

MRS. G. P. TAYLOR SAYS HER WORK BECAME BURDEN

Suffered Greatly at All Times—She Lacked Enthusiasm. WAS INDUCED TO TRY NEW TONIC Specialist Says Nervous Debility is Cause of Much Suffering in Omaha—New Remedy Will Bring Relief.

"For some time I have been too closely confined to my duties as cashier and I failed to get sufficient exercise in the fresh air," said Mrs. G. P. Taylor, of 256 St. Mary's Ave. "As a result," continued she, "I found myself in a run down, debilitated condition. My work became a burden and I lacked enthusiasm and energy. I suffered from stomach trouble and whenever I did eat anything I would suffer from indigestion. I suffered greatly at all times."

"I was induced to try 'Tona Vita,' and am glad I did. I saw immediate results and I am not in better health than for years. My stomach has improved and I no longer suffer from nervousness or indigestion. 'Tona Vita' has strengthened me and energy and ambition have returned."

Similar statements by many other Omaha people are being received by the specialists who are introducing "Tona Vita" in this city. "When we began the introductory sale of 'Tona Vita' we predicted that the man or woman who would give our medicine a fair test would become a walking advertisement for it, and judging from the results here in Omaha we are correct," said one of these specialists last yesterday afternoon. "Anyone," continued he, "who has been in a half-sick, good for nothing condition, with no vitality or energy, a constant sufferer with despondency, stomach trouble, weak back, headaches, and many other troubles—the symptoms of debility—is sure to tell about it when they find something that will give them a genuine relief."

"Few of the public know anything about the symptoms of this modern plague. Half of the headaches and other pains in Omaha can be attributed to debility, and it should prove a source of general satisfaction to know that a preparation has at last been found to permanently relieve such a distressing malady. "We will continue to meet the public at Brandeis Drug Dept., 15th and Douglas Sts., south side main floor, during the hours of 9 a. m. and 6 p. m., during the rest of our stay in Omaha."—Adv.

BRIEF CITY NEWS

Have Root Print It. Omaha General Hospital, Doug. 555. Gas, Elec. Fixtures, Burgess-Grandey. If unable to get Booth's Guaranteed Canned Oysters of your dealer, call Douglas 625 for nearest dealer's name. Women to Give Card Party—St. Cecilia's court, W. C. O. S., will give a card party Friday afternoon at Earlhart's hall. Edwards for Commissioner—Jonathan Edwards, a deputy in the office of County Assessor W. G. Shriver, has announced his candidacy for a nomination for city commissioner at the coming primary. "I will have my petition out before long," said Mr. Edwards, "and will have it filled some time next month."

Twenty-six Candidates in the Field—There are now eighty-six candidates for nomination for commissioner. Forms for circulation among the voters have been taken out by the following: T. F. Stroud, Ed. Leeder, Theodore Thomas, D. M. Haverly, J. A. Arter and George H. Thurgood. These candidates, city councilman, yesterday filed his petition, signed by the required number of electors.

Leaders to Give a Party—Leaders of the Omaha Young Men's Christian association will tonight entertain the leaders of the Council Bluffs Young Men's Christian association, who will come over to see how things are done in Omaha, chaperoned by A. O. Duvel, physical director of the Council Bluffs association. In addition to some especially active gymnastic work there will be some social features added.

Charged with First Degree Murder—A complaint was filed in police court yesterday morning by Deputy County Attorney Fitzgerald charging Gertrude Mansfield with murder in the first degree. The Mansfield woman shot and killed her paramour last Saturday afternoon while they were eating dinner at 329 Capitol avenue. At the coroner's inquest Monday afternoon the coroner's jury recommended that she be held for further investigation.

Dahlman Says Bryan Shows Selfishness in Defending Wilson

Mayor Dahlman believes that W. J. Bryan, in coming to the defense of Woodrow Wilson, shows his sanction of a "perfectly selfish" political policy. "I don't believe in a man going back on his friends," said Mayor Dahlman, "it is like a boy who turns against the party and forces them to shift for themselves when they need his help. When it comes to a show down I don't believe the American people will approve of such a policy. "If a man goes back on his friends who will he stand by and who can he expect to stand by him? It may be a question of whether the new friends will be as loyal as the old guard, but there's nothing worth while in the game if you can't depend on those who support you and if they can't depend on you."

