APPAIRS AT SOUTH OMAHA
C. M. Peters' Alfalfa Mill Threatened by Fire by Flames.
THIRTEEN STUDENTS FLUNKED
 Number of Young Men Who Scattered Chemically About Assembly Floor Involved—Basket Ball Team Suffers by Rate.
 Fire breaking out at 1:30 o'clock yesterday morning for a while threatened to destroy the C. M. Peters alfalfa mill, Twenty-ninth and B streets. The blaze was caused by piling hot embers against a frame outhouse next to the boiler room. People in the neighborhood, returning home from the show, noticed the fire and notified the fire department. By the time the wagons had arrived the fire had made considerable headway.
 The only thing that prevented the large mill from catching on fire was the brick boiler room which stood between the outhouse and the mill. The damage will amount to about \$1000.
 Thirteen failed to pass.
 Thirteen members of the senior class of the high school failed to pass the mid-winter examination last week. The majority of these were the seniors who were suspended from school because they broke into the school at night and sprinkled the assembly room floor with ammonium valvinate.
 Unless they do some extra studying during the semester they will not be permitted to graduate next spring. They were nearly all on condition by the teachers and if it makes up the work they will graduate with the other members of the class.
 None, however, will be permitted to take part in athletics during the remainder of the term. This will mean that Philip and Foley, two of the best players on the basketball team, will not be allowed to play. With these two men out of the game there is little hope of the team pulling down the state championship. At the same time, the seniors who were suspended from school because they broke into the school at night and sprinkled the assembly room floor with ammonium valvinate.

Chief Postoffice Inspector Makes Report of Year's Work.
HIGH-TONED CRIMINALS CAUGHT
 Men Who Swindled Investors Out of Seventy-Seven Millions Brought to Justice by Efforts of This One Department.
 WASHINGTON, Jan. 22.—Promoters of fraudulent schemes who had obtained \$77,000,000 from the public, were put out of business during the fiscal year ending June 30 last, according to the annual report of Robert S. Sharp, chief inspector of the Postoffice department, issued today.
 This showing is the most remarkable in the history of the department. During the fiscal year 120 individuals were indicted on the charge of using the mails in furtherance of schemes to defraud. Of this number 120 persons were tried and 124 convicted.
 The schemes investigated were of endless variety, varying as the report indicates, "from the simplest business transactions to a gigantic project involving the sale of worthless stock in fake mining companies and imaginary and fictitious institutions existing only on paper in the minds of the promoters."
 In discussing the multiplicity of schemes to defraud the people, Chief Inspector Sharp says "the determination to bring these promoters into court and obtain prison sentences against them has proved exceedingly successful. In no instance, as far as known to this office, has a person convicted on a criminal charge of his scheme under a new name, as was often the case where fraud orders alone were resorted to."
 "The policy of the year's work has developed the fact that these fraud manipulators are a distinct class of criminals, some of them moving in the highest social and business circles, but nearly all having more or less affiliations and connections with or as devisers of schemes or enterprises of illegitimate character in which they are not known as promoters."
 In view of the heavy loss to the Postoffice department in prosecuting the cases, Mr. Sharp recommends that this work be taken over for inquiry by the Department of Justice. He adds that "the work of the last year uncovered a condition among the swindling class which shows the astounding extent of their operations and the enormous amount of their ill-gotten gains."
 The policy of the department, Mr. Sharp points out, "has been to crush out the strong and powerful criminals who have grown rich by the game. This plan has served to eliminate the smaller operators, which they are not known as promoters."
 Inspector Sharp suggests "it is essential for the protection of the public that additional legislation be enacted which will prevent swindlers from carrying on their operations in the border land between legitimate undertakings and criminal schemes."
 During the year 2,461 arrests were made, of which 429 were postoffice burglars. Of the number arrested 112 were postoffice burglars, twenty-two assistant postmasters, ninety-eight clerks in postoffices, thirty-one railway postal clerks, forty-two city letter carriers, thirty-eight rural letter carriers, sixteen mail carriers and fourteen other employees, and 112 persons not connected with the postal service.

