

Nebraska

BEATRICE MEN FILE BRIEF

Make Additional Attack upon Commission Form Law.

DECLARE SPECIAL LEGISLATION

Prohibition of Party Designation Alleged to be Denial of Rights of Citizens—Assertion Act Broader than Title.

(From a Staff Correspondent.) LINCOLN, Neb., Feb. 25.—(Special Telegram.)—Another brief, as friends of the court, was filed today in supreme court in the case brought by Wilmot Baughin to test the validity of the Omaha commission charter. It was filed by E. O. Kretzinger, A. M. Morrison and Meier & Meier, the latter of Lincoln and Kretzinger of Beatrice. The first tried to file a petition in intervention, but the court refused to permit this, as the case has already been argued and submitted, but they were permitted to file the supplemental brief.

One point raised in this brief not touched on in the ones previously submitted is that by its provisions it is special legislation, because by its verbiage it confined the operation of the law to cities now having more than 5,000 population, instead of as intended to become in other cities as soon as they attained that population. This, it is asserted, will force out others which grow to that size from adopting its provisions.

It also urges the prohibition of party designation is a denial of the rights of citizens. Argument is also made that the provision for removal of officials is new legislation. They also go into the assertion that the act is broader than its title.

Judge Reese No Better. Word received from Judge Reese, who is at Excelsior Springs, is that he is no better and from the tone of the letter it is feared by his friends here that the judge is not so well as when he went away. He has been troubled by pains in the back and hips, the nature of which are not quite clear.

Beaton Renews Application. Frank J. Beaton of Omaha, who was refused a license as a life insurance agent on complaint of the Phoenix company, has settled the matters in controversy and renewed his application. No decision has been made on this.

M. F. Equipment Bonds. The Missouri Pacific Railroad company has applied to the State Railway commission to issue \$4,000,000 of equipment fund bonds and the permission has been granted. Only \$2,000,000 of the bonds can be issued at present, however, and the road must report to the commission when the bonds are sold, the amount received for them and what was done with the money. The petition of the company sets out that it at one time issued \$6,000,000 of equipment bonds and that of this issue \$2,000,000 have been paid out of funds obtained by means other than bond issues and it is this amount which the company

That Tightness of the Stomach

Caused by Formation of Nauseous Gases from Undigested Food—Instantly Stopped with a Stuart's Dyspepsia Tablet.

Trial Package Free. When you feel as if your stomach was being tightly choked—when the pain is intense and you break out in a cold and clammy perspiration and there is a lump in your throat and you are weak and nauseated—all you need is a Stuart's Dyspepsia Tablet to clear away the wreckage of undigested food left in the stomach and intestines and restore you to your normal self again.

That Knotty Feeling of the Stomach is Instantly Relieved by a Stuart's Dyspepsia Tablet.

Thousands of people have learned so well how sure and dependable Stuart's Dyspepsia Tablets are for all stomach ills that they are never with a package at home and at the office, and upon any indication that the stomach is a little weary, they take a Stuart's Tablet after each meal for a few days until the digestive organs get rested up again. This is a splendid plan to follow and always results in much good. The appetite is improved, the food is relished more, your sleep is more refreshing, and your disposition will make you friends instead of enemies.

Use them freely—they are as harmless as sugar would be—and are by no means to be classed as "medicines." They have no effect whatever on the system except the benefits they bring you through the proper digestion of your food.

All drug stores sell Stuart's Dyspepsia Tablets. The price is 50 cents per box. If you wish to try them before purchasing, address F. A. Stuart Co., 136 Stuart Bldg., Marshall, Mich., and a trial package will be sent you free.

Nebraska

is authorized to release. The remainder of the original issue, \$4,000,000 can only be issued as rapidly as their predecessors are paid and retired, leaving the equipment mortgage no greater than it originally was. It is set out that the money derived from the bonds is to be used for the purchase of equipment and to reimburse the company money paid for equipment out of funds derived from other sources than bond issues.

U. F. Right-of-Way. The railway commission was occupied today hearing testimony regarding the valuation of the right-of-way of the Union Pacific company. H. Borten of the company arrived at his conclusions of the value of the right-of-way in cities by adding 35 per cent to the assessed value of similar lands and then using the multiple of two as the segregated value of the lands. The state's experts take issue with both the method of arriving at the actual value of the land and also maintain that the multiple used as the segregation value is correct, asserting that it is too high.

Emmett Stays With State. E. E. Emmett, state bank examiner, who was offered a position as national bank examiner, has concluded he does not want the job, but prefers to keep the one he has with the state. This will be bad news for a large number of persons who had applied for the position of state bank examiner when Mr. Emmett should vacate the place.

C. M. Punny of the state superintendent's office, was at Auburn Sunday when the storm blocked the roads and was not able to get home until today.

