

HOUSE ASKED TO DEFEAT CAUCUS

Stephens Predicts Money Trust Will Yet Be Investigated by Special Committee.

HARD BATTLE SET FOR MONDAY
Resolution Will Then Be Called Before the Lower Body.

NEBRASKANS DEFENDING HENRY
Three Democrats Said to Be in Favor of Upsetting Machine.

STILL HUNT FOR VOTES
Washington Assorted to Have Surpassed Itself as Scene of Ceaselessly Active Political Maneuvering.

(From a Staff Correspondent.)
WASHINGTON, Feb. 18.—(Special Telegram.)—Congressman Dan V. Stephens declared today that in spite of the action of the democratic caucus on the resolution to investigate the money trust, which virtually nullified the Henry measure, to investigate by special committee, a resolution would be passed Monday that practically will be a duplicate of the Henry resolution.
"It has been agreed," said Mr. Stephens, "to have the caucus resolution called before the house Monday. Those democrats who favor the special committee investigation, including all three of the Nebraskans, intend to defeat the caucus measure and offer one of our own. Since the caucus the members have been hearing from home and I believe we will have 100 democratic votes instead of sixty-six that voted for the Henry resolution in caucus."
A lively fight is promised, for the Underwood faction are bitter over the possibility of what they term a violation of the caucus agreement. Meanwhile the Henry men are working for republican votes.

Wind Tosses Planes; Aviator Badly Hurt
OAKLAND, Cal., Feb. 18.—The opening of an aviation meet at the old Emoryville race track near here today was spoiled by a windstorm which drove a biplane into a hospital building and a half dozen of his fellow aviators are having themselves to play again tomorrow the hide-and-seek game with death which lurks in the ocean fogs and the gusty winds of San Francisco bay.
Phil O. Farnsworth, Glenn Martin, Horace F. Kearney and Hilary Beach were among those whose machines were driven to the ground by combating air currents. Before the aviators could pitch their planes to meet one burst of the half-gale another from a different direction would upset their equilibrium.
Hoff was trying a new machine when he met misfortune. As he flew at a height of about fifty feet an air current, sweeping around Mount Tamalpais, struck the biplane. It buckled and dropped straight to the earth. Hoff was under it. His pelvis bone was fractured, his nose broken, his face crushed and he sustained internal injuries.
Hoff was mechanic for Eugene Ely when Ely was killed at Mason, Ga. Mrs. Ely was in the grandstand today and sat rigid with horror as Hoff tumbled to earth. She left the field unwept.

MAINE EXPLOSIVE FROM HAVANA. SAYS ENGINEER
NEW YORK, Feb. 18.—The explosive with which the battleship Maine was blown up was similar in type, if not identical with the explosive used in blasting operations in the soft rock found about Havana, is the opinion of Colonel W. M. Black, U. S. A., engineer corps, expressed today at the luncheon of the New York commandery, Naval Military Order of the Spanish War.
Colonel Black, who was a member of the board of officers in charge of raising the Maine, in discussing the problems which the board encountered in its task, reiterated his belief in the theory of an external explosion, followed by internal explosions and said that the explosive used was a low power, slow acting composition, probably manufactured in the city of Havana.

Former Secretary of Peoria Structural Iron Workers Held
CHICAGO, Feb. 18.—John W. Irwin, former recording secretary of the Peoria, Ill., local of the Structural Iron Workers International union, one of the men indicted by the Indianapolis federal grand jury, unexpectedly was arrested here tonight. Irwin was arraigned before United States Commissioner Mark Foote and on recommendation of counsel for the defense was released on a temporary bond of \$5,000 until next Wednesday.
Irwin's arrest was effected by United States Marshal William Crowley and city police officers working under direction of Charles De Woody, division superintendent of the Department of Justice. The warrant for Irwin's arrest was in the original bundle of ten sent to Chicago for service. Search for him was started last night. Irwin's warrant did not reach Chicago until late Saturday night.
The Peoria secretary's whereabouts have been unknown except to a few close friends for more than a year. Government officers at Peoria were told that Irwin had been sent to an asylum under an assumed name. It was discovered, however, that Irwin had been employed on several structural iron contracts here within that period. Finally his place of residence was found in a remote quarter of the southwest side.
Irwin appeared greatly surprised when arrested. He denied that he had been connected with dynamite conspiracy charges against him and his fellow officials.
When taken to a police station, Irwin asked permission to telephone to Attorney Patrick H. O'Donnell, who is acting as counsel for the structural iron workers arrested here. Attorney O'Donnell met Irwin and the federal officers at the government building where he represented the prisoner in the brief hearing before Commissioner Foote.
"It is Sunday and we are wholly unprepared for this," said Attorney O'Donnell, "and I wish that this preliminary hearing be continued for a few days."
The continuance was granted, the bond was arranged and Irwin left the federal building with his attorney.

PINCHOT QUITS LA FOLLETTE

Says Wisconsin Senator's Course Fails of Purpose.

NEED OF LEADER IS APPARENT
Still Has Unqualified Admiration for His Past Services, but Says Fighting for Principle, Not for Men.

