Dainty Street Boots  
That are Practical These Days

A street boot for women that is practical for days like these has heretofore lacked any claim to daintiness or style. We are showing a gun metal, broad high toe, short vamp, heavy soled, in button, which has all the style to be found in a shoe.

We do honor to the maker—for he has taken a heavy soled walking shoe and built it into one of the most stylish little shoes we are showing without destroying its advantages as a street boot. At a moderate price.
