The results obtained were far better even than the physician expected and I was completely cured in a short time by the use of the Cuticura Soap and Ointment." WOMEN CAUSED DOWNFALL

W. T. Johnson Baggageman, a Confessed Mail Robber and Bigamist. STEALS TO MAKE FRIENDS Signs Common Law Contract with Council Bluffs Woman While Under the Influence of Liquor. An irresistible longing for feminine companionship is the reason given by William T. Johnson, confessed mail robber, for the incidents which have brought him face to face with a long term in the penitentiary at Leavenworth, besides being charged also with bigamy. Johnson in a signed confession given to federal postoffice inspectors at Denver said that being compelled to travel from place to place he was unable to be in company of his wife as long as he wished and in order to make "friends" along his route, he began to rob the mails, to which he had free access by means of a pass key which he had found. Johnson says he became intimately acquainted with Alice Delaney of Council Bluffs, and that one night while under the influence of liquor in the Hotel Rome he signed a common law marriage contract with her. This affair led up to the charge of bigamy lodged with Denver officials last week. Mrs. Johnson at Denver is almost bordering upon insanity because of her husband's actions and her case is exciting much sympathy. In 1902 she married Johnson in San Francisco following a romantic elopement from her home. She kept the marriage a secret from her parents for nearly a year, when a fire destroyed her marriage certificate. She remarried Johnson in Denver in 1908 and had no knowledge of his attention to other women or of his tampering with the mails. Miss Delaney of Council Bluffs has the common law marriage contract, according to Johnson.

Fagenburg, proprietor of the Palace pool hall, 1215 Douglas, who is charged with keeping a gambling room. Five inmates, charged with gambling, will also be considered by the grand jury. The case was called in police court, but on recommendation of the county attorney it was given to the jury.

NORFOLK BUSINESS MEN INVESTIGATE PAVING HERE

Six Norfolk business men are in the city to secure statistics on paving. They come as a committee representing property holders on a street in Norfolk that will be paved in the early spring. The committee consists of S. T. Nauger, L. M. Beecher, C. E. Durnham, G. D. Butterfield, H. E. Hardy and W. H. Huse. "We are going to pave ten blocks in the residence district of Norfolk in the spring," said Mr. Huse, "and we're down here to see what kind of pavement Omaha has found best and to get what statistics we can from the engineering department." City Engineer Craig placed at the disposal of the committee all statistics in his possession regarding the various paving materials. Norfolk has seven blocks of pavement and a wide-spread move is under way to increase this as much as possible. Work will start in the early spring on the new district and other property-holders are expected to fall in line with the progressives on the ten blocks to be paved.

Coal Shortage in State and Stocks Light in Omaha

Omaha coal wholesalers report the coal situation serious in many parts of the state. "Nobody is freezing, but the situation is actually serious," said a jobber yesterday. Country towns carry light stocks, and when there is much bad weather between the mines and the consumers, as there has been lately, the railroads are not able to haul the coal in fast enough to meet the demand. Fairbury, Madison, Milford and Pullerton are a few of the towns whose dealers report they have no coal at all, though their customers are clamoring for it. Omaha dealers are living "from hand to mouth," as far as hard coal is concerned, and if stormy weather should continue in the east, the local demand could not be supplied long. Stocks of soft coals here are also short. There is enough steam coal for immediate needs. Death of Patrick Woods. Patrick Woods, aged 76 years, died Saturday night at his late residence, 27 South Twenty-second street. The funeral will be held Tuesday morning at 9 a. m. from St. Agnes church. Interment will be in St. Mary's cemetery. McNeil Ends Life. After drinking a quantity of chloroform and carbolic acid, Edgar McNeil, 35 years old, staggered out of a bathroom near his room in the Soargo block, 216 North Twenty-fourth street, South Omaha, and told what he had done. Drs. De Lanney and R. E. Schindler were called at the time, 7:15 o'clock, and worked with the man until 11:15, when he died. McNeil was a structural iron worker, and for several months had been employed on buildings in Omaha. His home was at Pittsburg, Ind. He gave no reason for destroying himself. The body was taken by Deputy Coroner Larkin. Magic City Gospel. F. S. Davis of Columbus is visiting friends in this city. Mrs. W. Agnes Johnson of Brush, Colo., is visiting in the city. AFAIRS AT SOUTH OMAHA

Grand Jury May Take Up Magic City Matters Today.

