It says "Calumet" - For the critical housewives of America have found that Calumet Baking Powder makes the most appetizing, light, wholesome food - that Calumet is the most economical and dependable of all Baking Powders.

If you, too, Mrs. Housewife, want to learn what Calumet means to you, bake with it just one batch of biscuits. If you don't find it unlike any other -- so much greater in leavening power -- in uniformity - in purity - return it, and get your money back.

That's all we ask - and think what it means to you to always be sure that each time you bake you will have the most tempting biscuits, pastry, etc. Think of it - the highest quality Baking Powder at a moderate price - the most economical in use. Cheap big can kinds give you quantity, but not quality. High-priced trust brands mean extravagance. For no Baking Powder can be equal in quality to Calumet. Was not that proven when it received the Highest Award at World's Pure Food Exposition ?

Don't be deceived - ask for Calumet - and get it.
