IOWA OUT AFTER THE CASH Schedules Big Games Away in Order to Meet Deficiency.

FINAL CONTEST IN MILWAUKEE Only Three Football Games This Year Will Be Played on Home Field Because of Involved Condition of Finances.

IOWA CITY, Ia., Feb. 18.—(Special)—Iowa and Wisconsin will probably meet in Milwaukee in foot ball next fall instead of in Iowa City, and if this is the case the game will come on November 2, the late date of the season. Such was the report given out today by Manager Nelson A. Kellogg together with the Iowa schedule for next year. It is as follows: October 1—State Teachers' college at Iowa City. October 12—Cornell at Iowa City. October 19—No game. October 26—Minnesota at Minneapolis. November 2—Furman at Iowa City. November 9—Northwestern at Evanston. November 16—Ames at Ames. November 23—Wisconsin at Milwaukee.

Athletic Recruits Off for the South PHILADELPHIA, Feb. 18.—Base ball players who hope to become regulars on the Philadelphia American league team left here today for San Antonio, Tex., where they will begin spring training.

They are accompanied by Connie Mack, manager of the Athletics, who will keep a watchful eye on them. The party included Egan and Killbuck, catchers; Brown, Pike, Salmon and McCleary, pitchers; Chase, infielder; Whiting and Strunk, outfielders. With the exception of Strunk the men are all new players. Jensen, a pitcher secured from a Chicago semi-professional club, will join the team at St. Louis, and Gipe, Bonner and Haack, pitchers, who were with Pacific coast teams last season, will join the recruits at San Antonio.

SIX CLUBS IN COLUMBIAN Team Owners Meet at Chicago and Reach Decision.

CHICAGO, Feb. 18.—John T. Powers, president of the new Columbian baseball league, tonight announced that the league will be composed of six clubs instead of eight. Club owners held a meeting here today and decided finally to go through the season. Six clubs were represented. Detroit and Cincinnati, President Powers said, probably would not be in the organization, but Chicago, Kansas City, Indianapolis, Louisville, Milwaukee and St. Louis would start the season. Another meeting will be held here within a week. At that time a schedule will be adopted and the opening dates will be announced. It is expected the season will open about May 1 and close early in September.

WOODMEN DELEGATE ONLY ONE AGAINST RESOLUTION

ANSLEY, Feb. 18.—(Special.)—At a mass meeting held by the Modern Woodmen of America of Ansley, Neb., at which meeting there were 200 out of the 530 members present, on Friday evening, the following resolutions, with the exception of Delegate James Davies to the head camp meetings at Buffalo and Chicago, were adopted unanimously: Resolved, That we resent the action of the head camp, held at Chicago, Ill., wherein said head camp needlessly raised the assessment to a point unreasonably high and prohibitive and we condemn the methods and influence, especially, by which said measure was brought about, and we further condemn the passing of the new rates on the attained ages. Instead of the entry age and we further recommend that such steps be taken by the Modern Woodmen of America for the removal of all head officers of said order as soon as possible.

INTERESTING ADDRESS ON ABRAHAM LINCOLN. Senator Reynolds gave a very pleasant talk in which he expressed his appreciation of the lecture.

Mrs. Dungan closed the exercises with a violin solo, De Bortoli's "Air de la Valse."

PROPRIETOR OF BLIND PIG NEAR ALLIANCE PAYS FINE

BRIDGEPORT, Neb., Feb. 18.—(Special.)—Shirley W. Lyons and Deputy Sheriff raided a blind pig near Alliance last night and captured Mike Larkin, the proprietor. The officers found a barrel of beer and a government license issued to Barnett & Larkin, dated January 19, 1912. Larkin pleaded guilty in county court this morning to selling liquor without a license and was fined \$100 and costs, amounting to \$125.20.

TWO CHICKEN THIEVES PAY FOR FOWLS THEY STOLE

HEATHS, Neb., Feb. 18.—(Special.)—Two chicken thieves, who recently stole a few Rhode Island Reds from City Treasurer Evans, fearing that they would be arrested, called at the treasurer's office and paid him for the fowls. He agreed to drop the case if they settled, and they were only too willing to square matters. The city authorities propose to make it decidedly interesting for this variety of law breakers in Heaths.

NOTES FROM DOANE COLLEGE

Members of State Examining Board Spend Two Days at Institution. Superintendents Bodwell and Hunter of the state school examining board spent last Thursday at Doane inspecting the various phases of the work carried on. Mr. Bodwell spoke to the students at the chapel exercises. P. A. Swartz, Young Men's Christian association secretary in the international missionary work, spent last Wednesday and Thursday at Doane, working among the students. Harry W. Davison represented Doane at the state intercollegiate oratorical contest held at Grand Island this year. He won fifth rank, there being eight starters. The preliminary troups for the debaters had to be postponed until Wednesday, February 21, on account of other things interfering. With five of last year's debaters ready, besides others who have done a great deal of work on the question, Doane should be able to put up two winning teams this year in the Cotner-Doane Bellevue triangle.

