Callahan Files for Commission—Michael E. Callahan has filed for commission, being the twenty-third to submit his petition with 100 signatures or more. The petitions that have been taken out now number 115.

Many Take Out Licenses—One hundred pool hall licenses have been issued and License Inspector Schneider says all proprietors have paid up. Twenty-one moving picture shows have been licensed, eight theaters and fifteen fortune tellers.

Will Bring Bermuda Fruit—J. D. Weaver has received a letter from C. E. Black, who is now at Hotel Trussell, Bermuda, that when he comes home he will bring Mr. Weaver a box of the finest Bermuda onions. This is "Dad" Weaver's favorite "fruit."

Uternanna to Talk Socialism—Ernest Uternanna will speak on "Why Things Happen to Happen" at the socialist meeting Sunday afternoon, at 3 o'clock at the Loric theater. He will dig into the causes of things as interpreted by the socialists and local members of the party promise an entertaining lecture.

Talks to High School Pupils—F. J. Kiker, head of the business training department at the Central High school in Kansas City, spoke to the advanced shorthand students at the Omaha High school yesterday on "The Value of Commercial Training to the Academic Student."

Parrot Faces Two Trials—A jury trial will be held in police court Friday morning, when the case of John Parrot will be held. Parrot is charged with selling beer on Sunday at 213 South Thirtieth street. He will be tried Saturday on a charge of running a disorderly house.

No Meeting of Police Board—Owing to the nonappearance of three members of the fire and police board last night the regular weekly meeting was adjourned without any business being transacted until next week. Commissioners Wapich and Hunter were the two members present.

GRAIN MEN TO OPPOSE WILEY

They Declare His Decisions Will Turn Business Upside Down.

DEALERS HOLD A CONFERENCE

At Meeting in St. Louis Rollings Will Be Discussed and Campaign Will Be Planned Against Chemistry Bureau.

M. P. Peck, president of the Omaha Grain exchange, and F. S. Cowgill will go today to St. Louis to attend a meeting called by the Grain Dealers' National association to discuss and probably plan a campaign against recent rulings of Dr. Wiley.

According to Wiley's rulings, oats that are bleached by sulphur may be confiscated in interstate commerce; corn may be seized and destroyed if inspectors find it of a grade other than designated, unless it is labeled "Not for feeding purposes; wheat may be confiscated if barley is found in it or if it may be confiscated if unfit for milling purposes, whether it is shipped to a mill or not.

"Our conference will be to reach a definite understanding of the meaning of the rulings," said Mr. Peck. "If the rulings, as we now understand them, are strictly enforced, they will turn the grain business upside down.

Rollings Out of Reason. "Some of the rulings are entirely out of reason. For instance, it is impossible to get barley out of oats, as the two grains will pass through the same screen, yet Wiley proposes to grab our oats, no matter how good they are, if he finds a few grains of barley in a car, suppose the Omaha Elevator company buys a car of wheat in Nebraska with a little barley in it. To get the barley out, we would have to ship the grain to our elevator in Council Bluffs. The government could confiscate the car as soon as it crossed the river, without giving us a chance to get the barley out.

"Corn, on account of bad weather, may change in grade while in transit and Wiley proposes to confiscate it if it does. As for bleached oats, it has been demonstrated that the sulphur used does not injure the grain for either man or beast. The sulphur is used to whiten oats that have been stained by rain in the field. It touches only the hull."

Sulphur Not Poison. "Sulphur is not a poison," says C. Vrevent of the Farmers' Grain company. "It is constantly used as a medicine. Sulphur springs are everywhere advertised for their medicinal qualities."

That the grain business will be hampered and limited and the price of grains to consumers rise in price as a result, if Wiley's rulings are allowed to stand, is the general prediction of Omaha grain men.

Fodrea Gives Away Trade-Mark Prizes

Prizes of \$100,000 worth of Omaha-made goods offered by the Omaha Manufacturers' Association for the best design for an Omaha trade mark, plans to give away all of the goods, except a small portion which Mrs. Fodrea says she wants.

