

**IRREGULAR HOURS IS THE CAUSE OF MUCH SUFFERING**

Statement Made by George London is Proof of This.

**IMPROVES UNDER TREATMENT**

Thousands in Omaha Afflicted with Nervous Debility in a More or Less Aggravated Form.

"The nature of my business frequently necessitates irregularity with sleep and eating," said George London, who for seven years has been an employe of the Illinois Central railroad, residing at 1607 Third Avenue, Council Bluffs. "As a result," continued he, "I have been a sufferer for three years from a general debilitated, run down condition. I had stomach trouble and was very nervous. I found it hard to get much rest from my sleep and would become fatigued more readily than during my previous good health, and it was difficult to get relief. I finally heard about this new tonic, 'Tona Vita,' and decided to give it a trial. I bought a treatment and noticed an improvement from the very start. It has done me more good than anything I have ever taken. I now eat and sleep well and am no longer troubled with nervousness or stomach trouble. In fact, I am a well man and give entire credit to this wonderful preparation."

"Thousands in Omaha are afflicted with the same trouble in a more or less aggravated form," says the specialists who are here introducing "Tona Vita."

"The strain of modern city life," said one of these specialists, "causes irregularities with regard to eating and sleeping, and produce a most miserable condition of the body, which is known to us as nervous debility; that modern plague whose chief symptoms are imperfect digestion, bowel trouble, nervousness, depression of spirits, little vitality, headaches, backaches, sluggish mind and poor memory, dull pain in the back, poor circulation, cold feet, susceptibility to coughs and colds, dizzy spells, spots before the eyes, uneasy sleep and poor appetite."

"Tona Vita," he continued, "will remove this condition affording the right food material for a complete rejuvenation of all organs and their restoration to a healthy, normal condition."

The "Tona Vita" specialists are explaining the nature of their remarkable remedy at the Brandels' Drug department, Sixteenth and Douglas streets, south side, main floor, and are meeting the public between the hours of 9 a. m. and 6 p. m.

Enthusiasm continues to prevail generally where the new product called "Tona Vita" has been used. The great amount of good which seems to have been accomplished is the cause of considerable excitement by those who have seen its wonderful work. Case after case of people who were comparatively nervous wrecks and those who have been suffering from stomach trouble for years have been reported and the results of "Tona Vita" were said to have been astonishing in nearly every case.—Adv.

**Real Vacation Sport for School Kids**

START OF THE RACE DOWN THE PARKER STREET HILL.

**WILL URGE SEED CORN TESTS**

Commercial Club is in Communication with Prof. Fugsley.

**FUGSLEY TO COME TO OMAHA**

Will Consult with Special Committee as to Best Way to Give the Greatest Publicity to the Need.

The Commercial club's committee to inaugurate a campaign for good seed corn is in communication with Prof. C. W. Fugsley of the University of Nebraska, and expects to bring him to Omaha soon to speak before the commercial interests on the importance of pure seed corn and for a conference with the committee. Mr. Fugsley has made tests in several counties and says the corn is poorer for seed purposes than for many years.

Here is a simple and inexpensive method of testing seed corn:

In "The Nebraska Corn Book" E. C. Bishop, state superintendent of public instruction, tells of a simple home-made germinator as follows: "One of the simplest and most practical germinators can be made by taking two dinner plates and placing in the bottom one, two or three layers of filter paper, blotting paper or other absorbent and thoroughly wetting it. Place the seeds to be tested on top of this. Now invert the second plate over this, taking care that the edges touch evenly. This makes a moist chamber and gives the most favorable conditions for germination."

Instructions for making the test are given as follows:

"Number the ears by placing a piece of cardboard containing the number between two rows of kernels. Then taking your germinator, mark off the blotting paper in the bottom into inch squares, numbering each. Now put the grains from each ear in their respective squares and allow to germinate. In this way several hundred ears may be tested at once.

