Leaders in the wheat trade are taking more interest in the buil news, and the selling pressure is lighter than at any time for months. Cash wheat news is builtish and an increase in the milling and snipping demands is noticed. There was also an important increase in the visible supply. News from Argentine is near the sensational point and it looks like buyers were going to have pienty of encouragement.

CHICAGO, Jan. 3.—Assertions that crop gains in France, Italy and Spain have been sufficient to make the Argentine shortage relatively unimportant seemed to take all the strength today out of cheat. The market closed easy at a net

In the last half of the day sentiment veered decidedly to the bear side. Attempts at profit-taking pulled down the market somewhat and then came statements that Europe, exclusive of Russia, had raised 128,00,000 bushels more wheat than in 1910. The close was within \$c\$ of the bottom level reached. May fluctuated from \$60.00 a net loss of \$60.

Elowness of eastern demand, as well as the enlarging receipts, pulled down corn. May ranged from \$60.00 kg. closing steady \$60 kg net lower at \$60.00 kg. Cash grades were depressed. No. 2 yellow was not quoted.

Outs eased out on account of selling by mash houses. Upper and lower levels eached for May were 44% and 41%c, with the close 43%c, a decline of the from

ers had "filled up" yesterday and prices broke badly, various sales near the close

Today's trade ruled slow and weak with yesternay's cione, or fully lightle lower than yesterday's average market. Extra good lambs had to move at \$5.55, and some fairly attractive classes changed hands at \$5.55, \$6.75. The best lambs on same brought so.30, a quotable limit for choice quality.

Very nearly half of the receipts consisted of fed ewes and the demand for this class of stock appeared equally as dull as the demand for lambs. Prices ruled lower all along the line, toppy ruled lower all along the line, toppy ewes selling at \$3.90, with pretty good kinds around \$3.6063.65. There were only a few scattered bunches of wethers and good yearlings included in the run, wethers being quotable at very fair premiums over ewes. Strictly prime yearlings would probably sell around \$5.25.

Few orders for feeder stock existed and

changed, packers buying fully 20 per cent of current receipts for local slaughter. Yesterday's purchase on country account amounted to less than 1,000 head, making a two days' buy of about 1,200 head.