The horse blankets, horse collar, hog powder, dog water, auto cane and hitching post will be given to local merchants' associations affiliated with the Nebraska Federation of Retailers to be given as prizes to farmers on "co-operative bargain days."

He will give his road scraper to the local association of retailers that gives the best reason why it should have the scraper for use in a good roads campaign in its county.

Most of the edible and wearable goods will be given to three charitable institutions in Omaha.

DECATUR BANK OFFERS PRIZES FOR SEED CORN

Thirty dollars in cash prizes has been offered by the Farmers and Merchants State bank of Decatur, Neb., for the best three ears of seed corn brought in by the farmers of the surrounding territory. Each farmer is to bring in one ear by Saturday of this week. The bank will test the corn.

J. Sorenson of Berwyn, Neb., has written to Manager Parrish of the publicity bureau of the Omaha Commercial club, asking that arrangements be made for the Burlington seed corn special to stop at that place. As the schedule stands at present, the train will stop at Broken Bow and Ansel, passing through Berwyn, which Sorenson says is a bigger corn shipping point than either of the other two towns.

NEW PAVING PETITIONS ARE BEING EXAMINED

Petition for paving Harvey street, from Park avenue to Twenty-eighth streets, has been filed and is being examined by the legal department. This is the first step in the reclamation of the city and Mrs. Emily Snow, who claimed and fenced in thirty-four feet of the street. The street was narrowed by thirty-four feet and by law the land so vacated devolved to the property holders.

Eight grading petitions are now in the possession of the legal department. Petitions have also been filed for the paving of Parker from Twenty-ninth and Thirty-second streets, and Thirty-first, from Croighton avenue to Marilla.

COUNTY FARM MAY BE SOLD Cold Spell Checks Damaging Streams

Commissioner Harte Says He Favors Plan to Raise Money.

GRAND JURY INSPECTS FARM

Finds Conditions Deplorable and Will Report Accordingly—To Be Used as Basis for Making Required Changes.

Solution of the problem of the deplorable conditions at the county hospital and poor farm may be found in the sale of the farm (or from \$10,000 to \$15,000 of the farm) for about \$10,000, and the building of a modern hospital and the establishment of a modern farm with the money so raised.

County Commissioner A. W. Harte declared himself in favor of this plan yesterday.

Before the Douglas county grand jury had been at the hospital a half hour yesterday the grand jurors were agreed that the present conditions should not be permitted to continue. The grand jury's report and recommendations will be of such a nature as to fully warrant the board of County Commissioners in taking immediate action toward doing away with the present wholly unsatisfactory conditions at the hospital and farm.

Commissioner Harte declared that ten acres would be sufficient for a county poor farm, as most of the 100 acres on the present farm are not being worked and never will be. He says that persons able to do good work never will stay at the farm. All they can do is "putter around" and do a little gardening. The county has a lot of money sunk in the farm that is paying nothing and never will. The hospital should be separate from the farm and should be close to town, but the farm should be ten or fifteen miles out.

The grand jury visited the hospital and farm and made thorough inspection yesterday.

TRI-CITY RIFLE AND REVOLVER SHOOT THURSDAY

The formal opening of the Tri-City Rifle and Revolver club will be held this afternoon at the Omaha Gun club's grounds, just east of the Douglas street bridge. Five events with prizes will be on the card. A season cup will be offered for the best shooting and will be open to challenge at all times. The Omaha gun club will hold a rabbit hunt about all day. Following is the card:

- 25 yards, standing, 22 rifle. First prize, hunting coat, second, marble hunting knife.
25 yards, prone, 22 rifle. First, jersey sweater, second, billboard.
25 yards, 22 caliber pistol. First, thermos bottle, second, flask.
20 yards, revolver. First, playing cards. Second, revolver holster.
Ten balls at trap, 21 rifle. First, box of cigars, second, 20 22 cartridges.

in the south part of the state have been hoping for.