"For testing a large lot of corn in the ear, select 100 ears at random and take one grain from each of these about two inches from the butt. More corn seems to germinate poorly near the butt than any other place. Place seed in germinator. Germination should begin in about two days and be complete in six.

"For best results, keep temperature as near 80 to 90 as possible and never let it fall below 60."

**Small Coal Dealers to Be Sued Through J. I. Kemp, Treasurer**

J. I. Kemp, treasurer of a temporary organization of more than 100 small coal dealers who have refused to pay their occupation taxes, will be made defendant in a suit brought by the city to test the occupation tax law. John Grant Pegg, city inspector of weights and measures, has notified Mr. Kemp that a friendly suit would be started against him by City Prosecutor Lickinson. Mr. Pegg will swear to the complaint against Kemp.

Attorneys W. J. Connell and J. E. Von Dorn will defend Mr. Kemp. A pool of the smaller dealers affected to raise money to conduct a legal battle to resist the enforcement of the present occupation tax law will be back of Kemp.

The city inspector of weights and measures has placed the names of twenty-five coal dealers who have refused to pay their occupation taxes in the hands of the city prosecutor. However, no action will be instituted against them, all dealers agreeing to abide by the decision in the Kemp case. The contention of the defendants is that there should be a graduated occupation tax, specifying the amounts dealers should pay and grading this in proportion to their businesses, larger dealers paying the larger sum.

**AEROPLANE CONTEST AT FORT OMAHA SATURDAY**

The fifth model aeroplane contest will be held Saturday afternoon at the Fort Omaha balloon house beginning at 2 o'clock. The silver loving cup will be competed for as first prize and a membership in the boys' department of the Young Men's Christian association will be offered for second prize. Gus Bayndorfer has been giving the boys assistance in perfecting their models. Some new boys have entered the field and most of the old ones are again competing so that this contest promises to be a good one. There is no entrance fee for contestants or spectators.

**Frightful Pains.** In the stomach, torpid liver, lame back and weak kidneys are soon relieved by Electric Bitters. Guaranteed. 50c. For sale by Deaton Drug Co.

**Club Gives Reasons Why Teachers Ought to Meet in Omaha**

The Omaha Commercial club has mailed an invitation to every teacher in the Nebraska State Teachers' association to vote for Omaha as the next convention city. Accompanying the invitation are pamphlets setting forth the advantages of holding the convention in this city.

In part the pamphlet says: Why the convention should be held in Omaha:

Because Omaha has the hotels and the rooming houses to accommodate, at reasonable prices, the large gathering.

Because Omaha is so situated that every teacher in the state can reach the city on a direct line.

Because Omaha's industries will give the members an opportunity to study the advanced methods of the day.

Because Omaha has a high school building where all sectional meetings can be held if desired, and other buildings, if separate meeting places are required.

Because 4,925 registered at the 1911 meeting and because the number will be increased if the 1912 convention is held in Omaha.

Because the citizens of Omaha want you and extend the keys of the city during your visit.

Omaha desires the presence of the educators of the great state, realizing their convention is a convention with a purpose and one which accomplishes that purpose. Omaha feels that the inspiration and uplift which follows can but result in the general betterment of the condition of any community, honored with the gathering of such wide awake and earnest men and women as those who make up the membership of the association.

It is with this feeling that this invitation is extended and that your favorable consideration is petitioned.

**Police Relief Fund Gets a Big Boost**

The Police Relief association fund will be materially increased by the number of bonds forfeited during the year just closed. John J. Mahoney, clerk of the court, balanced his books for the year and the amount of fines and costs, and bonds forfeited during the year amount to \$29,226.92. This amount is made up of as follows: Fines, \$7,311.59; costs, \$2,156.52, and bonds forfeited, \$19,758.81. The money will be dispensed as follows: The fines will be turned over to the school fund, the costs will go to the general fund and the money collected from forfeited bonds will go to the Police Relief association fund.