SLASHERS DEFEAT CRACK CANADIAN TEAM BY SHAVE

SAN MATEO, Cal., Feb. 18.—The "Slashers," San Mateo polo club's first team defeated the Canadian team 14 to 13 today in one of the fastest and clearest games seen on the local field. The invaders showed splendid team work, but were unable today to connect with the ball and the slashing drives of Hobart, the San Mateo player and its captain. The San Mateo players kept the play in the Canadian territory most of the time. Today's game was the second round of play for the Eugene De Sabla cup, for which the English team and Slashers will play the finals Tuesday.

S.S.S. CURES CHRONIC ULCERS

Any chronic ulcer shows an unhealthy and impure condition of the blood. It is a diseased condition of the flesh at that particular spot, caused and kept inflamed and irritated by a continual discharge into it, of unhealthy matter from the circulation. No treatment can have any curative effect except a medicine which will renovate the blood and entirely remove the cause. Salves, washes, lotions, etc., are sometimes helpful in reducing inflammation, cleansing the ulcer, or perhaps lessening the discharge, but such applications do not reach the blood where the disease germs are located and can never effect a cure. S. S. S. goes down into the circulation, drives out all impurities and morbid matter, and by nourishing the flesh with rich pure blood causes the place to heal naturally and permanently. S. S. S. does not make a surface cure, but by beginning at the bottom, and rebuilding broken-down tissue, and supplying healthful, healing qualities to the blood, causes the place to fill in with new, firm flesh, while it steadily but surely effects a permanent cure. The ulcer can not exist when the blood is pure, and S. S. S. will thoroughly purify the blood. Book on Sores and Ulcers and any medical advice free to all who write.

Every PAIGE Motor is put to four tests before we allow anyone to buy it!

PAIGE MOTORS—and it's the motor, above all things else, that counts most in an automobile—are built with the same degree of care that the trustworthy manufacturer of cars selling for three or four times the price of the Paige, devotes to his motors. Then, though built with care which seemingly might insure mechanical perfection, Paige motors are put through a series of tests occupying a full week's time to prove them mechanically perfect or find any deficiency, if such exists, and that fact, more than any other, explains the distinguished rank of Paige cars. You have a right to know how the motor in the automobile you buy is built and tested. This is the Paige way:

- 1st—THE BELT TEST**: This first test is made by holding the motor to a stand, connecting it to a pulley shaft by means of a belt over the fly wheel, and running it for hours, first at slow and later at high speed. This wears the cylinder rings and all working parts into perfect smoothness and the entire engine must run evenly and silently before the belt is taken off. If any part binds or rough, the motor is immediately stopped, the faulty part adjusted and the belt connected up again. Most manufacturers do not give this belt test, but depend on the block test to show up any defects. Under the belt test, however, the motor is simply revolved by a quiet, turning shaft, and a scraping or binding is instantly detected.
- 2nd—THE BLOCK TEST**: In this second test the motor is run under its own power for several hours and most pronounced perfect and passed by the inspector in charge. This tests the "compression" and Paige motors must show perfect compression. It insures all valves being seated properly, quietness in the gears and tappets and also insures against leakage in water, oil and other connections. Under this test the motor is allowed to become heated, causing expansion in the metal and is thoroughly tried out in this condition. Briefly, under the block test, the motor is operated practically under actual working conditions and under conditions especially favorable for close inspection.
- 3rd—THE ROAD TEST**: Leaving the block test, and before going to the assembling department, the motor is mounted on a testing chassis and connected up exactly as it will finally be in its permanent car. It is then driven out by an expert machanician and given a thorough road test at various rates of speed on rough roads, smooth roads, hills, through sand and mud, etc. This test puts a "load" on the motor and places it under actual working conditions, insuring that all connections are tight and will not spring or leak and that the motor under extreme strain will work just as smoothly and quietly as in the testing shops.
- 4th—THE FINAL TEST**: After the road test, the motor is unbolts and disconnected from the testing chassis, given a thorough washing and cleaning and after painting is ready for the assembling room where it is mounted on the permanent chassis. After the body has been "set" to the chassis and the car stands finished, it is again driven out and given a final test. This includes a thorough test of the entire power plant and insures the various controls working smoothly and efficiently. On its return to the factory the motor is cleaned up and polished, the body washed, a new set of tires put on and the car is ready for delivery.

Tests of this kind throughout the construction of the whole car, our careful selection of materials, and the skill of our engineers and workmen, have earned Quality Leadership among popular-priced cars for the Paige.
