1500 Ideas for 15c. Ideas for dresses, dinners, dishes, parties, pantries, games, gardens; ideas about house-building, house-furnishing, housekeeping; ideas for husbands, children, babies; ideas about people, books, markets, politics, amusements, entertainments, clubs and sociables. Every idea is worth at least 15c. Every woman can use at least one idea. Maude Adams has never been "written up" before. Here are two pages with pictures. Congress makes laws for women as well as for men. Vice-President Sherman tells how they do it. Women in Tacoma stopped the markets from selling bad food. One who helped tells it. Are you intellectually dishonest? Read and see. Have you read Jeffery Farnol, Zona Gale, Edna Ferber? Miss Gilder has. What are the best new books? Here are ten of them. Georgia Wood Pangborn has written a good story; J. J. Bell another. There are seven in this number. Every suggestion is worth 15 cents. You can get the whole 1500 for 15c. Is the Spring Girl still straight up and down? Yes, but not for long. Thus Miss Gould starts off her fashion prophecies and answers in her own authoritative and clear-cut way the questions that are now on every woman's lips. Miss Gould is the leading authority on woman's dress, and she knows what she is talking about. She has fifteen different departments in this Spring Fashion Number describing 92 New Things to be worn this Spring. "New Spring Materials," showing what is correct for tailored suits and afternoon and evening gowns; "The Correct Fashions for the Two Types of American Girl"; "The Tailor-made Girl," drawn by Paul W. Furstenberg, and "The Picture-perfect Girl," drawn by C. G. Sheldon; "Spring Fashions for the Young Girl," her correct clothes for different hours in the day; "The Latest News from Paris," by our special French correspondent; "Twenty-four Smart Waists for Spring," showing the very newest fashions in tailored waists and costume blouses; "The New Ribbon-bow Board," novelties women can make on this useful board; "How to Make Your Spring Hat," a lesson on covering and trimming a wire frame; "Dainty Things for Baby"; "The Spring Hat and Its Relation to the Coiffure," just what millinery shapes and what types of hair-dressing are best suited to each other; "Dainty Little Fashions," dress novelties which can be made for one dollar or less; "The Dressmaking Lesson"; "The Newest Crochet Patterns"; Correct Spring Fashions for Well-dressed Boys and Girls. 92 ideas about fashions for 15c. "Invite the Neighbors in" when the house is done, we'll entertain. Ten programs for your woman's club, ideas for two early spring church bazaars, three plans for March parties, two ideas for late winter dances, four Jolly Children's Parties. Social life means entertainment and entertainment means ideas. The woman who entertains, no matter how informally, will find the March Woman's Home Companion a valuable help—15c. Do you want a garden as well as a house? Read the garden ideas. "The Garden of Perennials" is one way. Seven prize gardens show the ideas and successes of other readers; four "Summer Gardens" are ours. Then there are two full pages showing photographs and floor plans of eight original hangings. For furnishing the house, study "The New Wall Papers and Cretonnes," "How to Buy Furniture," and "Three Mission Tables" that you can make yourself. Ideas for the House, Indoors and Out—15c. Are you musical? Usually the Woman's Home Companion contains a piece of sheet music. This number has three special pages of advice for the woman musically inclined: The second part of "The Girl with a Voice," a paper on "How to Practice" and the Tower Room Talk in this number is devoted to "A Girl's Education in Music." 15c. What is Fashionable for Afternoon Wear? Six different departments are either for children or about them. There are the adventures of the Keepees; the Jack and Betty cut-out book with further adventures; the serial, "The Island Twins"; Dr. Dennett's sage, "When Baby is Sick"; Sam Loyd's page of puzzles; Ten Practical Kites that boys can make, and one page of children's fashions in color—15c. Pages for children