RINGER WILL GIVE CHANCE

Edgar McNeil, Structural Iron Worker, Commits Suicide by Taking Poison—King Has Serious Fall. It is reported in good authority that the grand jury that will assemble today will not overlook certain conditions said to prevail in this city. Recent gambling raids and bootlegging operations have attracted wide attention. The case of the police commissioners now in course of litigation on ouster proceedings will probably be gone over. Certain data has been gathered and prepared and it is quite probable that Dean Ringer, attorney for the prosecution, will present his information to the jury. In an interview last night, Attorney Ringer stated that he would attend the meeting of the jury today for the purpose of hearing the instructions delivered and also to scan the personnel of the investigating body. "If everything seems favorable," said Attorney Ringer, "I will very probably lay the case before the jury."

To Take Body to Indianapolis.

A. M. Bagdale of Indianapolis, Ind., came to South Omaha yesterday for the purpose of taking back the body of Jack Reynolds, who was killed a week ago in a gambling house brawl at Twenty-sixth and P streets. Undertaker George Brewer disinterred the body and sent it to Indianapolis, where the mother of the murdered man resides. The Reynolds family is reported to own a valuable section of property in the business district of Indianapolis. A. M. Bagdale represented the family of the dead man and accompanied the body back for interment in Indianapolis.

King Found Unconscious.

Frank King, 203 Z street, was found unconscious at the foot of the stairs leading to Frank's dance hall, Twenty-third street, early last night. An examination of the man made by Dr. A. H. Koehn revealed no marks upon him. He was sent to the South Omaha hospital. Alcoholism is thought to be his ailment.

AMERICAN FEDERATION TO SANCTION BIG STRIKE

LAWRENCE, Mass., Feb. 5.—The central labor union of this city, which is affiliated with the American Federation of Labor, will enter into the fight for the success of the strike of more than 5,000 textile mill operatives which has been on for nearly a month. This action was decided upon late today at a closed meeting of the executive committee of the Central Labor union when it was decided to have the Central Labor union try to bring about a settlement in favor of the operatives. It was said the American Federation of Labor stands ready to respond upon call with a formal sanction of the strike and active support.

Aids Nature

The great success of Dr. Pierce's Golden Medical Discovery in curing weak stomachs, wasted bodies, weak lungs, and obstinate and lingering coughs, is based on the recognition of the fundamental truth that "Golden Medical Discovery" supplies Nature with body-building, tissue-repairing, muscle-making materials, in condensed and concentrated form. With this help Nature supplies the necessary strength to the stomach to digest food, build up the body and thereby throw off lingering obstinate coughs. The "Discovery" re-establishes the digestive and nutritive organs in sound health, purifies and enriches the blood, and nourishes the nerves—in short establishes sound vigorous health. If your dealer offers something "just as good," it is probably better FOR HIM—it pays better, but you are thinking of the care not the profit, so there's nothing "just as good" for you. Say so. Dr. Pierce's Common Sense Medical Adviser, in Plain English, or Medicine Simplified, 1008 pages, over 500 illustrations, newly revised, up-to-date Edition, cloth-bound, sent for 31 one-cent stamps, to cover cost of wrapping and mailing only. Woman Who Poses as Man Detected by Mannish Stride

Mrs. P. J. Nelson, a Julian Blinnage of the fair sex, was arrested early last night by Patrolman Cunningham as she was boarding a train for Lincoln and when taken to the police station divulged that she had been masquerading as a boy for four years. Another shocking thing she told was that five other girls, and one of them an Omaha, were traveling about the country also posing as men. She would not give their names.

Mrs. Nelson's mannish strides in woman's skirts, which she had donned while visiting a sick sister in Council Bluffs, drew suspicion upon her and led to her arrest. Her hair was neatly trimmed in the latest fashion; she wore a hybrid overcoat, man's hat and shoes and her general manner, except for the rather effeminate pitch of her voice, was decidedly masculine. She was lodged in the matron's quarters at the police station and was released this morning. The skirts worn underneath her overcoat which caused her arrest will also bring about her release as there can be no charge of masquerading placed against her. Sitting in the captain's office her feet rose in mannish fashion with the enthusiasm of her story. She said that under the name of Charlie Taylor she had worked on railroad section gangs throughout Iowa and once had been employed in a roundhouse. And she showed a muscular arm and calloused hands in proof thereof. The woman's husband, according to her story, is in a hospital in Kansas City, suffering from a broken leg. He is a bartender, she said, whom she met in Omaha at the time of the Al-Sar-Ben carnival. She did not like the old woman role and left him three days after her marriage. "I always wanted to be a boy," she said, "and after my brother put overalls on me when we were moving from southern Iowa to Lake City, they seemed too good for me to take off so I ran away from home. Since then my folks have found out that I am going around this way and they don't care. I'm going to keep it up, too."