State Buys Some Land. The state is buying a triangular piece of ground containing one and one-half acres to add to the grounds of the tuberculosis hospital at Kearney, paying therefor \$300. The tract lies between the present grounds and the direct road from the hospital building to the public highway and the state purchase was to enable the institution to have a more direct outlet. The land was the property of Frank H. Gilchrist.

Two Men Pardoned. Harry Davis, sentenced for forgery, and Tillman Reynolds, sent up from Adams county for mayhem, were pardoned today from the penitentiary. The pardons were issued yesterday, but the men served an extra day because of the blockaded condition of the street railway making it impossible to reach the city. Both men are to be turned over to the Kansas City Society for the Friendless, which will care for them until they can obtain employment.

Opposed to Changing Rule. Local Methodist ministers have been interviewed on the proposal, which will come before the next general conference of the church, to be held in Minneapolis to lift the ban on dancing. Without exception the local clergy of that church, so far as seen, are opposed to changing the rule of the church. One of them, in close touch with the students at Wesleyan university, said he was sure a great majority of the student body at that institution was also opposed to dancing.

The proposition has been up before every general conference for many years, and has as a result been gradually decreasing. In many parishes of the church, especially in the cities, the provision of the discipline has been a dead letter except so far that the church has never sanctioned the practice.

Snow Disposal Serious. Snow disposal is a serious problem for the city. Calling on the vast quantity would entail an expense which the city does not feel able to bear. Street laborers cleared the gutters in the downtown district and the experiment of flushing the streets from hydrants was tried with indifferent success.

Water Filling on Middle Loup. E. D. Bennett of New York City, in behalf of himself and capitalists, has filed a claim for a water right on the Middle Loup river near Arapahoe. The plans contemplate the expenditure of \$200,000 to erect a hydro-electric plant, which it is anticipated will sell power and light to Grand Island, York, Hastings and numerous other towns and cities within the radius of the profitable distribution of current from the plant. His filing calls for 50 cubic feet of water per second and by the erection of a dam twenty-six feet high he expects to develop 2,000 horse-power. The filing fee was \$50.

PRINCE'S PLATFORM HAS SEVEN PLAIN PLANKS

GRAND ISLAND, Neb., Feb. 25.—(Special.)—Willard A. Prince, who has announced his candidacy for the nomination for congress on the republican ticket in the Fifth district, has given out the following platform on which he proposes to make the race before the primaries and after in event of his nomination: The people when called upon to elect a congressman have a right to know where he stands upon important matters under consideration, and I am glad to state my position.

First—I am in favor of a reduction of many of the duties of the Payne-Adrich tariff bill. This reduction should be made upon a scientific principle so as neither to cripple American industries nor to afford a shelter for monopolies or trusts.

Second—I believe inferior federal courts should not be allowed to enjoin state laws. That power should be vested originally in state courts with a right of appeal to the United States supreme court, and I will, if elected, work and vote to have the judicial laws so amended.

Third—I will work and vote for any proper amendment to the Sherman anti-trust law which may be found necessary to suppress trusts, monopolies and illegal combinations.

Fourth—I will work and vote for a law limiting the Union Pacific right-of-way to 500 feet. I do not believe that settlers who have lived upon land for many years, improved, cultivated and paid taxes upon it should lose their property.

Fifth—Congressmen in the past have been paid 20 cents a mile each way as mileage. The actual expense does not exceed 5 cents per mile. I will work and vote for a law to reduce it to that amount and will not accept more if elected.

Sixth—Congressmen are allowed \$1,500 per year clerk hire. If they have no clerk many of them take the money themselves. I will vote and work to have this made payable directly to the clerks and only to those employed and will accept no part of it myself.

Seventh—in conclusion I will state that new issues are constantly arising. We can hardly anticipate what the future may bring forth. If nominated and elected I will attempt to represent the best sentiment of this district.

Agree on Drainage Plans. TECUMSEH, Neb., Feb. 25.—(Special Telegram.)—At a meeting of the property owners along the Nemaha river in Johnson county, in Tecumseh today the engineer's plan for the ditch of drainage district No. 1, which is the whole county, was accepted. This improvement will cost not less than \$100,000, and is thought will prevent the flooding of the low lands along the stream.

The key to success in business is the persistent and judicious use of newspaper advertising.

ST. EDWARDS, Neb., Feb. 25.—(Special Telegram.)—The seed corn special arrived at 1:25 today and was greeted by over 600 farmers and citizens making a fitting close for the day's trip in which they have addressed over 2,000 farmers in eight towns in this part of the state beginning with a crowd of 60 early this morning at Madison and stopping at Humphrey, Genoa, Pullerton, Belgrade, Cedar Rapids, Spaulding and St. Edward.