Mayor Dahlman was not surprised that Mr. Bryan came so quickly and so gallantly to the support of Colonel Watterson's "school teacher." He expected him to do so. However, the mayor is of the opinion that Mr. Bryan has lost a lot of friends by pursuing the policy of "discarding his friends when he can no longer use them." To prove this he pointed to the "Commager" last campaign in the state, when he was not greeted by those who had been his loyal supporters in other years. "I don't know Mr. Wilson personally," said Omaha's mayor, "but that one action in throwing down Colonel Harvey is enough for me." He also believes the New Jersey man is too inconsistent, too selfish and too ambitious and holds to his opinion that the country will properly repudiate him when the time comes.

Woman Lands Big Business for Road

Reports come to the local office of the Great Western to the effect that the company is seriously considering throwing down the bars and permitting women to compete with the men for the various positions in most of the departments of the service. These reports have caused a flutter among the men, some of whom are turning green with envy. All of the trouble for the Great Western men comes about by reason of a stunt performed by Miss Mattie Smithers, station agent at New Market, a little town in Missouri. General Agent Chisam has received official notice of the performance of Miss Smithers and has called the matter to the attention of all the company employees of his division. Miss Smithers' field of operation is in the tobacco producing district of Missouri. Across country ten miles is a station on the Burlington. During the last month tobacco buyers from all over the south have been as thick around New Market as flies in summer. They bought up all the tobacco and had about completed arrangements to ship over the Burlington. Then Miss Smithers got busy. She wired the president of the Great Western that she had a scheme. He wired back for the outlines and as they were agreeable, he gave her a free hand. Miss Smithers entered the field of competition and as a result, she, in less than a week, landed and routed fifty cars of tobacco, doing this before her male competitors realized what had happened.

Students Preparing for Commencement

Dr. C. E. Bessey of the University of Nebraska, who will deliver the mid-term commencement address before Omaha High school graduates, will arrive in Omaha Friday afternoon. Thursday he will deliver an address at Falls City and leaves there over the Missouri Pacific for Omaha, arriving at 5:25 o'clock in the afternoon. The exercises will be held at the Congregational church Friday evening. Superintendent E. U. Graff spoke to the eighth B graduates at the Bancroft school this afternoon. A program of singing, speeches and recitations, closing with folk dances by the eighth grade girls, was given. Other eighth B exercises will be held tomorrow in the following schools: Cass, Castellar, Columbian, Edward Rosewater, Howard Kennedy, Kellom, Lincoln, Saunders, Vinton, Windsor, Mason and Monmouth Park. Nine students graduated from the Bancroft today.

Supercedes Massage as Wrinkle Remover

(The Woman Beautiful.) Many women regularly visit the beauty specialists to have their wrinkles ironed out with the help of hot applications, cold creams and massage. Most of us realize that there comes a time when no amount of persuasion of this sort will avail. This process of "wrinkle removing" is wrong in principle. Both the hot water and the massage tend to expand and loosen the skin, besides softening the muscular foundation. The very opposite result should be aimed at. The tissue should be strengthened, the skin tightened, so there'll be no room for wrinkles. The best known preparation for the purpose can be made at home by dissolving 1 oz. salicylic in 1/2 pint with hazel. Use as a wash lotion. The effect is really marvelous. Tell the druggist you want the powdered salicylic, which dissolves immediately.—Adv.

DISPENSARY FOR NURSES

Offer is Made to the Association to Defray the Expenses.

CARE FOR TUBERCULAR SICK Visiting Nurses' Officers Report on the Work Which Has Been Done During the Winter Months.

The Visiting Nurse association is considering establishing a dispensary where tubercular sufferers may be examined and given treatment and instruction free of charge. The association feels that the spread of tuberculosis in Omaha calls for more strenuous preventive measures than are at present given, especially in early stages of the disease, and is assured of the financial backing for the project since a friend of the association has offered to pay the monthly expenses of the dispensary.