Spitting out a cigar stub she strode out of the captain's office to the matron's rooms. The warning sun of the last few days did its work upon the ice and yesterday the system looked forward to work within a few days. Then came the wind last night. Sweeping across the broad stream at the entrance of the Choptank, the gale threw spray high and a nasty sea chopped up the open water and began making inroads upon the ice floes. With cracking reports and whistling winds as an accompaniment, the ice jam started to move, carrying with it the boats which had taken refuge off the little island. Through the dark hours the crews of the vessels fought against the cakes as they broke around them. As day dawned five of the little vessels had almost miraculously worked their way through the cakes and found a temporary refuge in the clear but rough water. There they anchored and today the crews were riding the ice cakes as they approached. The vessels farthest in, however, those that are now missing, were caught almost in the center of the floes. With huge cakes of ice breaking about them the crews fought desperately to save their lives. The wind increased as morning broke and the tiny hulls rocked and jammed in a maelstrom of ice and water. At the time the vessels dropped from sight they were drifting in the teeth of the wind almost straight across the broad Choptank, headed directly for Cook's Point.

OYSTERMEN DIE IN ICE FLOE

Launches and Dredges Caught in Fast Moving Ice.

SIX MEN THOUGHT DROWNED

Boats Seek Refuge Off Coast of Maryland and Are Caught When Gale Breaks Up Ice Jam.

TILGHMANS, Md., Feb. 5.—Six oyster men are believed to have been drowned in the Choptank river when their boats were carried into the open waters in the ice jam that began to move early yesterday with the gale that swept over Tilghmans Island. The ice boat Annopans up to a late hour had found no trace of the boats or men. The missing boats are: Launch and dredge of Tilghman Packing company and its crew of three men. Launch of Captain A. E. Mister, with three men aboard. Five other launches caught in the swirling water managed to fight their way through the buffeting cakes and made clear water. They are now anchored in the middle of the Choptank trying to ride down the gale. The fight was watched by Tilghman islanders who stood on the wharf and shore, powerless to give assistance. For weeks the launches which took refuge in Dogwood harbor, off Tilghman island, when the ice began clogging the waters of the river have lain there until able to move for their harbor. Boats Long Tied Up. The warning sun of the last few days did its work upon the ice and yesterday the system looked forward to work within a few days. Then came the wind last night. MRS. MUTH FEELS LIKE A DIFFERENT WOMAN NOW

Was Down-Hearted and Her Condition Worried Her Family.

IMPROVEMENT HAS BEEN RAPID

Statement Should Prove of Unusual Interest to Those Who Are Suffering with Similar Troubles.

"I feel like an entirely different woman," said Mrs. Della Muth of 1517 Chicago street, city, recently, to one of the specialists now in this city for the purpose of instructing her the remarkable new tonic, "Tona Vita," which has benefited a great number of local people. Continuing, Mrs. Muth said: "For a long time I have been a sufferer from a continuous run down, nervous condition and stomach trouble. I consulted a number of doctors, but none seemed to give me any relief. My conditions grew constantly worse and my entire system seemed to be affected. I could hardly eat anything at all and the very thought of eating would make me sick. "I was down-hearted and blue and my condition was a source of great worry to the whole family. I was always dressing in a somber calimony. "I was in this drug store several weeks ago and saw a crowd of people at the counter where 'Tona Vita' was being sold. I had no faith in any medicine helping me any more, but I saw so many people buying this preparation that I went up to the counter and talked with one of the specialists there. From what he said I decided to try a bottle. "I began using it regularly and was pleasantly surprised to notice an improvement after the first bottle. Now, after a four weeks' treatment, I am a well woman. The stomach trouble, nervousness and depression are all gone and I can eat and sleep better than I have for years. It seems wonderful to note such a change in so short a time. I am bathing in fresh daily and an entire system of my old self again. I believe 'Tona Vita' is worth its weight in gold. "Mrs. Muth is only one among the hundreds who have testified to the remarkable qualities of 'Tona Vita,' and such a statement should prove of unusual interest to people suffering from these troubles, said one of the specialists who are here instructing the ladies. Continuing, this specialist said: "'Tona Vita' will relieve your stomach, out of order stomach and indigestion, as well as remove the nervous, debilitated condition, whether in man or woman. Each dose is quick to show its good effect. We will continue to meet all callers at Brandeis Drug department, Sixteenth and Douglas streets, south side, main floor, between the hours of 9 a. m. and 6 p. m., as long as we remain in Omaha."—Adv.

Knobs, buttons, ridges or ornamental designs on a tire tread won't stop skidding. A skidding tire slides in a film of mud, water or grease.

A tread that cuts through this film, that cleans the pavement as a squeegee cleans a window will stop the skid before it starts.

There's only one such tread—the Diamond Safety Tread.

The Diamond Safety Tread Tire is a year-round tire, greater in mileage than even the regular Diamond Tires.