WASHINGTON, Feb. 18.—Gifford Pinchot in a signed statement made public tonight announces he has withdrawn his support from Senator La Follette's presidential candidacy and that he will hereafter advocate the nomination of Theodore Roosevelt. Mr. Pinchot says that the events of the last month have made it apparent that Senator La Follette's candidacy will neither hold the progressive republicans together as a fighting force nor prevent the nomination of "a reactionary republican."
"The course which the senator has elected to pursue," says Mr. Pinchot, "will not keep the progressives together, and in that course I cannot follow him."
The statement follows:
"The struggle which until recently has centered around Senator La Follette's candidacy, was undertaken for two clear and specific purposes; first, to hold the progressives together as an effective fighting force; and second, to prevent the nomination of a reactionary republican for the party. Within the last month circumstances have made it impossible to accomplish, by means of the candidacy of Senator La Follette, either of these two purposes and the imperative need for another leader has been made.
"One of these circumstances is the ill health of Senator La Follette, which all his friends so greatly deplore. I retain, undiminished, my regard for the high quality of his past services to the progressive cause, but the course which he has elected to pursue will not keep the progressives together and in that course I cannot follow him. From the beginning I have fought for a cause and a principle, and not for a man.
"The reasons for the action I am taking are set forth at length in a letter to Senator La Follette, in which I have notified him that since, in my judgment, his candidacy no longer will advance the progressive cause, I shall hereafter advocate the nomination of Colonel Roosevelt, whose duty I believe it is to take up the leadership of the progressive movement.
"Until this notification to Senator La Follette was delivered, I have, of course, taken no part in advocating the nomination of Colonel Roosevelt.
"The country knows that Colonel Roosevelt is a genuine progressive. That question was settled for all by his active championship of human rights during the seven years of conflict, which made the progressive movement a power in the nation."

KNOX NON GRATA IN ONE COUNTRY

Minister from Colombia Intimates Secretary of State Would Better Stay Away.

DIFFERENCES OVER CANAL ZONE
These Form Basis of Suggestion Visit Would Be Inadvisable.

LETTER FROM SENOR OSPINA
Takes Action Himself Without Consulting Government.

CHANGE IN PROGRAM MADE
Secretary of State Will Not Take Matter Up Further and Change in His Itinerary Has Already Been Made.

WASHINGTON, Feb. 18.—Senator Pedro Nel Ospina, minister from Colombia, has unofficially "suggested" to the State department that Secretary Knox might find it "inopportune" to include a visit to Columbia in the itinerary of his projected trip to Central America.
In a letter to Assistant Secretary Wilson the minister says he speaks without sanction of his government, but has asked for instructions.
Senator Ospina refers to the differences which have arisen over this government's acquisition of the Panama canal zone, as the basis of his "suggestions."
It had not been finally decided that Secretary Knox would visit Columbia, but the minister had been notified that such a visit was probable. The secretary's itinerary will not now include that country.
"In making a hurried trip through the state in the interest of my candidacy," said Jesse S. Newton, republican candidate for governor, who was in Omaha over Sunday, "I find the feeling towards the 'big city' is changing in their favor. It was only a short time ago, and the feeling exists in a large measure today, that a city should be run along the same lines of a small town, and some of the politicians have made a hit by telling the people that Omaha, Lincoln and other cities need no more lawyers than towns of 500 to 1,000 inhabitants."
"What does the traveling public think of a city the size of Omaha or Lincoln, closing its places of social diversion at an early hour and all that is left for the traveler is to window shop and read electric signs?"
"Omaha, especially, has to compete with Chicago, Duluth, Minneapolis, St. Paul, Sioux City, Kansas City, Denver, and if you want your visitors to say a good word for Nebraska and Omaha, the cities, at least, must be alive and offer all the entertainment that other cities do."
"Omaha people should assist in every way possible in advertising Nebraska, rearing and securing a greater population by letting the world know that Nebraska is the best place on earth to live."

Better Feeling for Cities Out in State

CLAIMANT IN KIMMEL MYSTERY CASE SAYS AFFECTION IS DEAD.
ST. LOUIS, Feb. 18.—Andrew J. White, claimant in the Kimmel mystery case, now on trial in the United States district court, here today, Mrs. Estelle Kimmel and her daughter, Mrs. Edna Bonnett, mother and sister of the missing George A. Kimmel, as his mother and sister today.
"These women are no longer my mother and sister," the claimant said. "I mean of course that they are my blood relatives, but I feel no kinship for them. Our relationship is dead, dead as a door nail. It was killed by their actions toward me in this litigation."
Despite this the claimant referred to the "mother" and "sister."
"As I sat in the court room and heard mother drawn and discredit me," he said, "something within me seemed to snap and I gave up hope of ever being reconciled with them. Up to that moment there had been a lingering hope, perhaps, that we might be reunited, but I do not feel that way now. I am against them from now on. I will see this thing through. I will fight their case in every way I can. I feel no filial affection for mother and no brotherly interest in Edna."
"I was engaged to the loveliest girl in Michigan, and would have married her but for Edna, who was sick and I gave my sister the money I had saved to be married on. Had it not been for that I might have been an honored man now instead of an outcast, alleged impostor and hated by scores."
The claimant referred to Mrs. Harriet Marston of Canton, O., who is expected to be a witness for the defense this week. She was Harriet Beason of Niles, Mich., and George A. Kimmel "kept company" with her.
The defense in the case, an insurance company of New York, is making its witnesses. Mrs. Mabel Finley Lardner, one of the strongest supporters of the claimant, her husband, William P. Lardner, and the Rev. Cordell Herrick, former chaplain of the Auburn prison, where White was confined, are the witnesses that have arrived.
Mrs. Lardner said she felt no doubt that the man was the missing cashier of the Farmers State bank of Arkansas City, Kan. The claimant greeted the Lardners and chaplain profusely.

