TAKE LESSON FROM PACKERS

South Omaha Man Advises Cattle Producers to Use More Care.

SHOULD FOLLOW THE MARKET

No Need to Raise Kind of Stock with Which Market is Glutted—Fruit Men Favor "Blue Sky" Law.

(From a Staff Correspondent.) LINCOLN, Jan. 18.—(Special.)—Bruce McCullough of the Drovers' Journal addressed the cattlemen at their meeting this morning. He said that if the beef producers would put their business on a thoroughly organized basis as the packers had their the results would be much more satisfactory.

McCook Congressman Formally Enters Race for U. S. Senate.

FRIES, LIEUTENANT GOVERNOR

Areola Man Will Try His Luck for This Office—George W. Berge Still Cause of Worry to Democrats.

(From a Staff Correspondent.) LINCOLN, Jan. 18.—(Special.)—Prospective candidates evidently thawed out with the rise in temperature and the result was a number of filings for places on the primary ballot. The expected declaration of George W. Norris of McCook that he desired to run for the United States senate was among the arrivals in the morning mail.

Feeding Dairy Cows.

Prof. J. F. Franden was the principal speaker at the morning session of the State Dairymen's association. He dwelt on the scientific methods of feeding dairy cows in order to get the largest production of cream, making the assertion that a cow must be fed more than enough for her sustenance or she will not yield any great amount of rich cream.

KNOCK FOR MORTGAGE LAW

County Assessors Ask Legislature to Repeal It.

SAY IT CUTS STATE VALUES

Declare It Will Reduce Assessment Figures in Nebraska Twenty Millions—Pugsley Warns Farmers About Seed Corn.

(From a Staff Correspondent.) LINCOLN, Jan. 18.—(Special.)—By working right up to the dinner hour the assessors completed their labors today and adjourned. The most important action taken was the passage of a resolution requesting the next session of the legislature to repeal the law regarding the taxation of real estate mortgages.

State's Values.

Edwards of Hall county asserted the law would decrease the assessment of Hall county by \$1,000,000 and of the entire state by at least \$20,000,000. A motion was made to request the attorney general to bring an action to test the constitutionality of the law, but it was pointed out it was the duty of that official to defend the statute and the matter was dropped.

Property Valued Too Low.

By far the greater portion of the time of the session was taken up with discussion of the real estate assessment. Out of it all developed the opinion that not only real estate but all other property was valued at too low a figure by the assessors and while several resolutions bearing on the subject were introduced all were voted down or withdrawn, and the final solution left with the assessors to act on their own judgment.

Famine in Seed Corn.

Prof. Pugsley in an address to the corn-growers predicted a famine in really good seed corn and asked all farmers and others who had corn which they really thought would germinate to send it to the state farm authorities that it might be tested and the best seed really good at all times made available to farmers. He said that tests already made indicated that much seed which the owners thought was good, in reality was not and unless the greatest precautions were taken the 1912 crop was bound to be cut short.

Cambridge Seeds Bonds.

The town of Cambridge has sent to the auditor \$15,000 worth of bonds to be registered. The bonds are issued to fund the floating debt of the municipality. The auditor has decided to register the \$15,000 of school bonds of the district in which Big Springs is located. The bonds and history attached to their face are regular and legal, but the Union Pacific railroad protested their registry on the ground of insufficient majority. The protest was finally withdrawn and the bonds will be registered.

Old-Time Teachers.

Following is the list of the oldtime teachers who attended the recent banquet and the time they began teaching in Nebraska: Dr. C. E. Beasley, 1887; G. A. Gregory, 1874; J. F. Winters, 1875; T. J. AUTO SLED IS DRIVEN BY AEROPLANE PROPELLER

GRAND ISLAND, Neb., Jan. 18.—(Special.)—The members of the firm of Harrison & Reid have been working on an automobile and the success of it seems to depend upon the power of the engine only. It is a combination of an auto and an aeroplane. When Cromwell Dixon was here last year, several months before his death at Seattle, his machinist had failed to come and the Messrs. Harrison and Reid were drafted to help him put together Jimmy Ward's machine. They learned something of the working and power of the propeller and last week, removing the wheels from an auto and substituting runners, they applied machinery to the engine to work a propeller for air and a large crowd watched the initial experimental trip up Second street yesterday. Where the roadway was smooth and icy the plan worked well and the men hope to bring their auto to a state of practical perfection.