The speakers have had more listeners at every station than their special train would accommodate and have found it necessary to convert depots into lecture rooms.

O. Hull, who was to join the train at Humphrey this morning, missed connections and only entered the special here but will be with it the balance of the trip. The train met with no special demonstration during the day and most of the audiences have been farmers who are very interested in the work. The questions asked have done much to bring new lines of talk from the management.

FARMERS HEAR CORN GOSPEL

Seed Specials Attract Big Crowds All Along the Way.

DEPOTS MADE LECTURE ROOMS

Cars Provided in Many Places Prove Too Small to Accommodate Large Numbers that Gather to Listen to Experts.

ST. EDWARDS, Neb., Feb. 25.—(Special Telegram.)—The seed corn special arrived at 1:25 today and was greeted by over 600 farmers and citizens making a fitting close for the day's trip in which they have addressed over 2,000 farmers in eight towns in this part of the state beginning with a crowd of 60 early this morning at Madison and stopping at Humphrey, Genoa, Pullerton, Belgrade, Cedar Rapids, Spaulding and St. Edward.

The speakers have had more listeners at every station than their special train would accommodate and have found it necessary to convert depots into lecture rooms.

O. Hull, who was to join the train at Humphrey this morning, missed connections and only entered the special here but will be with it the balance of the trip. The train met with no special demonstration during the day and most of the audiences have been farmers who are very interested in the work. The questions asked have done much to bring new lines of talk from the management.

Large crowds of farmers are greeting the four seed trains sent out by the Burlington and Union Pacific yesterday. Word has been received from the Burlington, train from Omaha that at the four stops 500 farmers on an average at-

tended the lectures at each stop. The Union Pacific train from Omaha and the other two specials from Lincoln are meeting with as great success.

The four trains are running on schedule. General Passenger Agent Wakeley of the Burlington says that the visit of these four trains at the different towns in the state will do a world of good.

"I think that the specials will attract a larger crowd this week than they would have last week," said Mr. Wakeley, "because, while the weather is colder and there is considerable snow on the ground, the roads are hard and easier to get over than they were last week."

WITNESS IN JAIL RATHER THAN TELL MAN'S NAME (From a Staff Correspondent.) LINCOLN, Feb. 25.—(Special.)—Helen Chase Steaditz, a young woman who was a witness in a case against May Diddy, charged with keeping a disorderly house, was sent to jail today for contempt of court. She had testified to meeting various men at the place, but when asked to name them refused. The judge ruled that she must answer, but she went to jail rather than comply.

Notes from Doane College. CRETE, Neb., Feb. 25.—(Special.)—The college orchestra, under the direction of Prof. Dick, gave a splendid concert Friday evening in the chapel. The orchestra is made up of the best talent in Crete, besides the best in the college, so that the work done by this organization equals that of many professional orchestras.

The mid-year banquet of the Alpha Omega fraternity was held Friday evening, and that of the Independent Debating club on Saturday evening.

During the warm days of last week, several of the men have been out on the athletic field, doing a little preliminary work, in hurdling and throwing the weights and discs. The gymnasium classes will be held until spring vacation, and after that all the training will consist of out-of-door work.

CUSTER COUNTY COUPLE BADLY HURT IN RUNAWAY

BROKEN BOW, Neb., Feb. 25.—(Special.)—H. F. Grabert and wife, living eight miles east of here, were seriously injured in a runaway last night while returning home from a neighbor's, where they had been spending the evening. In the wagon with Mr. and Mrs. Grabert were two small daughters, 5 and 10 years old. While going over a piece of rough road the horses took fright and started to run. In the darkness Mr. Grabert lost control of the animals and, in striking, violently throwing the occupants some distance from the road, Mr. and Mrs. Grabert were rendered unconscious and the two little girls, although badly bruised, walked a mile to the Bartholomew ranch for assistance. The injured people were taken to the latter place and Mrs. Talbot and Buckley summoned from here by telephone. Grabert was found to be suffering from several fractured ribs and a severe shock, while his wife's head is dangerously cut and bruised, a big portion of her hair having in some unaccountable way been torn out by the reins. Mrs. Grabert's condition, so the physicians say, is critical.

BEVERIDGE'S NAME FILED BY ROOSEVELT'S FRIENDS

LINCOLN, Neb., Feb. 25.—A petition placing the name of Albert J. Beveridge on the republican preferential primary ballot for vice president, was filed by twenty-seven residents of University Place, Neb., this morning. The petition is signed by republicans who are known supporters of Colonel Roosevelt for the presidential nomination.

Letter to a Million Owners of HYOMEI Inhalers

Some Information about the Money Back Cure for Catarrh, Coughs, Colds, Croup and Catarrhal Deafness.

Because of the enormous sales of HYOMEI during the present year, we deem it advisable to publish this letter.

