MERCURY IN THE WEST RISES

Jumps from Zero to Fifty-Four Above in Less Than Day.

SNOW RAPIDLY DISAPPEARS

Wind Quickly Turns and Western Sections Experience Most Remarkable Change in Temperature.

A change in temperature from cold to warm, and said to be the most radical in the history of the central west, has taken place in Wyoming, western Ne-braska and the Black Hills section of South Dakota during the last thirty hours, according to reports received at Northwestern headquarters in this city. the reports having been sent in by the agents in the territory mentioned.

in the area referred to Monday mornin the area referred to Monday morn-ing temperatures ranging around zero prevailed. This morning reports showed thermometer readings of from 2 to 5t above zero. The Black Hills had the distinction of being the warmest spot, it being 54 above at Deudwood and Lead City, while on the plains north of the is above. From Casper through to Lanported while in Nebraska from Long west temperatures ranged from 22 to 65 and rapidly growing warmer. East of Long Pine, as far down as Valentine, reports indicated from Z to 20 above, practically the same temperatures main-taining into South Dakota as far as

Along the northern portion of the Burlington system the weather at the hour of filing the reports for the Omaha headquarters was much warmer than Monsiar, the temperatures running from 20 to 65 degrees above.

On the Union Pacific through western

Nebraska the temperatures were from 12 to 25 above, while from Cheyenne west

the range was from 25 to 45.

Through Wyonling the snow is rapidly fisappearing, the streams and guilles becoming rivers, while the low places have

suddenly become lakes.

The marked change in temperature is said to have started late Monday night, when the wind vecred around into the west and began to blow a gale. Within an hour this wind warmed up and a few hours later it became a regular chinook.
