

SENSATIONAL STATEMENT MADE BY SAMUEL TOLLE

Attributes Change in His Condition to the New Remedy.

EFFECT WAS INSTANTANEOUS

Tonic Acts as a True Specific in All Cases of Debility and is Proving a Lasting Source of Relief to Many.

Some interesting facts are told nearly every day regarding the new medicine called "Tona Vita" which has had such a remarkable run at Brandeis drug department. The remedy has remarkable virtue in treating nervous diseases, stomach trouble, catarrhal and general wasting conditions of the system. The satisfaction which it has given is truly gratifying in nearly every case. The following statement was made recently by Samuel Tolle, employed by the street railway company, residing at 412 North Twenty-third street, South Omaha:

"I have been a sufferer for three and a half years from general debility and catarrhal trouble. I also suffered from stomach trouble. There were times when I could eat nothing but liquid foods and even this would cause a bloating of the stomach and misery afterwards. I suffered from sour stomach, bad taste in the mouth, especially in the morning, and sleep gave no benefit. I would awaken in the morning as tired as when I retired, and there were times when I thought it impossible to do my work. Rheumatism was also part of my trouble. I could never find any medicine that would give me relief. I finally heard about this new remedy, "Tona Vita," and decided to give it a trial. I noticed improvement from the first dose. I didn't believe it possible for a remedy to help me so quickly. It has built me up and I feel stronger and better in every way. In fact, I am a well man and give all credit to this wonderful new medicine."

"Thousands of half sick men and women in Omaha who really do not know what the matter with them are suffering with this same trouble, which is nothing more than that distressing and all too common malady, nervous debility, say the specialists who were sent here to introduce this new medicine. This distressing condition of the organic body is always found existing with the greater percentage of the population of all large cities where the strain and excitement incident to modern life is too much for the constitution of the average person."

"The symptoms of nervous debility are plain to those who understand the nature of this disease. Nervousness, stomach and bowel troubles, imperfect digestion, constipation, headache, listlessness, poor circulation, cold feet, susceptibility to coughs and colds, timidity, depression and despondency are characteristic. "Tona Vita" was discovered and is now being placed on the market for the first time in this country for the relief of those afflicted with this very trouble."

"Our preparation acts like a true specific in all cases of debility, repairing all organic weaknesses, whether man or woman, and proving a lasting source of benefit and relief. When you buy spirit pills and depression gives way to cheerfulness it is hard to recognize some of the former sufferers."

"The specialists are on hand to meet the public from 9 a. m. to 6 p. m. at Brandeis drug department, Sixteenth and Douglas streets, south side, main floor."

DONAHUE CASE TO COURT

Supreme Judges Listen to Arguments in Omaha Ouster Suit.

LEGAL KNOWLEDGE OF OFFICER

Contention of Defense is that Omaha Chief Was Not Obligated to Do More Than Was Done in His Duties.

(From a Staff Correspondent.)

LINCOLN, Jan. 4.—(Special.)—The ouster proceedings against Chief of Police Donahue of Omaha were argued in the supreme court today by Deputy Attorney General Ayers and Special Deputy Mullin in behalf of sustaining the referee's report and W. J. Connell in behalf of Chief Donahue.

Mr. Connell based his argument largely on the contention that the things complained of, even if proved or admitted, were not sufficient to warrant the judgment of ouster. In other words that the duties of the chief, like those of any similar police officer, were to serve legal processes, either personally or through his subordinates, and to arrest violators of the law where knowledge of violation in a legal sense came under his notice. That the simple fact the law may have been violated was not sufficient to render him liable to ouster.

The attorney for the state argued that the present was a time of moral uplift and that the chief had failed to respond to the desire for purification demanded by the people back of the movement. Mr. Connell, however, objected to his client being made a vicarious sacrifice to a sentiment, but rather that a broader principle of justice demanded that the law in his case as in all others, be construed in the light of justice rather than sentiment.

