

This is Why Sampeck Clothes Have a Different and Distinctive Appearance

Principally, because Sampeck has for years studied young men's clothes, he has acquired a knack and cleverness in designing clothes which will fit you and your personality perfectly—it is this subtle "bringing out" of your own individuality which makes Sampeck clothes different.

Of course there are fabrics and patterns which can be obtained in no other clothes except Sampeck's, and there never was as much value stitched into a suit of clothes as there is in these Sampecks at—

STILL 'TILTING' R. BROWN

Second Requisition Made for Him on Colorado Governor.

WANTED BY BOX BUTTE JURY

Representative of Colorado Lumber and Fuel Company Alleged to Have Defeated Ends of Justice by Removing Books.

(From a Staff Correspondent.) LINCOLN, Feb. 23.—(Special Telegram.)—County Attorney Burton of Box Butte county has obtained another requisition for the return from Colorado to Alliance of Raymond Brown, the former requisition having been denied by the governor of Colorado. The refusal was based on the ground that the previous one did not state what was an extraditable offense under the law of Colorado.

It is thought the new one will meet this objection. Brown is accused of defeating the ends of justice by removing from the state certain records of the Colorado Lumber and Fuel company, doing business at Alliance and Hay Springs, the intent of the removal being, it is alleged, to defeat the prosecution of a conspiracy indictment.

Directors of Lumber Company Charged With Taking Cash

PHILADELPHIA, Feb. 23.—Claiming that the concern was organized for the purpose of defrauding the public, and that it is insolvent, four stockholders of the International Lumber and Development company, with offices in this city, today filed a bill in equity in the United States district court asking for the appointment of a receiver for the corporation. Judge McPherson fixed March 5 for hearing arguments on the appointment of a receiver.

The corporation has a capital of \$5,000,000. It was organized for the development of timber and agricultural lands in Mexico. The complaining stockholders charge that the officers and directors have appropriated to themselves sums of money amounting to \$500,000.

It is alleged in the bill that the promoters of the company got possession of 288,000 acres of land in Mexico that had originally cost \$100,000, and floated a \$5,000,000 corporation. Subscriptions were offered to the public, and it is alleged, when purchasers failed to pay monthly installments of \$5 a share the contracts under which they purchased the stock provided that they should lose all rights to the stock.

One cent postage received a boost at the hands of the retail hardware dealers this morning when the report of the committee on resolutions favoring the one-cent rate for letters was adopted without objection. Members of the delegation in congress will be asked to work for the passage of such a bill.

Declaring that the parcels post plan would result in the centralization of business in the big cities, the dealers urged that congress appoint a commission more thoroughly to investigate the plan before any step is taken to pass a parcels post bill. In addition the committee made an objection to a change in the classification of rates on mixed carload lots of steel and iron products, declaring that such a change would work a great harm upon the hardware men of the state. The Iowa railroad commissioners are requested to use every effort to retain the present classification.

OKLAHOMA DELEGATION SPLIT

Clark and Wilson Will Each Have Ten Members.

FIGHT LASTS THE ENTIRE NIGHT

Proposition to Endorse Speaker Clark is Voted Down at 9 o'clock This Morning—Compromise Then Follows.

(From a Staff Correspondent.)

OKLAHOMA CITY, Okl., Feb. 23.—Contest for control of the Oklahoma delegation to the national convention, waged between Charles Clark and Woodrow Wilson's campaigners, resulted in a compromise agreement at 4 o'clock this morning, whereby a split delegation will be sent to Baltimore. The convention adopted the report of the Wilson floor leader, pledging ten delegates for Wilson and ten for Clark.

An amendment to the compromise resolution providing endorsement of Clark, was lost by a vote of 24 1/2 to 26. The convention took a recess till 10 o'clock.

The compromise was reached after a contest lasting practically all night, state politics frequently obstructing the way to a decision on the character of the Oklahoma delegation.

Turning Point in Fight.

The turning point in the fight came when the amendment endorsing endorsement of Speaker Clark was defeated, as the vote on it showed plainly to the Clark adherents that nothing remained but compromise; whereas the Murray resolution for a divided delegation was adopted.

It is contended by party leaders here that the division of the delegation presides any Oklahoma votes being cast for Harmon. At the Baltimore convention Oklahoma's entire strength will be thrown either to Clark or Wilson as soon as one of them shows a decided lead in the balloting.

Gore Heads Wilson List.

Senator Thomas P. Gore heads the list of ten Wilson delegates named at the democratic state convention this afternoon to attend the national convention at Baltimore.

PIERRE, S. D., Feb. 23.—(Special.)—Mrs. Russell, one of the "suffering" housewives here, Eagle Butte, a few days ago, missed a 150 diamond setting out of one of her rings and started a search of the house, with a dust brush and tray, and her husband as special relay. Nothing looking like the sparkle was to be found, and the situation looked hopeless. The next day Mr. Russell set his teeth against something hard in a slice of fresh bread which his wife had just baked, and began to search, for the cause of the trouble along with his remark, and was so pleased to find that he was hitting into the missing sparkle that he had no further objections to make.
