CLEARANCE SALE CLOTHES ALTERED.

Dresher Bros. Employ Small Army of Alteration Hands.

Very Busy Because of Numerous "January Clearance Sales."

Thousands of ladies' and gentlemen's garments are being purchased at the many "January Clearance Sales" now being held in Omaha, but the clothes in most cases must be altered more or less before the purchasers can wear them. In many cases the garments are too large and must be cut down; in other cases the garments must be "let out" or made larger, and in still other cases the entire cut must be changed, and it takes a real expert to do the work. All of the stores refuse to do altering while selling at "sale prices," and most all Omaha concerns send their alteration work out anyway. In this connection please remember that Dresher Bros., at their immense dry cleaning and dyeing establishment at 2211-2213 Farnam street, employ a small army of alteration hands, master tailors, expert seamstresses and busheles, who have passed muster in America's best shops, to say nothing of designers who are capable of "reshaping" a garment to perfection.

If you have "sale" garments of this sort bring them into Dresher's plant at 2211-2213 Farnam street, or to Dresher's branch in the Pompeian room of The Brandeis Stores, or to Dresher The Tailor, at 1515 Farnam street. Or, still better, just phone your wants to Tyler 1300 or Auto A-225 and a wagon will call. Express paid one way on out-of-town shipments of \$3 or over.

School Shoes of the Better Sort For Misses and Children

Drexel's high grade, durable school shoes for Misses and Children have the Drexel appearance and Drexel quality. They are neat and dressy and at the same time the most serviceable school shoe you can buy.

We have them in Kid, Patent Colt in Cloth and Kid tops, Gun Metal, lace button in both Common-sense and Dress toe.

A splendid assortment of good quality gowns, skirts, drawers and corset covers is very much underpriced at 59c. Infants' and children's undermuslins, consisting of dresses, gowns, skirt and drawers at reductions ranging from a fourth to a half less.
