HIGH SCHOOL DERRICK FALLS

Eight-Ton Column Drops and Does Considerable Damage.

CLOSE CALL FOR WORKMEN

Walls of New Wing of the Omaha High School Are Demolished When Big Derrick Buckles Under Heavy Load.

An eight-ton stone column crashed through two stories of the north end of the west wing of the new high school building...

The accident was caused by the collapse of a derrick which had been rigged on the second story wing.

With a thunderous crash the column shot downward to the ground floor...

About twenty brick masons were working on the second floor of the building when it began to twist and crumple.
