Complete Cessation of Racing on Tracks in Metropolitan Circuit in Effect Since Measure Was Passed.

NEW YORK, Jan. 17.—By action of the Brooklyn Jockey club, today New York will not get the Grand circuit trotting meeting promised for next summer.

Today the Brooklyn Jockey club notified the Grand circuit stewards that it withdrew its application for the dates named.

It was also voted to change the Kentucky futurity so that it will have three instead of two divisions for trotters and so that 2-year-olds will race under the two to three instead of the three to five plan.

The conditions of the Kentucky futurity of the future will provide \$500 for 2-year-old trotters, \$2,000 for 3-year-old trotters, \$2,500 and a gold cup for 4-year-old trotters, making a total money value of \$5,000.

IOWA CITY, Ia., Jan. 17.—(Special.)—That there is no truth in the report started in Des Moines that Wisconsin had

Knickerbocker Trust Building Damaged Hundred Thousand

NEW YORK, Jan. 17.—A stubborn fire on the ground floor of the twenty-two-story office building, owned by the Knickerbocker Trust company, at the corner of Broadway and Exchange Place, gave the financial district a scare.

The blaze was within a few hundred feet of the stock exchange, but was got under control before it could spread beyond the building where it started. The loss will not exceed \$100,000.

The Knickerbocker company's building is a more modern structure than the ruined Equitable building, which was located only a block to the north, on Broadway—and the steel walls and concrete floors held the fire until a flood of water and chemicals gradually gained the mastery.

S.S.S. DRIVES OUT RHEUMATISM

Rheumatism is in reality an internal inflammation—a diseased condition of the blood cells which supply the nourishment and strength necessary to sustain our bodies. Uric acid, an irritating, inflammatory accumulation, gets into the circulation because of physical irregularities, and then instead of nourishing and invigorating the body, the blood irritates and inflames the different nerves, tissues, muscles and joints, because of its impure, acid condition. The pains and aches and other disagreeable and dangerous symptoms of Rheumatism can never be permanently cured until every particle of the cause is driven from the blood. S. S. S. does this because it is a perfect blood purifier. It goes down to the very bottom of the trouble, purifies and cleanses the circulation, invigorates the blood, and completely drives Rheumatism from the system. Plasters, liniments, soothing lotions, etc., may be used for the temporary relief and comfort they bring, but a cure cannot be effected until S. S. S. has removed the cause. It frees the blood of every impurity and makes it a rich, health sustaining fluid, to bring permanent relief and comfort to those who suffer with Rheumatism. Book on Rheumatism and any medical advice free to all who write.