"It is only a matter of time when we could have a dispensary for tubercular at a meeting of the association. "And since the money is offered we should look into the matter now. We could have a small room where a nurse thoroughly educated in tuberculosis would receive patients in the morning. The same nurse could visit patients in their homes in the afternoon. With a dispensary we would get hold of cases so hard to reach now because people would come freely to a headquarters of this kind and talk of their condition."

Miss McPherson, Mrs. Herbert Rogers and Mrs. Victor Caldwell were appointed to take charge of the project. Mrs. Mary Y. Adams, superintendent, told of the work done by the association nurses this winter among sick patients who are too poor to hire aid of any kind, and among those who cannot afford trained nurses in their illness, and spoke especially of tuberculosis work. "Our main difficulties with tuberculosis work are that we do not get patients early enough in the disease to save them, and that the patients will not obey instructions in taking care of themselves when left alone," said Mrs. Adams, who told of the neglect given tubercular patients sent to the county hospital. She said that politics was one of the greatest hindrances in caring for the sick and poor. She stated that one tubercular patient had been sent by the association to the state tuberculosis home in Kearney since its opening January 15.

One of the three nurses of the association has given her entire time this winter to the care of persons suffering with tuberculosis and the dispensary, while not adding greatly to the expense, would be of advantage in reaching the disease in the early stages.

Swedish Nationals Will Give Festival

The Swedish National association which was organized some time ago will give its first national festival in Immanuel Lutheran church, Nineteenth and Cass streets this evening. The speaker of the evening will be Prof. Jules Mauritzson, professor in Swedish language and literature at Augustana college. Elaborate preparations are being made to make the event a big success. A large reception committee has been appointed to make the arrangements and to show Prof. Mauritzson the places of interest in and around Omaha. The following prominent Swedish-Americans are on the committee: Rev. C. E. Elving, Rev. A. Hult, Rev. J. V. Carlson, A. W. Johnson, A. T. Benson, T. G. Northwall, V. A. Johnson, J. P. Jerpe, J. A. Swanson, J. S. Helgren, and N. P. Swanson.

Drinks Ammonia Thinking it is Gin

That Mattie Tiskad took ammonia thinking it was gin was the verdict of the coroner's jury which held an investigation into his death. Tiskad died at his home, 1144 South Sixteenth street, Tuesday morning.

REAL ESTATE MEN TO ENTERTAIN VISITORS

The Real Estate exchange has decided to entertain western real estate men who will pass through Omaha in June to the national convention of real estate men at Louisville, Ky. The exchange also decided not to spend \$400 in getting up a relief map of Omaha to be hung on the wall at the convention. "These two matters caused long discussion of the advisability of spending money for such purposes."

WEATHER MAN HOPEFUL FOR THE NEXT WEEK OR SO

Local Forecaster L. A. Welsh can see nothing ahead that will interfere with the present spell of delightful weather, and he believes that the chances are good for nice weather for the remainder of the week. He does not make this in the nature of a prediction, however, but merely as a probability.

MANY HAVE BAD SEED CORN F. L. Haller Has Letters from Different Sections of the State.

EXPERTS ALL ADVISE TESTING Some Report Conditions Worse Than They Have Ever Seen During Long Residence in the State.

Frank L. Haller of the Lininger Implement company, who is taking an active part in the seed corn campaign of the publicity bureau of the Omaha Commercial club, reports the following expressions on the seed corn situation from men out in the state: "During thirty-seven years as a resident of Nebraska and a farmer in the state I have never seen the seed corn situation in a worse condition than it is at the present time. Nine years of this time I have spent on the institute platform, telling corn and judging corn at various corn shows in the state. I think the farmers of the state should begin their tests early. This will enable them to secure corn elsewhere if they find their own not suitable for seed. Alma, Neb. O. HULL.

(Mr. Hull has traveled through the state for the last nine years as an institute worker.) "During many years experience in the state of Nebraska as a farmer and corn breeder I have never seen a season when the seed corn over the state was so uniformly poor as it is this year. The farmers should begin their tests early, for many of them will find they cannot depend upon their own corn for seed. Pawnee City, Neb. F. W. CHASE.

