ½d lower on corn.