During the warm weather of the early part of the week down along the Missouri Pacific and the Burlington southern lines the snow melted very rapidly and the water flowing into the streams raised many of them to the flood stage. Lowlands were overflowed and numerous bridges over the small streams were

threatened. The present spell of cold weather has checked the thaw and the water in rivers and creeks is falling so rapidly that all fear of flood damage has passed.

A Ton of Gold could buy nothing better for female weaknesses, lame back and kidney trouble than Electric Bitters. Only 50c. For sale by Beaton Drug Co.

MODEL 'M'

BRIEF SPECIFICATIONS—40 H. P. Motor, 4 cylinders, 4 1/2 x 5 1/2, enclosed tappets. Double ignition, High Tension Splitdorf Magneto and Atwater Kent System with eight spark plugs. PRICES—With full equipment: Model M, \$2,200.00; Model N, \$2,200.00; Model O, \$2,200.00; Model L, \$2,750.00, F. O. B. Moline, Illinois.

Do not fail to see the VELIE at the Auto Show—this week, Auditorium

John Deere Plow Company

Tenth and Howard Sts., Omaha, Nebraska

WOODWORTH TREADS

A pair of Woodworth Treads lasts about as long as the bare "shoes," and sells for about half as much. The tire thus protected lasts about three times as long as if run bare, and all repairs are eliminated. That's how the OWNER saves, both in money and in freedom from trouble.

1912 WOODWORTH TREADS
Heads of Center Studs glass-hard clear through. Last 50 per cent longer than ordinary surface-hardened studs.
Heads of Border Studs soft to give non-skidding grip on smooth pavements.
Chrome Leather Base finished by new process and permanently waterproof and pliable.
Side Springs attached by new, quick-acting hooks.
Excessive thickness of fabric not necessary, owing to constant tension of side springs preventing looseness and chafing.
Readily applied by anyone.

THE TREAD APPLIED

Table with 3 columns: Size, Full Studded, Center Studded. Rows include sizes 30x3, 32x3 1/2, 34x4, 36x4 1/2, 38x5 with corresponding prices.

THE BAUM IRON CO.

SEE US AT THE SHOW.

Our 70-Year Reputation for Mechanical Perfection is Behind the GREATER CASE 40

The Greater Case—our new self-starting "40"—is a car with a name that for three generations has stood for high-class machinery. We staked that 70-year reputation—the world-wide prestige—when we entered the automobile field.
And the car on which we risked so much has won new laurels for CASE. The Greater Case is great in size and magnificent in appearance. It has all the elegance and style and luxurious comfort of cars that cost a fortune. But the dominant factor in its supremacy is the powerful, silent engine that's under the hood of the Case.

The Case Eagle On Your Car
This emblem on an automobile has the same significance as the STEERING MARK on a motor. It stands for highest quality and a guarantee that protects. It places at the disposal of the owner of a Case Car

Case machinery was famous for quality when your grandfather was a boy. And for three generations that high standard of quality has steadily been maintained.
Big Value—Medium Price
The Greater Case is a high-grade car at a medium price. Four-door ventilation, combination oil and electric side and tail lamps with storage lighting battery—reliable self-starter—32 1/2 inch front—38 1/2 inch wheel base—11 inch clearance—4 x 2 1/2 inch cylinders—Rayfield carburetor—Brown-Lipe transmission—Timken full-floating axle—cellular-type radiator—regulation trimmings—demountable rims—English mohair top with side curtains and dust hood—high-grade wind shield—12 inch acetylene gas head lamps—Prest-O-Lite tank for head lamps—one extra demountable rim—complete set of tools—jack and tire-repair kit—pump. These are some of the special features that belong to the Greater Case. If you want a lighter, less powerful car, investigate the well-known Case "30."

J. I. CASE T. M. CO., Incorporated, RACINE, WIS.
Factory Branch, 600-620 L Street, Lincoln, Neb.

Large advertisement for Stoddard-Dayton automobiles, featuring a large image of a car and a circular logo with the text 'Stoddard-Dayton MODELS grouped at the Omaha Automobile Show offers an exhibit which easily surpasses in points of interest that of any other line.