(Mr. Chase is president of the Good Roads association and originator of Chase's White Dent corn.) "In all of my years of experience as a corn grower in the state of Nebraska I have never seen a year in which the seed was poorer than it is this year. The farmers should begin their tests at once, if the farmers of the state know of any person in the state of Nebraska who has good seed of any variety they should arrange enough for their own use. Crete, Neb. R. A. HOGUE.

(Mr. Hogue is president of the Nebraska Corn Improvers' association and originator of Yellow Dent corn.) "When I attended the corn shows of the state last year it is this year. I thought the corn was of good quality, but when I examined the germ I found that fully per cent of it was either dead or very much weakened. DeSoto, Neb. LEE SMITH.

(Mr. Smith has raised premium seed corn that has taken prizes at corn shows for several years. He raised the junior grand champion corn at the national corn show and has had the reserve grand champion corn at other shows.) "During my twenty-one years of experience as a farmer in the state of Nebraska and as a close observer of seed corn conditions, I have found that seed corn conditions are worse this year than in any previous year. As I have traveled over the state I have found that conditions were worse than I had at first anticipated. Every farmer should begin his tests at once. I would recommend that not a farmer plant seed without carefully testing it. Harvard, Neb. F. W. JOHNSON. (Member State Board of Agriculture.)

COUNSMAN IS CANDIDATE FOR COUNTY ASSESSOR

Deputy County Assessor Harry G. Counsman has announced his candidacy for the republican nomination for assessor to succeed W. G. Shriver at the spring primary. The law prohibits an assessor running for re-election and so far Mr. Counsman is the only republican in the field. "I think I am the logical candidate to succeed Mr. Shriver," said Mr. Counsman, "and I base my claim on my experience and qualifications. I was deputy city assessor, having supervision over all departments, for fourteen years, under Henry Bolin, J. H. Dumont, A. G. Edwards and A. H. Hennings. I am beginning my fifth year as deputy under Mr. Shriver."

How a Woman May Retain Her Youth

"The woman who wants to look young must taboo massage creams and liquid rouge. She will only harden the structure of her face and destroy the fine texture of the skin," said Mrs. Margaret Holmes Bates, the well-known author, to a Chicago Journal representative. "Reputable physicians have declared that if she indulges in artificial methods she risks losing her health," she continued. A perfectly natural method of treating a bad complexion is by using ordinary mercantile wax; this adds nothing to the complexion, but removes it instead. This wax, obtainable at any drug store, flakes off the scaly or lumpy outer skin in fine particles, gently, without harming the skin beneath, which gradually makes its appearance. The brilliantly beautiful complexion thus obtained is a new one—quite different from a patched-up, old complexion. This is one way to retain youthful looks. An ounce of mercantile wax is sufficient. It is applied at night like cold cream and washed off in the morning.—Adv.

WILL MEAT PRICES GO UP AGAIN?

Many Omaha people do not care if meat prices are up or down, because they have found that "Minnesota" macaroni and spaghetti, with their delicious nut-like flavor, take the place of meat very largely and are more easily digested. Good macaroni and spaghetti are four times as nutritious as beefsteak, and they are the best and most nourishing foods known. They can be easily prepared in many appetizing ways and are suitable for the daintiest luncheon as well as the heartiest feast. "But if you want that rich, nut-like flavor be sure to get the delicious "Minnesota" brand macaroni or spaghetti—made from the finest Northern Durum wheat, with all the nourishing gluten left in. It is easily digested and never gets soapy. All good Omaha grocers sell it.

Ask Your Doctor

Stir up your liver a little, just enough to start the bile nicely. One of Ayer's Pills at bedtime is all you need. These pills act directly on the liver. Made for the treatment of constipation, biliousness, dyspepsia, sick-headache. Ask your doctor if he knows a better pill for a sluggish liver. Then follow his advice.

Sutton Sets Aside Verdict for \$15,000 Against Hospital

Verdict for \$15,000 damages against the Omaha Maternity and General hospital and in favor of Mrs. Thelma Brox for the death of her husband, Adolph Brox, was set aside by Judge Abraham L. Sutton in the district court and the court sustained the hospital association's motion for a new trial. The suit, which cost the county in the neighborhood of \$30,000 and Mrs. Brox and the hospital association at least that much more, must be retried.