The state argued that the defense under the law and practice had no standing and that due to the failure of Mr. Donahue to ask a rehearing within three days after the filing of the referee's report the supreme court had no recourse, but to approve the findings. The court, however, overruled this contention.

The state cited the record to show there was persistent disregard of certain laws in Omaha which it maintained the defendant did not use due diligence to prevent. Without admitting such violation Mr. Connell contended that now law violation had been shown to have been within the legal knowledge of Chief Donahue and that on the contrary the city had been as free from such violations as it was within the power of his client to bring about. The court took the case under advisement.

Send Out School Funds.

State Treasurer George is now sending out the temporary school fund apportionments to the various counties. He is not receiving much cash from the various county treasurers at present, these officials being at present engaged with the annual settlements with the county boards or preparing the same. It is not anticipated much cash will be remitted to the state until these are completed and then the treasurers will send in all state moneys in their possession. By the end of January at least this will put the treasurer in shape to take up all the outstanding state warrants.

Maneuver for Office.

There is said to be a nice little maneuver at present being conducted in the Second regiment of the national guard. The present colonel, Mack, is not a candidate for re-election and Lieutenant Colonel Simmons of Kearney and Major Clapp of St. Paul are candidates for the place. Some considerable feeling is said to underlie the contest.

Manual Reports on School.

Superintendent Manual of the Boys' Industrial school at Kearney reports that the school has raised during the last year 4,000 bushels of corn, 2,651 worth of sugar beets, 6,000 bushels of potatoes. He also reports that while on account of weather conditions that section of the state produced little in the way of garden truck, the school raised a large amount, which was consumed by the school, by renting the water being pumped at an expense of \$100, which was small in comparison with the additional amount produced. He also announces the school has adopted the plan of permitting inmates who make good records to have vacations to visit their homes, the vacations being from one to two weeks. The plan, he believes, has aided greatly in the discipline of the school and not a single boy has taken undue advantage of the privilege granted.

The Board of Public Lands and Buildings is preparing to fit up a room in the basement under those occupied by the state Board of Agriculture for the newly created board which has charge of registration of stallions.

Old Portrait of Lincoln.

Commandant Hilliard of the Soldiers' home at Milford was exhibiting at the state house an original daguerrotype of Abraham Lincoln, which has been in the possession of his family since it was taken at Danville, Ill., in 1854. It was given to his father by Lincoln.

Guy Defends Figures.

Louis V. Guye, deputy commissioner of labor, has given out a statement in reply to certain criticisms of his report which point out alleged inaccuracies. Mr. Guye points out that his report is compiled from figures furnished him by the county clerks, who in turn get them from the assessors. Mr. Guye admits there may be and probably are inaccuracies in these returns for which the assessors are responsible, but that they are not only the most reliable, but also the only source from which such information can be obtained. He says that nobody would be more pleased than himself to have these inaccuracies eliminated, but that until they are he is compelled to use them.

Dealtists' Offices Robbed.

A systematic raid by thieves was made the latter part of last week on dental offices and gold used for filling was the loot sought. Seven offices were visited as follows: D. L. Heifern, E. A. Hanna, C. F. Ladd, F. L. Hinman, E. E. Northrup, Orin Lamb and Lee Withers. The amounts taken run from \$10 to \$100. There is no trace of the thieves.

F. J. Keans Must Pay.

Francis J. Keans, a wealthy Kearney man who has a large subscription to the fund for the erection of an Episcopalian church, but who refused to pay when the plans were changed without his consent, must make good his subscription of \$4,225 according to an opinion handed down by the supreme court.

In the Hopper will case from Douglas county the supreme court holds that it is perfectly proper to make deeds to realty part of a will. Property bequeathed to heirs prior to his death and which were

Kilpatrick's Attractions Friday!!

Some very absurd statements are made by advertisers; as, for instance, some stores advertise a day's sale to close out every yard and every piece of certain winter goods, goods which are used daily and will be for months to come. HALLER WARNS STUDENTS

Regent Says Social Side of University Life is Made Too Prominent.