R. Sage, Ben Elliott, J. H. Van Yuzen, Mrs. J. H. Schindler, Mrs. J. H. Schindler, Bruce McCulloch, C. A. Melcher, John Gribble, L. Powell, C. Ames, Strang, Mrs. E. B. Chesek, A. W. McGraw and D. L. Holmes.

Citizen of the West Uses the Most Wheat
 WASHINGTON, Jan. 22.—Citizens of the United States consume an average of almost one and one-fifth barrels of flour a year, experts of the government announce in connection with a report on the wheat supply and distribution of the country just made public. They figure this on a basis of four and one-half bushels of wheat to a barrel of flour. The average of all returns indicated a per capita consumption of about 1 1/2 bushels of wheat.
 The people of the far west are the greatest consumers of wheat, their average being six bushels a person. Next come the people of the northern central states west of the Mississippi where five and nine-tenths bushels are consumed. Then the northern central states east of the Mississippi follow with five and six-tenths bushels and the southern central states with four and seven-tenths bushels and the two Atlantic states with four and two-tenths.
 The smaller consumption in the south is accounted for by the fact that corn meal is an important substitute for wheat flour. In some of the heavy surplus potato producing sections of the northern states, such as Maine, Michigan and Wisconsin, potatoes are another substitute.
PERSIANS SEEK TO INVOLVE UNITED STATES GOVERNMENT
 TEHRAN, Jan. 22.—A plot to kill one of the American officials has been discovered and this explains the attempt against the American, Colonel Bruce, at the hands of the Persian government, who was shot at while leaving the barracks January 16. A former officer of the gendarmerie has made a confession of the plot, in which he implicates himself. The object appears to have been to create a political incident in which the United States would be involved.
TURKS DERIDE THOUGHT OF YIELDING TROPOLI
 CONSTANTINOPLE, Jan. 22.—The town of Kiban Yunus, on the Syrian coast, has been bombarded by an Italian warship, according to advices reaching here.
 There is considerable talk of collective intervention by the powers to end the war, but it meets with nothing but derision in Constantinople.

New York Police Trail Suspected Men to the Crime
 NEW YORK, Jan. 22.—With the arrest in Brooklyn early this morning of three alleged safe breakers as they were about to rob a pawnshop, it became known that the New York police recently inaugurated a plan to keep all well known crooks under constant surveillance with the idea of preventing intended robberies. The men arrested, all of whom it is said have prison records, had been trailed for five days by detectives who pounced upon them as they were breaking into the pawnshop.
 "These arrests," said Deputy Police Commissioner Dougherty, "mark the first results of the inauguration of a new method of crime prevention. Instead of waiting for the men to commit the burglary, we arrested them after they had shown such an intention."
 Governor Aldrich said that education is the basic principle that goes to make a representative government, where each one is a builder for the future and where men are striving to bring forth the best that is in them.
 Digressing slightly from his subject, the governor related some of the things in connection with his own education, telling that after graduating from an Ohio college he supposed that his ability in various directions would be recognized and that calls from every direction would be received inviting him to accept chairs in great institutions of learning. He waited, but the calls were not heard, and then borrowing \$200, he said, he packed his grip and started for Nebraska.
 The governor took the position that there are few of the college men who in after years and in every-day business life will be called upon to refer to their Latin and Greek, their geometry and their sociology, but the studying of the sciences, the languages, the mathematics and the arts is teaching them how to think and how to act when they get out and rub up against the world. The college education, he contended, teaches a man how to control his mental faculties and hold on to the problems until something smokes; it teaches the young man how to make the most of the opportunities and does much toward pointing out the way to recognize and grasp those same opportunities as they pass in review.
 However, the governor does not look with favor upon a man "who is all head." He wants to see a corresponding development of the heart and the body, contending that they must work in unison and in harmony with the mind if the best results are to be attained.
 George Washington was pointed to as an illustration of what might be expected of an educated man. As such, when the opportunity presented itself, he heard the call and responded. Though the richest man of his time, he left his comfortable home and shared the hardships of the most common soldier, because he felt that his country needed him.
 Lincoln, by the governor, was referred to as the incarnation of civic virtue and a specimen of a man whom every citizen should emulate.

Milwaukee Men Plan to
