

Winter Has Given Way to Spring Here

From every shelf and case unmistakable signs of spring are peeping forth. For instance—there's a handsome lot of boys' suits, as fresh and bright as the ruddy cheeks of their new owners who will soon claim them.

And the baby—nothing has been overlooked for his comfort, dozens of snowy white dresses and coats and numberless necessities, all ready to slip on.

Then, our buyers are in the eastern markets busily selecting the dresses, the suits and coats which will soon bring the women and miss here to admire and choose from—some of the early purchases are here even now, bidding your early inspection.

Indeed there are so many fresh new things, you'll forget that spring has not been officially declared—you are invited to come and enjoy these first arrivals—now.

Rheumatism Yields to the Great Kidney Remedy

I have been troubled with rheumatism for the last five years. Suffered with much pain in the limbs, back and feet and my joints have been badly swollen. Also suffered from constipation. Besides having a regular physician, I had tried every remedy without receiving the least benefit until I accidentally came across a bottle of Dr. Kilmer's Swamp-Root. I began taking it, never thinking it would help me, but must acknowledge it has done wonders for me. Have taken more than a dozen bottles and feel that it has been a God-send to me. I am recommending it to all my friends.

Yours very truly,

ASKS FOR COMMON SENSE

Beveridge in Address at Denver Pleads for Better Methods.

GERMANY HAS RIGHT SYSTEM Former United States Senator Points Out that Rival Nations Make Tariff Business Matter Instead of Political.

DENVER, Feb. 12.—Common sense and honest methods as a panacea for governmental and commercial ills, bodily imprisonment in place of money fines, a national corrupt practices act applicable to state and county committees that have anything to do with the election of national officials, a permanent non-partisan tariff board and national control of child labor were advocated by former United States Senator Albert J. Beveridge of Indiana in an address here tonight.

Mr. Beveridge described the Sherman law as a relic of the seventeenth century, and said "the oil and tobacco trusts are more alive today than ever before, because they now live under the express approval of the courts; while not one wrong they have inflicted on the people has been ended."

Germany's Aid Business. Mr. Beveridge's address was concluded in these words: "Germany trade is ahead of ours. What is the secret of this? Nothing but common sense. The Germans do not put ball and chain on German business; no, they put wings on its flying feet. The German people do not say to their farmers, sell in the cheapest and buy in the highest market—your welfare is no concern of ours; no, they say help German capital and labor to capture the world's trade and you farmers shall have the highest prices that the spoils of the victors can bestow.

"The time has come when we Americans must at least equal this common sense statement of rival nations. First of all, we must give American business a free hand for honest work; but we must see that it is honest work. We must see that that free hand is not the pirate's hand. We must open the oceans of American business so that all honest merchants may sail the seas of honest trade unhindered, and that they may do so, we must clear the waters of our commerce from every buccaner.

"Honest protection is necessary to our people's wellbeing, but it is even more necessary that our tariff shall be made steady and its changes natural instead of being uncertain and its changes volcanic. Our tariff must be made a matter of business instead of a matter of politics. Common sense says that we should find out the truth and build our tariff on that. A genuine, permanent, non-partisan tariff commission to find out these facts is the first common sense thing we must have to make our tariff wise, and honest, and steady."

Cudahy Packing Company Indicted at Atlanta, Ga.

ATLANTA, Ga., Feb. 12.—The Cudahy Packing company was indicted here this afternoon by a federal grand jury on 26 counts for making false internal revenue returns on oleomargarine. It is charged that the company sold large quantities of the product to a local butter dealer and reported it having been sold to restaurants.

The indictment charges that the local branch of the packing house sold white oleomargarine to Atlanta dealers and in the returns to the collector of revenue made it appear that the sales were made to various restaurants. After a raid on the store of the purchasing dealers, where government agents said they found employees coloring the product to be sold as butter, investigation was made which showed, it is said, that the restaurants named in the reports had used none of the product.

The alleged offenses extend over a period of thirteen months. Fines from \$20,000 to \$100,000 may be assessed if convicted.

The remainder of the men in the mine escaped by other shafts.

Wilson Opens His Illinois Campaign

CHICAGO, Feb. 12.—Governor Woodrow Wilson of New Jersey opened his Illinois campaign for the democratic nomination for president in an address today at Lincoln's birthday luncheon of the Ironists club. He reiterated his belief in the initiative and referendum and predicted democratic victory at the polls in November.

"I believe in the initiative and referendum because they will give the people real representative government," said Governor Wilson.

"I have never favored the recall of judges, because they are not administrative officers of the government. They simply interpret and enforce the law. To urge the recall of judges is to treat a symptom rather than the disease. My idea is to abolish the laws that make it possible for special interests to control the judiciary."

"I have visited a number of states and I think the democratic party's prospects for success are excellent, no matter who is nominated by the republicans.

"The country, I believe, is deeply dissatisfied with republican management of the nation's affairs.

"I think the people are more interested in principles than in persons in this year's presidential campaign.

"My friends often ask me how I like practical politics and I tell them that I like it first rate. The experience is not new to me. Anybody who fights for reform is certain to have bricks thrown at him. In politics the bricks are often invisible and cannot be dodged."

DES MOINES, Ia., Feb. 12.—Woodrow Wilson, democratic candidate for president, will address a mass convention of his adherents here March 1, according to an announcement at Wilson headquarters today. This information was received in response to an invitation tendered Mr. Wilson by his local supporters.

JURY HEARS OF MIDWAY CASE

Sheriff's Deputies Tell What They Find on Various Raids.

HUMMEL TELLS OF PAVING County Grand Jury May Return More True Bills Tuesday Morning, According to Special Deputy Goss.

Testimony of sheriff's deputies regarding alleged violations of law at the famous Midway saloon and at other places visited by Sheriff Felix J. McShane was heard by the Douglas county grand jury yesterday. Testimony of Councilman Joe B. Hummel of Omaha in the matter of the charges of irregularities in connection with paving contract awards also was received.

The grand jury adjourned at noon to reconvene this morning at 10 o'clock. Yesterday afternoon it enjoyed a half holiday, the day being the anniversary of Abraham Lincoln's birthday.

Though Police Judge Foster and Deputy County Attorney Ewalt have agreed that the Midway illegal liquor selling case, over which four juries have disagreed, shall be retried in police court, the sheriff decided it would do no harm to get the evidence before the grand jury. Chief Deputy William A. Foster and Deputies Edward W. Palmer and Walter Hanger were subpoenaed and testified, their examination requiring more than an hour.

Their testimony, concerned not only the Midway, but several restaurants and rooming houses which the sheriff's deputies have visited or raided.

Councilman Hummel's examination consumed about half an hour. He refused to discuss the testimony with newspaper men.

The rest of the morning sitting of the grand jury was devoted to examination

had found that less than a third of his corn will grow. Others had found that none would grow and others that 75 to 80 per cent would germinate strong. Mr. Patterson, who had carefully picked his corn, found that his corn tested out well.

The Human Heart

The heart is a wonderful double pump, through the action of which the blood stream is kept sweeping round and round through the body at the rate of seven miles an hour. "Remember this, that our bodies will not stand the strain of over-work without good, pure blood any more than the engine can run smoothly without oil." After many years of study in the active practice of medicine, Dr. R. V. Pierce found that when the stomach was out of order, the blood impure and there were symptoms of general breakdown, a tonic made of the glyceric extract of certain roots was the best corrective. This he called