HYOMEI has cured more cases of catarrh (acute, chronic, mild and stubborn) than all the catarrh specialists in America.

But in order to get the best and quickest results the directions should be closely followed.

Change the gauze in the inhaler every week, or better still, every four days—remove both stoppers from inhaler before using.

Never mind how strongly of HYOMEI the inhaler smells, to get actual benefit 15 drops of HYOMEI should be poured into the inhaler three times a day. A

less amount won't destroy the germs. Read the directions carefully and if you are afflicted with a stubborn case of catarrh use the vapor treatment as directed.

Remember that the little hard rubber inhaler will last a lifetime and that an extra bottle of HYOMEI with generous supply of gauze can be obtained for only 50 cents.

A complete HYOMEI outfit, including inhaler costs \$1.00 at dealers everywhere. Money back if not satisfied when you use HYOMEI for catarrh, catarrhal deafness, coughs, colds and croup. HYOMEI contains no opium, cocaine, mercury or other harmful drugs.

FOR ALL MEN AND WOMEN

I will give you free a sample of Dr. Pierce's Pleasant Pellets, that have brought health and happiness to thousands—also a book on any chronic disease you need.

The story of my free offer to you is quickly told. During my many years of practice I have used numerous combinations of curative medicines for liver ills. I have kept records of results in case after case, so that my staff of physicians and surgeons, at the Invalids' Hotel, Buffalo, N. Y., are able to diagnose and treat cases at a distance with uniform good results. I am going to send you free a sample package of Dr. Pierce's Pleasant Pellets, which will relieve biliousness and ill health due to a disordered liver. Write at once for a sample or a book.

But for the permanent relief of blood disorders and impurities, I can recommend my "Golden Medical Discovery"—a blood medicine without alcohol.—R. V. PIERCE, M. D., Buffalo, N. Y.

Nature's Way Is The Best.

Buried deep in our American forest we find bloodroot, queen's root, mandrake and stone root, golden seal, Oregon grape root and cherrybark. Of these Dr. R. V. Pierce made a pure glyceric extract which has been favorably known for over forty years. He called it "GOLDEN MEDICAL DISCOVERY."

This "Discovery" purifies the blood and tones up the stomach and the entire system in Nature's own way. It's just the tissue builder and tonic you require.

Dr. Pierce says:—"Glycerine plays an important part in Dr. Pierce's Golden Medical Discovery in the cure of indigestion, dyspepsia and weak stomach, attended by sour risings, heartburn, foul breath, coated tongue, poor appetite, gnawing feeling in stomach, biliousness and kindred derangements of the stomach, liver and bowels.

In coughs and hoarseness caused by bronchial, throat and lung affections, except consumption, the "Golden Medical Discovery" is a most efficient remedy, especially in those obstinate, hang-on-coughs caused by irritation and congestion of the bronchial mucous membranes. The "Discovery" is not so good for acute coughs arising from sudden colds, nor must it be expected to cure consumption in its advanced stages—no medicine will do that—but for all the obstinate, chronic coughs, which, if neglected, or badly treated, lead up to consumption, it is the best medicine that can be taken." Sold by all principal dealers in medicines.

To find out more about the above mentioned diseases and all about the body in health and disease, get the Common Sense Medical Adviser—the People's Schoolmaster in Medicine—revised and up-to-date book of 1000 pages—which treats of diseased conditions and the practical, successful treatment thereof. Cloth-bound sent post-paid on receipt of 31 cents in one-cent stamps to pay cost of mailing only. Address Dr. Pierce's Invalids' Hotel, Buffalo, N. Y.

DRAGON RIDDEN

CHINA Russia's dragon is tyranny; China's, superstition. Each is the subject of an article, the intrinsic interest of which is unusual.

"Pictures in a Chinese Temple," by Thornton Oakley, emphasizes that side of Chinese life which is picturesque rather than progressive. But Harriet Monroe's description of "The Education of Chinese Children" shows how the picturesque is giving way to ideas and ideals from the western world. Her description of the ancient methods is all the more timely because those methods are slowly disappearing. Naturally a Chinese mother graduated from Bryn Mawr has ideas against compressing either feet or heads.

George Kennan, to whom we already owe so much of what we know about Russia, tells of the workings of the "mouse-trap," one of the methods by which the police try to throttle the enemies of the government. Kennan quotes Dumas for his description of a device not unknown outside Russia; but only so great an authority on Russian affairs as George Kennan can adequately describe the modern "mouse-trap" of that country.

In January, The Century gave the first pictures of the superb Lincoln Memorial proposed for Washington. In this number appears the first published views of Daniel Chester French's inspiring statue of Lincoln. Such features emphasize the leadership of The Century in the field of art.

These are but four of the interesting features of a number unusually rich in pictures, stories and articles.