MOVEMENT ON FOOT FOR BRAIN HYGIENE

NEW YORK, Feb. 18.—After three years' work in perfecting plans the national committee for mental hygiene announced its full organization at its fourth annual meeting today and outlined its proposal to conduct a systematic campaign throughout the United States for mental development.
It is the first movement of such dimensions undertaken in any country so far as known. It was announced that an unnamed donor had given \$50,000 to be available at once and that the gift would be doubled later if the committee can raise \$500,000 toward a permanent endowment from other sources.
The work provided for in the gift is to be begun at once in the form of a survey of the national field, with Dr. Thomas W. Salmon of the United States Public Health and Marine Hospital Service in charge. The national committee has opened headquarters here, from which it will direct efforts to improve conditions affecting the insane, as well as the education of the sane on the subject of mental disorders, their known causes, prevention and cure.

OLD PROSPECTORS RECALL MANY STORIES OF THE PAST

SEATTLE, Wash., Feb. 18.—Scores of old prospectors—some millionaires and some still seeking a grubstake—lived again a portion of their youth tonight at the prospectors' reunion, which closed the sessions of the Northwest Mining convention.
The reception room of a local hotel, turned for the occasion into a reproduction of an old-time mining camp and bar, echoed for hours with stories of lost mines and phantom lodes as men in evening dress or machine-wash coats traded stories of the hills, thumping down upon the rough bar nuggets and bits of quartz as time-worn as the stories themselves.

TRUCK EXHIBIT IN BASEMENT
Decorations Are to Be Unique and Elaborate—One Hundred and Sixty-Three Cars to Be Shown.

This afternoon at 1 o'clock Omaha's seventh annual automobile show will open in the Auditorium.
The first exhibit car arrived at the Auditorium late Saturday night, and since early Sunday morning the entire building has been abuzz with hurrying men, putting the exhibits in their places and arranging lights and decorations. This forenoon will be a very busy time, but the management gives assurance that every exhibit will be in place by 1 o'clock this afternoon.
Something new in the way of lights and decorations has been arranged and the automobile men have kept it a secret, for they want visitors to have a pleasant surprise when they enter the Auditorium. The decorating and lighting scheme was adopted only after conference with the experts who had charge of the decorations for the Chicago show.
A musical program will be offered at the show each afternoon and evening. There will be a booth at which sandwiches and coffee will be provided for those who do not wish to leave the building at meal time.
The main floor of the building is devoted to pleasure cars, the stage to accessories and the basement to commercial vehicles. In all, 161 types of cars will be on exhibition. A notable feature will be the self-starting car, which does away with the disagreeable necessity of cranking. Among the accessories will be wind shields, horns, speedometers, foot-warmers and all other numerous inventions for making motoring convenient and comfortable.
Officers of the association expect several hundred dealers from surrounding territory to attend the show, most of them bringing prospective customers. The demand for automobiles is increasing year by year and an attendance at the show this year far greater than last is naturally expected.

SELL AT AUCTION PROPERTY OF BAYLESS PULP COMPANY

COUDBERSPORT, Pa., Feb. 18.—Under a federal order F. E. Baldwin, as master, sold at public auction yesterday Henry A. Knapp of Scranton for \$20,000, all that remains of the property of the Bayless Pulp Paper company, the burning of whom died September 28, last, spread death and destruction through the village of Austin.
The only other bidder was County Attorney W. F. Dubois, who bid \$2000 to cover a claim for taxes by the county.
Knapp acted for William G. Phelps of Binghamton, N. Y., trustee under a mortgage for \$50,000 executed about a year ago.

WETS AND DRIES BEFORE COMMITTEES OF CONGRESS

WASHINGTON, Feb. 18.—The "wets" and the "drys" battled at the capital yesterday over the question of prohibiting the shipment of liquor into states where its sale is barred. Mrs. Lillian M. N. Stevens of Maine, president of the national Women's Christian Temperance union, appeared with the legislative reports and the officers of that organization while a delegation of German-American men and women, led by Representative Bartholdt of Missouri, opposed the legislation. The hearing was before the senate committee on the judiciary.
Later the German-American delegation appeared before the house judiciary committee.
Chairman Nelson of the sub-committee, conducting the hearing, observed that while he was in London he saw women in front of the bars there drinking whiskey and gin along with the men. "Just like hoboes," a condition that he never saw in this country.
Neither committee took any action.
