Messages of economy for people who want to save

Just a glimpse at the richest inhabitants of the furniture world

HEMMED indoors by the wrath of Winter, Humanity comes to see new comfort, new beauty, new joy in pieces of furniture that before may have spoken only softly their messages of cheer and restfulness. The roomy rocker by the fireside, or near a radiator, expresses a new measure of delight for its occupant. The big settee, whereon prattle and sprawl children, again strongly tells the worth of good furniture. At the table, the dining board seems to throw more sparks into the conversation and make the meal a better one. The large, roomy beds—surely everyone hears their message on these cold winter nights, when the north wind howls at the window and scares some to place their heads under cover.

Yes, it is just such furniture that is included in this greatest of January sales—furniture with a message of comfort and restfulness. Yet, above all words, this furniture flashes across the mind of every visitor the message of **Economies well worth considering.** Here has been made a clean sweep of the whole stock of furniture and prices have gone down to a base never before struck by us. It is **An economy sale for people of economy mind.** Read the economy messages in the following figures;