**BOSTWICK SAYS THE COST OF LIVING IS DOWN**

"The cost of living is going down and we can get a good banquet at \$1 a plate," announced S. P. Bostwick of the Real Estate exchange's banquet committee to the exchange.

Mr. Bostwick said it was the idea of the committee to have the exchange's annual banquet at the Home hotel, at \$1 a plate, probably on January 22.

**Young Mothers**

No young woman, in the joy of coming motherhood, should neglect to prepare her system for the physical ordeal she is to undergo. The health of both she and her coming child depends largely upon the care she bestows upon herself during the waiting months. Mother's Friend prepares the expectant mother's system for the coming event, and its use makes her comfortable during all the term. It works with and for nature, and by gradually expanding all tissues, muscles and tendons, involved, and keeping the breasts in good condition, brings the woman to the crisis in splendid physical condition. The baby too is more apt to be perfect and strong where the mother has thus prepared herself for nature's supreme function. No better advice could be given a young expectant mother than that she use Mother's Friend; it is a medicine that has proven its value in thousands of cases. Mother's Friend is sold at drug stores. Write for free book for expectant mothers which contains much valuable information, and many suggestions of a helpful nature. BRADFELD REGULATOR CO., Atlanta, Ga.

**HILL LEASES WYOMING LINE**

Has Operating Agreement with the Northwestern to Use Tracks.

**GIVES SECOND THROUGH ROUTE**

Burlington Now Has Second Line Through Eastern Wyoming, Making Direct Route to Big Horn Basin.

The Hill lines have completed a deal with the Northwestern by which they are enabled to operate a through line between Seattle and the Gulf of Mexico.

The Northwestern has a line of road extending into Wyoming as far west as Lander. The Burlington has built from its Billings line down into the Big Horn basin and to Thermopile. From Thermopile down to Powder River, a station on the Northwestern, the extension is about completed. The deal between the Hill lines and the Northwestern is that the latter road for a consideration, leases that portion of its line between Powder River and Orin Junction to Hill.

At Orin Junction a junction is formed with the Colorado & Southern. Another Hill road that extends down to Denver. At Denver a junction is formed with the Denver & Fort Worth, still another Hill road. Thus the gap between the Pacific coast and the gulf is closed. It is understood that service will be put on the new line early next spring.

Winston-Salem, N. C.

**BEE WANT ADS PRODUCE RESULTS**

**Something Very New in Publishing**

WE are bringing out a WEEKLY MAGAZINE. The first issue will be on sale at all news-stands on Thursday, January 4th. The name of this magazine is

**THE CAVALIER**

This is the first time a great big magazine has ever been issued as a WEEKLY, and THE CAVALIER is a great big magazine of 192 PAGES. Weekly publications are always thought of as of pamphlet shape. But slavery to conventionality of this sort, which is wanting in common sense, has

never had much of a pull with us. The regular magazine shape, which is of the nature of a book, makes the best publication for reading and for preservation, be it weekly or monthly. The frequency of issue has no bearing on the problem.

**A NEW STORY EVERY WEEK**

We shall begin a new serial story every week in THE CAVALIER—52 A YEAR. This is a whole library of books, and in addition you will get six or eight hundred short stories. All this enormous volume of reading will cost, by the year, ONLY FOUR

DOLLARS. Then, too, each issue of THE CAVALIER will have a baseball article by CHARLES E. VAN LOAN, who is easily the cleverest baseball writer in the world. These baseball articles simply hum with the whir of the ball.

**The Destroying Angel**

By LOUIS JOSEPH VANCE

This story is very much worth while. Vance is one of the most popular book authors of the day. His books sell for \$1.50, and are among the very big sellers.

Get this first copy of THE CAVALIER, in which this Vance story starts. Ask your newsdealer for it. If he has sold his supply, he can get you a copy, or you can get it from us. The price is TEN CENTS.

**THE FRANK A. MUNSEY COMPANY**
