BRYAN MUST EXPLAIN WORDS

Will Be First Witness Summoned in Money Trust Investigation.

MILD RESOLUTION PROPOSED

Pujo Frames Instrument Giving Authority for Inquiry Which Eliminates All Specific References to Financial Monopoly.

WASHINGTON, Feb. 9.—William Jennings Bryan will be the first witness to be summoned before the house committee on banking and currency to testify in the money trust investigation, which the democratic caucus, repudiating Mr. Bryan's demand for a special committee, referred to standing committees of the house.

Mr. Bryan took on the toes of the democratic committee when he recently declared the money trust thought it could control the committee. The committee insists that Mr. Bryan must explain what he meant, notwithstanding the fact that the Bryan address in the senate Wednesday night offered a resolution which was adopted, expressing confidence in the integrity of their colleagues on that committee.

This is what Mr. Bryan is credited with saying about the committee, concerning which the democratic members wish to question him.

Democrats, however, the money trust having failed in its effort to prevent an investigation is now trying to force an investigation by the banking committee. The fact that the money trust wants that committee entrusted with the investigation is proof positive that it thinks it can control that committee.

It is marked contrast to the proposal made by Representative Vreeland, ranking republican member of the committee, first ineffectually attempted to have the republican members invited into the committee meeting. The Pujo banking and currency committee resolution was referred to the rules committee.

MANY BIG DRAFTS STOLEN

Council Bluffs Banks Stop Payment on \$75,000 of Paper.

ALL IN MILWAUKEE MAIL POUCH

First National Bank Had \$40,000 Paper in Pouch—Institution Put to Great Deal of Expense to Stop Payment.

Telephones and the telegraph wires were indignantly used yesterday by Council Bluffs bankers stopping payment of drafts, checks and other commercial paper contained in the mail pouch that was stolen Wednesday night from a mail truck at the Milwaukee passenger station.

The pouch may have contained commercial paper to the value of more than \$75,000, and payment of all of this paper had to be stopped. The drafts were mostly Chicago exchange, but in a number of instances New York drafts were in the pouch.

Wednesday happened to be an unusually heavy day for the Council Bluffs banks, when their drafts for banks in towns on the Milwaukee railroad exceeded the usual amount. A rough estimate last evening by the First National bank indicated that the stolen mail pouch contained at least \$40,000. The Commercial National and City National also place in the mail on Wednesday afternoon a large amount of commercial paper consigned to bank correspondents along the line of the Milwaukee.

That the pouch was stolen by Council Bluffs thieves of a low order of intelligence has been fully demonstrated. Postoffice Inspector Allger was given the case last evening.

Plans Made for Big Gathering of Troops by Officers in Texas

San Antonio, Tex., Feb. 9.—Lieutenant Colonel Samuel D. Sturgis, Third field artillery, left tonight for Houston, where on orders from Brigadier General Logan, commanding the Department of Texas, he will ascertain whether a suitable site can be secured for a concentration camp for troops.

Although no official notice has been received here that a movement of troops to Texas will be ordered, preparations for their accommodations are being made. Colonel Sturgis' mission to Houston is part of the plan.

The maneuver camp outside Fort Sam Houston is sufficiently large to accommodate about 10,000 troops, the number mobilized here last March. In the event a larger movement of troops to Texas is ordered, camp sites at San Antonio, Houston, and possibly Galveston and other strategic points will be available.

MOUSE PUTS PIPE ORGAN OUT OF COMMISSION

TABOR, Ia., Feb. 9.—(Special.)—Although church mice are popularly supposed to be more or less innocuous, they prove an expensive luxury, at least when the expression of the Tabor Congregational church. For several weeks the big pipe organ in the church has been behaving in a manner quite unbecoming to one in its responsible position. Frequently it gave utterance to agonizing groans quite out of harmony with the devotional music of the church service. Finally one of the pedals refused to act and the organ was put out of business. Prof. N. O. Howe, the organist and chorister, not possessing the proper instruments with which to operate upon the vitals of the organ found it necessary to send for an expert from the factory. The organ now performs in the most exemplary manner.

WESTERN RATES SUSPENDED

Classification Recently Filed is Held Up by Commission.

AFFECTS NEARLY ALL POINTS

Proposed Schedule Which Would Increase Many Rates and Decrease Few is Suspended Until June 30.

WASHINGTON, Feb. 9.—A new western classification of freight, on which the western transportation lines worked for many months and which recently was filed with the Interstate Commerce commission, today was ordered by the commission to be suspended from February 15 to June 30.

The proposed classification contains hundreds of changes resulting in many advances and some decreases in present rates. Naturally, rates would be affected by the new classification, not only in western territory, but throughout the country on all freight originating in or destined to points in that territory.

A hearing on the proposed classification was held in Chicago on January 2, but it was found impossible by the commission to conclude its inquiry before the effective date, February 15.

Other Rates Suspended. Advances in freight rates proposed by transcontinental railroads were today suspended by the commission from February 25 until August 31. It was found impossible to conclude the inquiry within the time originally fixed by the commission.

The commission today ordered a general investigation of the practice of all interstate carriers with respect to the issuance of passes, franks and free transportation services.

Information has reached the commission that many carriers are violating the law in that regard. Indications are that the offending carriers may be obliged to face prosecution.

The gambet Petral was sent to Puerto Cortes and sailors were landed. The property was not seized. The only purpose of landing the blue jackets was to guard against violence. The question of title to the property is in dispute to be settled through judicial and diplomatic methods.

An arrangement for the adjustment of the dispute between the concessionaries and the Honduran government was provided for in a contract held by the Mexican syndicate, but this has been abandoned and the issue remains open.
