BRANDEIS STORES

BENNETTS Our Annual January Sale of Muslin Underwear and Embroideries Begins Next Monday.

BARGAIN FRIDAY

The First Bargain Friday of Our January Clearance Sales offers some remarkable opportunities for saving.

Every department of the store contributes to a greater or lesser degree—in many instances several of the lots being too small to advertise. At the best we can give only the merest idea of how great the bargains are. For example:

Saturday we will offer Every Man's Suit and Overcoat in the Store at Exactly a Half of the Original Price

There will also be a wonderful sale of men's shirts and shoes in connection with the clothing sale that should bring every man to Omaha to this store some time Saturday.

And the women will be interested in knowing that the Sale of Linens Continues

Embracing everything from the smallest napkin or fancy linen piece up to the most handsome and highest grade table cloths possible to procure—towels and sheeting, sheets, sheeting and pillow cases, blankets and bed spreads will be sold at unusual proportions and make it an economic event of far-reaching importance. Get your share.

About 150 Women's Suits to Go at \$9.00 Friday

Values Range from \$15 to \$25 and There's a Good Assortment to Choose From

It's only a small part of the clearance movement in our women's garment store, but it's a seldom-equalled chance to save a lot of money on a fine suit for the balance of the season. Even if you have others, it will be wise to purchase one of these for street or travel wear or rough-and-ready use. Made of medium and heavy chevots and fancy mixtures in plain tailored and a few fancy styles. Sizes for misses and women measuring up to 40.

One lot of women's long sweater coats of various weaves in white and red, all sizes regularly selling \$5 to \$8.50; some are slightly soiled from display or handling, while they last, at \$1.95

Causes of Typewriter Noise

A writer in a recent publication, divided typewriter noise, i. e. that referring to the typewriter itself, like old Gaul, into three parts. First, that produced by the spacing mechanism. Second, that produced by the impact of the type against the platen. Third, that produced by the shifting of the carriage to make capitals. An analysis of these divisions, with reference to the "Smith Premier," discloses: As to the first—(the noise produced by the spacing mechanism)—the Smith Premier is as quiet, if not more quiet, than any. As to the second—(the noise produced by the impact of the type against the platen)—it is less on the Smith Premier than on any other, because the Smith Premier prints with a high speed, light weight, single type bar, against a platen, firmly supported in a rigid carriage. As to the third—(that produced by the shifting of the carriage, or basket, to make capitals)—there is no such noise on the Smith Premier, because it has no shift. Come into our office or send for our man to go to your office and have a demonstration. You are entitled to knowledge about this machine—you may have it, too, without danger of repeated doses until you become sorry you inquired. We don't "harass."