Disinfecting City Water.

Professor Whittaker is busily engaged injecting hypochlorite into the water mains of Lincoln in the effort to kill off any typhoid germs that may be contained in the water. Some people think they can taste the chemical and some think they can smell it, but the taste or odor is so slight that it is scarcely distinguishable.

PHONE MERGER NOW A GO

State Dismisses Injunction Proceeding that Acted as Bar.

NEVER REAL PARTY TO THE SUIT

Each Side to Litigation Satisfied with Division of Territory, and Nothing Remains to Arbitrate on Court's Part.

(From a Staff Correspondent.) LINCOLN, Jan. 18.—(Special.)—The supreme court today made a formal order in the Plattsmouth telephone case, formally dismissing the injunction proceedings, saying that action was taken by consent of all the parties to the litigation. This removes the last legal obstacle to the consummation of the so-called telephone merger.

Architect's Pay in Doubt.

O. E. Kirschke of Grand Island, chairman of a committee of the Nebraska Association of Architects, wrote in to Auditor Barton to ascertain whether it was legal for State Architect Miller to collect pay both as state architect and as inspector of state work. The auditor replied that he would present the question to the attorney general, as it properly belonged to that department.

Taxes Pay Off Warrants.

Up to this afternoon thirty-two counties have made their January settlements with the state treasurer, the amount of money remitted being \$275,472.50. Enough of this belongs to the general fund to take up the call for \$100,000 of outstanding warrants and as soon as these are disposed of it is hoped enough money will be on hand to take care of the remainder outstanding and also render it unnecessary to register any more.

York Pays Over Hunting Fees.

YORK, Neb., Jan. 18.—(Special.)—Yesterday the county clerk went to Lincoln and took with him \$300, which had been paid into his hands for fishing and hunting licenses during the year 1911. He will leave the money to be placed to the credit of the state.

Woodmen to Tax Rates.

Lively times are expected in the meeting next week in Chicago when the Modern Woodmen meet to settle the question of the proposed increase in rates. Head Thompson is an advocate of the increased rates, while the opposition appears to center in the Minnesota camps of the organization, though it is by no means confined to that section.

North Platte Wins Firemen's Meeting

Kearney, Neb., Jan. 18.—(Special.)—Today the last reports of the committee of the thirteenth annual convention of the Nebraska State Volunteer Firemen's association were received. Officers were elected as follows: President, H. L. Boyes, Hebron; first vice president, W. B. Hedges, Alliance; second vice president, George Howe, Fremont; secretary, E. A. Miller, Kearney; treasurer, Herman Winter, Norfolk; board of control, W. P. McCune of Norfolk, Bert J. Galley of Columbus, Jacob Goehring of Seward, Roy Frost of Stanton, Lee Cory of York. North Platte gets the convention next year.

ADOLPH HEYDE HANGS HIMSELF IN YORK JAIL

YORK, Neb., Jan. 18.—(Special Telegram.)—Adolf Heyde, a tailor by trade, hanged himself in the county jail last night. He had been a steady drinker of alcohol. Yesterday he went to Utica and returned at 7:45 and was taken from the train in an intoxicated condition and placed in the county jail, as he had made threats at various times that he would kill his family. He leaves a widow and two children in this city.

DR. G. W. TODD, 403 Brandeis Bldg., Omaha.

Dear Doctor: Before I came to you I had been troubled with the old style bridge-work and had them replaced many times, but since you supplied me with the new sanitary teeth, I have known nothing but comfort and ease, for which I wish to thank you.

I want to congratulate you upon being the inventor of something that is bound to relieve all sufferers from the old time half tooth bridge-work.

You have enrolled me as a booster for the further success of your invention and I would recommend any one to investigate the old style half tooth bridge-work, so that they may avoid what many are suffering and will suffer before they get perfect teeth.

Any of my friends that may be in need of dental work will receive my heartiest recommendation to call and see you.

Yours very truly, A. G. GINTER, Prop. Dundee Pharmacy.
