SCHWAB WANTS PROTECTION

Steel Magnate Will Quit Business if Underwood Bill Passes.

LABOR IS A LARGE ITEM

He Tells the Committee Protection Would Not Be Needed if It Were Not for the Cheaper Labor Abroad.

WASHINGTON, Feb. 8.—Charles M. Schwab, the steel magnate of Bethlehem, Pa., told the senate finance committee today that the Underwood bill's rates on larger steel products would be of most serious consequence to the steel business in the examination.

"With the same conditions, especially with labor as cheap, we ask no protection," Mr. Schwab said. "But the labor account weighs heavily against us. Though we are only 100 miles from New York, it costs as much to put our steel there as it does to bring it from Holland."

"I consider the present tariff rates necessary to prosperity of the steel business," Mr. Schwab said that without protection he would want no financial interest in the steel business, and he would regard as wasted the \$2,000,000 which recently had been invested in his business.

"After all my work and the investment of my fortune, I have never taken a penny out of the industry," said Mr. Schwab in closing his general statement.

"I haven't made sufficient profit to feel justified in taking money out of the industry," he said.

"What is your salary?" asked Senator Stone.

"Oh, I haven't any," replied the witness, laughing, "but mind telling you why I am in this way. I don't need the income. I have no heirs, no children to leave anything to. I want to build up a successful enterprise, but I want to say that if the house bill passes, I shall drop it."

Entombed Miners Rescued from Shaft

SUTTER CREEK, Cal., Feb. 8.—The sixty-two miners entombed in the Bunker Hill mine at 1 o'clock yesterday by a cave in of the shaft, were rescued at 12 o'clock today, after a night of desperate work by miners from nearby mines.

A fire opening, revealing a glimpse of light at the 300 foot level down the shaft, caught the eyes of the rescuers. A shout was answered by a cry from the men in the shaft and a few moments later the rock jam was cleared sufficiently to allow the passage of a man's body.

When the word spread that an opening work by miners from nearby mines had been effected the men at work in the tunnel shaft ran to the main incline and a cheer from 200 persons greeted the first bearded miner as he came through the opening. One by one the sixty-two passed through each found his family waiting.

A dinner had been prepared at the mine dining hall and after hot restoratives had been administered to the men they were fed with "lobocuous" and hot coffee while the crowd outside still cheered.

Yellowstone Coal Has Made a Hit!

Our January 1st we announced as a genuine January bargain our brand new "Yellowstone" (Wyo.) coal at \$7.00, a price far below its actual value, compared with other western coals. On January 17th, so great had been the sale of this splendid coal, that a solid special train of Yellowstone coal was rushed through on passenger schedule.

Today, February 8th, Yellowstone Certified coal is the most popular fuel sold in Omaha.

Our Introduction Price is \$7.00

We contracted to sell the output of the mine, and, thanks to the quality and the price, we are doing it. Every ton of Yellowstones used by an Omaha consumer saves a nice little chunk of his money.

Yellowstone is Sold on Trial

Our Guarantee Certificate, which is always attached to the driver's ticket, means that our coal is sold "on trial." If you like it, you keep it; if you don't, we take it back. If you don't like it, we lose; if you do like it, you gain—and you will.

Yellowstone is Different

Yellowstone has the advantage over other kinds of coal. It is more durable and will hold fire longer. It is cleaner, therefore, less pleasant to use. It is free from clinkers and leaves but little ash; clinkers and ash weigh heavily and represent wasted money. Yellowstone coal comes from a very deep mine, in a new district, probably the most remarkable deposit ever discovered.

MRS. ANDREW HUNT ON STAND

Former Omaha Woman First Witness in Kimmel Case.

SAYS WHITE IS NOT KIMMEL. She Saw Him in Asylum in New York and He Failed to Recognize Her—Points Out Differences in Photos.

ST. LOUIS, Feb. 8.—The taking of oral testimony in the case of a defunct Niles, Mich., bank against an insurance company of New York, in which \$200,000 insurance are involved began in the United States district court here today before Judge Amidon. Mrs. Andrew J. Hunt, formerly a neighbor of Kimmel in Omaha and Arkansas City, Kan., was the first witness.

Mrs. Hunt was the first woman to go to the Matthewan (N. Y.) asylum for the insane in an effort to identify the man held there under the name of Andrew J. White, as George A. Kimmel. She testified that she arrived at Matthewan February 4, 1908; that the prisoner was not Kimmel and that the prisoner did not recognize her.

She said the ears of the man she saw in the asylum grew close to his head, the man appeared to be about 60 years old and that his eyes were of a different color than Kimmel's. She told the jurors Kimmel at the time he disappeared in July, 1908, was 37 years old.

Mrs. Hunt identified photographs of Kimmel and the photographs of the claimants, calling attention to the differences in the photographs.

A man said to be Andrew J. White, the Kimmel claimant, was found here in a rooming house today. Soon afterward he departed and it was announced that the Kimmel claimant had gone to Chicago to avoid further notoriety.