SCHOLARSHIP BRINGS GLORY Fraternal Affiliations, Athletics and Other By-Products Distracting Too Much from Real Work of the Institution.

LINCOLN, Jan. 4.—(Special.)—While doing honor to Dean Charles R. Bessey upon his return from Boston, where he presided at the meetings of the American Association for the Advancement of Science, Regent F. L. Haller of Omaha, in a speech before the university students, warned them against overemphasis on the social side of university life, fraternity affiliations, athletics and the indulgence of sentimental affinities between sexes during school life.

Mr. Haller's address was a bitter arraignment of conditions which he believed existed at the state university to a considerable degree. He urged the students to turn away from such false gods and to return to the ideal of scholarship as exemplified in the work of Dean Bessey. He asserted that scholarship, not athletics, brings glory to the state institution and that an overemphasis had been placed upon the by-products, such as social activities and fraternal organizations. "I sometimes think that it would be a good thing," declared Regent Haller, "to confine the attendance at the university to students who make their own way through, or perhaps, to those who have to borrow money with which to secure an education. They who make no sacrifice have no realization of their opportunities. The ones who do are much less apt to run after false gods."

BANK BOND DEPOSITORY ISSUE TO BE DECIDED SOON

BEATRICE, Neb., Jan. 4.—(Special.)—The question of whether state banks which have complied with the provisions of the state laws governing the guaranty of bank deposits will have to give bonds to secure deposits of public funds will be decided by the state supreme court next week. The court's action in refusing to approve the application of the Pickrel state bank to be a depository without a special bond and granted the bank's request. The following banks were designated as depositories: Blue Springs State, Farmers of Clatsop, State of Odell, United States of Beatrice, Hinds' State of Odell, Farmers and Merchants of Wynora, Beatrice National, Bank of Curtland, Farmers of Adams.

BIG RANCH IN RED WILLOW COUNTY IS SOLD

MCCOOK, Neb., Jan. 4.—(Special.)—The largest land sale of 1911 was closed here Saturday, when Dr. John W. Conrad of Sumner, Mo., became owner of the big F. S. Wilcox ranch of 1,949 acres south of McCook, paying \$30 an acre for the land, a school lease for a section of land being included in the transaction. The doctor also purchased from Mr. Wilcox his quarter section of land in Wilcox county at \$2,500. The sale aggregates \$31,200. Dr. Conrad will move here in the spring, as will a brother-in-law from Colorado, who will have charge of the ranch, which will be well stocked with cattle.

La Follette Men Organize.

HOLDREGE, Neb., Jan. 4.—(Special.)—Local supporters of Senator La Follette got into action last evening and organized a La Follette club with nearly fifty members. S. V. Bailey, who sought to secure the republican nomination for sheriff, but was beaten by a narrow margin, was elected president and W. H. H. Richards was chosen secretary. There is a goodly bunch of Taft supporters in this city and community and it is highly probable that they will soon organize also.

Prugn Case Draws Crowd at Fremont

FREMONT, Neb., Jan. 4.—(Special Telegram.)—The preliminary examination of Albert Prugn, on the charge of shooting Mike Gorey, a North Bend bartender and ex-saloon keeper, on Christmas day was held today before County Judge R. J. Stinson. The defendant has nearly recovered from the effects of the scrap. The courtroom was filled with people from North Bend, partisans of the two factions. Judge Stinson held Prugn to the district court for trial, but did not pass upon the application to admit the defendant to bail and he was committed to jail, the record being left in such shape that an application for bail may be later approved.

A number of witnesses were examined and there was a sharp conflict in the testimony as to who began the shooting. The evidence shows that after the defendant and his father had had some words in the saloon the younger man was ordered out, but refused to go. Pat Gorey then called to his brother, Mike, "Look out, he's got a gun."

Mike, then took a revolver from behind the bar and again ordered Prugn out. It is the contention of the state that the defendant fired the first shot, while the defense contends that Mike Gorey fired twice before the defendant shot. Pat Gorey swore that he fired the contents of his brother's gun into the floor and that Mike did not shoot.