Judge Sutton sustained the contention of the hospital association that a \$15,000 verdict was so excessive as to indicate that it was the result of passion and prejudice of the jury rather than of calm consideration of the evidence, and, further, that if the amount of the apparent excess was the result of passion and prejudice the entire amount might be the result of the same causes. The suit resulted from the death of Mrs. Brox's husband, who while a patient in the hospital and delirious swal-

Two Thousand Lads Learn How to Swim

H. H. Corson, the swimming instructor at the Young Men's Christian association, has given 5,000 lessons during the time he has been here. Over 2,000 boys have received instructions from him and the majority are now able to swim the length of the pool. About 200 received their third and last lesson yesterday morning. About 36 per cent were able to swim 10 to 20 feet without the aid of water wings. All those swimming, fifty feet received a small button as a prize.

WOMAN'S ILLS

Many women suffer needlessly from girlhood to womanhood and from motherhood to old age—with backache, dizziness or headache. She becomes broken-down, sleepless, nervous, irritable and feels tired from morning to night. When pains and aches rack the womanly system at frequent intervals, ask your neighbor about

Dr. Pierce's Favorite Prescription

Sick women are invited to consult in confidence by letter free. Address Women's Dispensary Medical Ass'n, R.V. Pierce, M. D., Pres't, Buffalo, N. Y. DR. PIERCE'S GREAT FAMILY DOCTOR BOOK, The People's Common Sense Medical Adviser, newly revised up-to-date edition—1000 pages, answers in Plain English hosts of delicate questions which every woman, single or married, ought to know about. Sent free to any address on receipt of 31 one-cent stamps to cover cost of wrapping and mailing only, in French cloth binding.

lowed a quantity of some poison tablets. His death occurred in June, 1910. After having pending a year the case went to trial before Judge Sutton last June. The defense contended that Mrs. Brox failed to show that the poison was the immediate cause of the death. Mr. Brox having been in a critical condition before he took the tablets, and that it should not be held responsible for the man's actions when he left the room assigned to him, wandered about the hospital and secured and took the tablets.

Look for This Name on Handle The Little Polly

It is the name that tells you how to know a good broom, and a good broom is worth knowing—not only because it saves you money, but because it saves work—and what work is harder than sweeping? Easy sweeping and clean floors are the rule where

The LITTLE POLLY Broom

hides away. Happy faces prevail where it is used and the aches that follow sweeping day are conspicuous by their absence. The Little Polly Broom is a triumph in broom making, because we have gone a step farther than others have thought possible—we make a lighter broom with twice the service in it, and a beautifully finished handle that can't stick. Try the Little Polly and prove it. "The only guaranteed broom" Your grocer should have them. If not, ask us who has.

The Diamond SAFETY TREAD TIRE

Stop the skidding before it starts—that's the way the Diamond Safety Tread Tire solves the skid problem. You know how the squeegee cleans away the film of water on a window.

That's the way the Diamond Safety Tread Tire cuts through and cleans away the film of mud or grease on a pavement.

No mere arrangement of buttons, knobs, or ridges, no matter how pretty the design, will do it. The Diamond Safety Tread will—At your Dealer—or The Diamond Rubber Co. of New York 215 South 20th St., Omaha.

The WHITE COCKATOO The Countess had every reason to hate her daughter-in-law because, after all, when Lord Urshott married her, she had been an inmate of a western dance hall. But granting that, did the Countess' servant, Badur Kahn, exercise over her a strange, mysterious control learned in India, and did this control compel Lady Urshott to be so solicitous about the fate of the White Cockatoo that it led to her death? And, if so, was the Countess responsible? Such is the idea of a thrilling story of mystery by Mary Austin, author of "The Arrow Maker," one of the plays of the New Theatre. This as a sample of the short stories. The same number contains five articles on vital questions of current interest: "Germany's Foreign Trade," Wickersham's reply to recent criticisms of his activities against Trusts, Wiley on Back to the Farm, Ross on the Middle West, and Cooper on the American Undergraduate. This February number is a great issue of a great magazine. CENTURY MAGAZINE 50 cents a copy, \$4.50 a year. At all book stores, or The Century Co., Union Square, New York
