**Do You Wear a Truss?**

What kind is it?  
Are you satisfied with it?  
If not—Why not?  
Does it pinch or chafe you, does it hold up your rupture or let it slip down and endanger you to a strangulation and possibly seriousness?  
Did you ever think about the fact that all trusses now to be had anywhere, have Convex Pads?  
Have you ever been infected with hot paraffin?  
Have you ever been pricked with a needle?  
All in order to cure your rupture?  
The real question is, have you been helped?
