Complexion Flaked Off at Home

(From Pictorial Magazine) The girl with the poor complexion, complains, "I have to touch up my cheeks. I am sallow and a sight, and only my makeup saves me." Now, as a matter of fact, more women spoil their good looks than improve them with cosmetics. The practice is inexcusable, now that the virtues of ordinary mercerized wax have become known. The mercuric in the wax has wonderful absorbent powers. It causes the faded or discolored skin to flake off in minute, almost imperceptible particles, so gently, gradually, as to cause no inconvenience at all. In this way the old complexion is actually removed—likewise all fine lines, surface blotches, moth patches or other surface defects. A new complexion appears—a clear, smooth, youthful, healthy-hued skin such as no paint, powder or lotion can produce. An ounce of mercerized wax, to be had at any drug store, is sufficient. It is applied like cold cream.—Advt.
